SUPER SAVER!

Do you work with ICs? Do you have trouble finding the IC you need? Are you sick and tired of sifting through dozens of manufacturers' data books? Do you have trouble comparing one set of specs to another? Are you sick and tired of wasting time?

Do we have good news for you! Get your hands on a copy of the IC Master. The Master will save you both time and money. Here's how.

The Master list every single IC you can buy. Better yet, the Master lists ICs by *function.* You know what you want to do. The Master tell you who makes what you want to do.

There's more! The Master lists every known alternate source to every intgrated circuit. If somebody makes a substitute for an IC, the Master tell you. And fast!

Want to find a custom or semicustom IC? The Master tells you how to go about it. Want to design an ASIC? The Master tells you who makes the tools and how to go about it.

Looking for a distributor or a local sales office? The Master tells you where they are. Got a technical problem? The Master tells you who to call. Can't figure out a part number? The Master tells you how the systems work.

There's more! The Master has a section on microprocessor development tools. There's another section on microcomputer boards. There's a section on applications notes.

If your question has anything to do with integrated circuits, you need the IC Master. Order your copy now. . . . Call 516/227-1300. The operator will answer, "Hearst Business Publishing." Ask for Marie Botta. Tell Marie you need the Master now.

If you prefer, write to Marie, Hearst Business Publishing, 645 Stewart Ave., Garden City, NY 11530. Order forms for the IC Master will be mailed to you promptly.

$\downarrow$	decreases

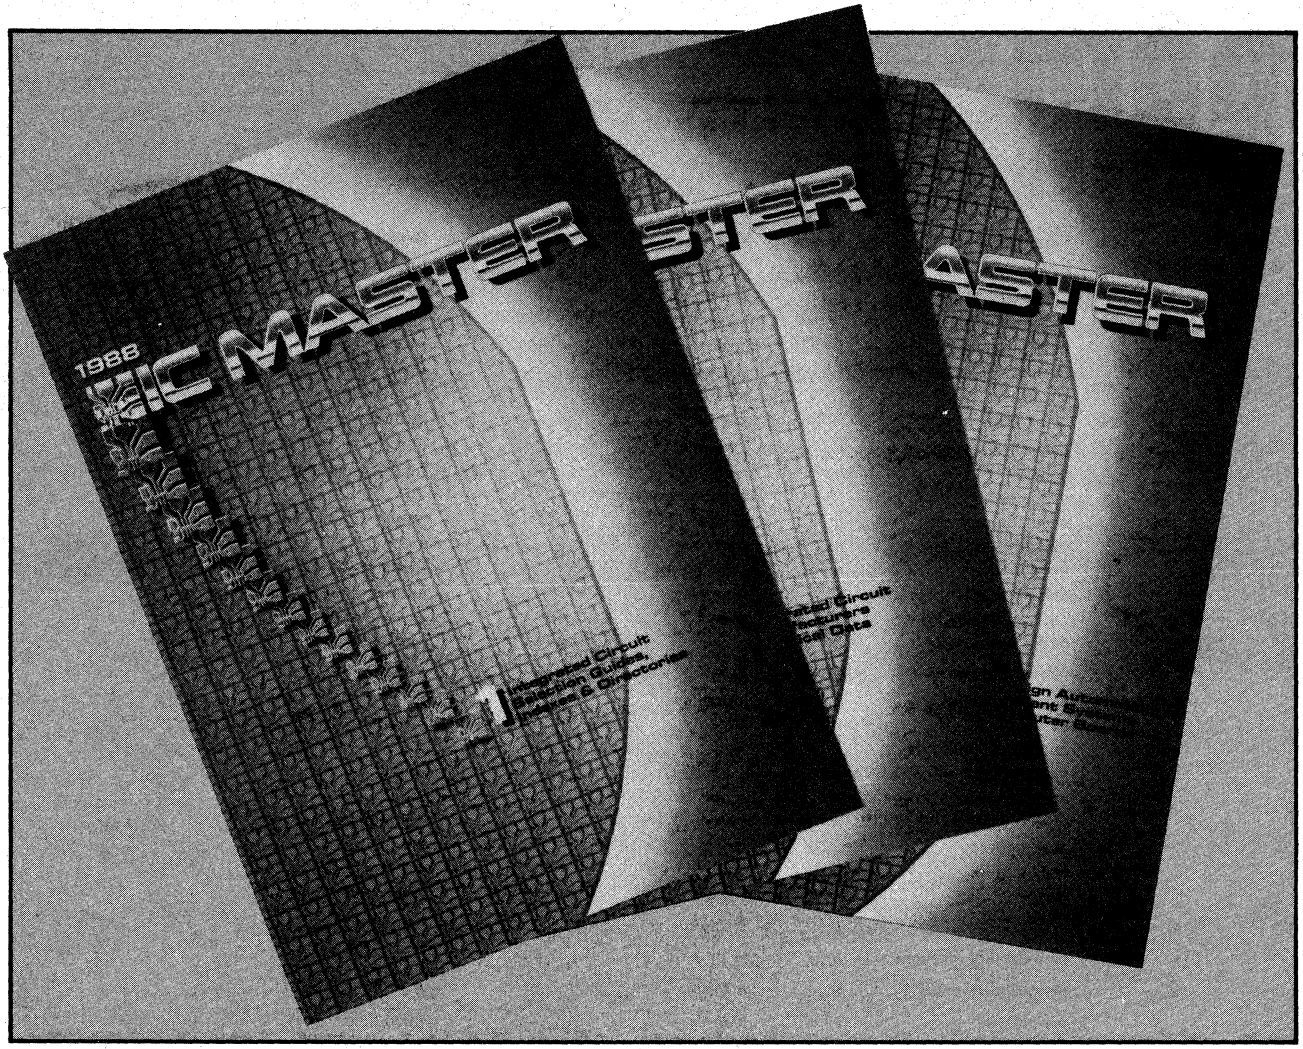
PREFIXES FOR SI UNITS

Multiple	Prefix	Symbol
10^{12}	tera	T
10^{9}	giga	G
10^{6}	mega	M
10^{3}	kilo	k
10^{-3}	milli	m
10^{-6}	micro	μ
10^{-9}	nano	n
10^{-12}	pico	p

Quantity	Symbol	SI Unit	Symbol	Derivation
acceleration	a	m s^{-2}	—	velocity/time
acceleration due to gravity	g	m s^{-2}	—	velocity/time
amount of substance	n	mole	mol	mole fraction (n) used
amplification factor	μ	*a ratio*	—	—
angle	$\theta_1, \varphi_1, \alpha_1$	—	—	—
angle of incidence	i	degree or radian	°	—
angle of refraction	r	degree or radian	°	—
angle, Bragg	θ	number	—	—
angle, critical	c	degree or radian	°	—
anode slope resistance	R_A	ohm	Ω	$\Delta V_a / \Delta I_a$
area	A	metres squared	m^2	$l \times b$
atomic number	Z	a number	—	number of protons
Avogadro constant	L, N_A	number	—	—
breadth	b	metre	m	fundamental unit
capacitance	C	farad	F	charge/p.d.
charge, electric	Q	coulomb	C	current × time
charge on electron	e	coulomb	C	$1{\cdot}6 \times 10^{-19}$ C
conductance	G	ohm^{-1}	Ω^{-1}	reciprocal of resistance
current, electric	I	ampere	A	fundamental unit
decay constant	λ	*a ratio*	—	—
density	ρ	kg m^{-3}	—	m/V
distance along path	s	metre	m	fundamental unit
efficiency	η	*a ratio*	—	work output/work input
electrochemical equiv.	z	g C^{-1}	—	mass/charge
electromotive force	E	volt	V	energy/charge
electron	e	—	—	—
energy	E	joule	J	N m
energy, kinetic	E_k	joule	J	N m. $E_k = 1/2mv^2$
energy, potential	E_p	joule	J	N m. $E_p = mgh$
Faraday constant	F	coulomb mol^{-1}	C mol^{-1}	96,500 C mol^{-1}
field strength, electric	E	V m^{-1}	—	potential gradient: p.d./dist.
field-strength magnetic	H	ampere-turns	—	current × no. of turns
flux, magnetic	Φ	weber	Wb	e.m.f/rate of change of flux
flux density	B	tesla	T	flux/area
focal length	f	metre	m	—
force	F	newton	N	kg m s^{-2}
free energy	ΔG	joule	J	—
frequency	f	hertz	Hz	oscillations/time
gas constant	r	joule	J	energy
half-life,radioactivity	$t_{1/2}$	second	s	fundamental unit
heat capacity	C	J K^{-1}	—	quantity of heat/temp. rise
heat of reaction	ΔH	joule	J	heat energy
heat capacity, specific	c	J K^{-1} kg^{-1}	—	heat capacity/mass
heat, quantity of	q	joule	J	energy

eem SI UNITS

Quantity	Symbol	SI Unit	Symbol	Derivation
height	h	metre	m	fundamental unit
image distance	υ	metre	m	fundamental unit
inductance, mutual	M	henry	H	induced e.m.f./rate of change of current
inductance, self	L	henry	H	—
intensity of radiation	I	*a number*	—	—
latent heat	L	joule	J	quantity of heat
latent heat, specific	l	J kg^{-1}	—	quantity of heat
latent heat, molar	L_m	joule mol^{-1}	J	quantity of heat
length	l	metre	m	fundamental unit
magnetizing force	H	ampere-turns	—	—
magnetic moment	m	Wb m	—	torque in unit magnetic field
magnification, linear	m	*a ratio*	—	—
mass	m	kilogramme	kg	fundamental unit
mass number	A	*a number*	—	number of neutrons + protons
molar volume	V_m	(dm^3)	—	volume of 1 mole
molar solution	M	*a ratio*	—	moles/dm^3
moment of force	—	N m	—	force × perp. distance
neutron number	N	*a number*	—	number of neutrons
number	n	—	—	—
number of molecules	N	—	—	—
number turns on coil	n	*a number*	—	—
number order spectrum	p	*a number*	—	—
object distance	u	metre	m	fundamental unit
peak current	I_o	ampere	A	see current
peak e.m.f.	E_o	volt	V	see e.m.f.
period	T	second	s	fundamental unit
permeability	μ	H m^{-1}	—	henry/metre
permeability, vacuum	μ_o	H m^{-1}	—	—
permeability, relative	μ_r	*a ratio*	—	$\mu = \frac{\mu}{\mu_o}$
permittivity	ε	F m^{-1}	—	farad/metre
permittivity, vacuum	ε_o	F m^{-1}	—	farad/metre
permittivity, relative	ε_r	*a ratio*	—	$\varepsilon_r = \frac{\varepsilon}{\varepsilon_o}$
potential, electric	V	volt	V	energy/charge
potential difference	V	volt	V	energy/charge
power	P	watt	W	J s^{-1}
pressure	p	pascal	Pa	N m^{-2}: force/area
radius	r	metre	m	fundamental unit
reactance	X	ohm	Ω	E_o/I_o
refractive index	n	*a ratio*	—	—
resistance	R	ohm	Ω	p.d./current
resistivity, electrical	ρ	ohm-metre	—	resistance × length
relative density	d	*a ratio*	—	ρ_{sub}/ρ_{water}
r.m.s. current	$I_{r.m.s}$	ampere	A	see current
r.m.s. voltage	$V_{r.m.s}$	volt	V	see e.m.f.
slit separation	s	metre	m	fundamental unit
tension	T	newton	N	see force
temperature, Celsius	θ	degree C	°C	from kelvin
temp. interval	θ	degree	° or K	—
temp. absolute	T	kelvin	K	fundamental unit
thickness	d	metre	m	fundamental unit
time	t	second	s	fundamental unit
torque	T	Nm	—	see moment
turns ratio	T	*a ratio*	—	n_{sec}/n_{prim}
(unit of electricity)	—	kW h	—	kilowatt × hour
velocity	u,υ	ms^{-1}	—	distance/time
velocity, angular	ω	$second^{-1}$	s^{-1}	angle/time
velocity, e.m.waves	c	m s^{-1}	—	—
velocity of sound	υ	m s^{-1}	—	—
volume	V	metre cubed	m^3	l × b × h
wavelength	λ	metre	m	fundamental unit
work	w	joule	J	force x distance (Nm)
weight	W	newton	N	kg m s^{-2} or mg



THE IC's ARE HERE!

Having trouble finding the right integrated circuit? If so, you may be looking in the wrong place. You should be looking for that IC in the IC Master. That's where the ICs are.

Are you spending a lot of time looking through manufacturers' data books trying to find the IC you need? Don't do that. Look in the Master first. The Master will tell you where to find the IC you need. Find it faster with the Master.

The IC Master lists all commercially available integrated ciruits. It's easy to find the IC you need because it is listed in the Master by *function*. You decide what you want done and the Master tells you who makes that IC.

What if what you want done isn't available? No problem. The Master will tell you how to go about designing the exact IC you need. The Master covers ASICs in detail. The Master covers all of the design tools for custom and semicustom ICs.

Do you need an alternate source for an IC you already know about? The Master makes that a snap. Just look in the Alternate Source Directory. If there's an alternate source anywhere it's listed in the Master.

Do you need a development tool for your microprocessor? If anybody has it, the Master knows who it is. The same for microcomputer boards. They're all listed in the Master.

Having trouble deciphering a part number? No problem. Look in the Master. Part numbering systems are explained here.

Need to contact a manufacturer's local sales office, rep or distributor? It's faster with the Master.

If your question is about integrated circuits and you don't have the IC Master now, you are wasting time and money.

Order your IC Master now. Call 516/227-1300. The operator will answer, "Hearst Business Publishing." Ask for Marie Botta. Tell Marie you need the Master. Marie will tell you how to get your own copy fast.

Hearst Business Communications, Inc., 645 Stewart Ave., Garden City, NY 11530.

COMMONLY USED ELECTRICAL/ELECTRONIC ABBREVIATIONS AND ACRONYMS

A
AC alternating current
ABS acrylonitrile butadiene-styrene
A/D analog to digital
ADC analog to digital converter
ADP automatic data processing
AF audio frequency
AFC automatic frequency control
ALGOL algorithmic language
AM amplitude modulation
AND a logical operator
AQL acceptable quality level
ASCII American national standard code for information interchange
ASIC application specific IC
ATE automatic test equipment
AWG American wire gauge

B
BALUN balanced to unbalanced
BASIC beginners' all-purpose symbolic instruction
BCD binary-coded decimal
BNC baby "N" connector
BUS basic utility system

C
CAD computer aided design
CAM computer aided manufacture
CAMAC computer automated measurement and control
CATV cable television or community antenna television
CCC (leaded) ceramic chip carriers
CCD computer-controlled display
CERMET ceramic metal element
CLCC ceramic leadless chip carriers
CMOS complementary metal-oxide semiconductor
Comm. communications
CPS characters per second
CPU central processing unit

D
D/A digital to analog
DAC digital to analog converter
DC direct current
DIAC bidirectional trigger diode
DIL dual in-line
DIN Deutsche Industrie Normenausschuss
DIP dual in-line package
DPM digital panel meter
DRAM dynamic RAM
DTL diode transistor logic

E
EDP electronic data processing
EBCDIC extended binary coded decimal interchange code
EEPROM electrically erasable PROM
EIA Electronic Industries Association
EMC electromagnetic compatibility
EMI electromagnetic interference
EMP electromagnetic pulse
EPROM electrically programmable ROM
ESR equivalent series resistance

F
FEP fluorinated ethylene propylene Copolymar, 200° Teflon
FET field-effect transistor
FM frequency modulation
FORTRAN formula translator

G
GaAsFET gallium arsenide FET
GPIB general purpose interface bus
GPS global positioning system

H
HF high frequency (3 to 30 MHz)
HIPOT test, measurement and diagnostic equipment
HLL high level language
HV high voltage
Hz Hertz

I
IC integrated circuit
IDC insulation displacement contact
IF intermediate frequency
IO input/output (devices)
IR insulation resistance (or) infrared

J
JEDEC Joint Electronic Device Engineering Council
JFET junction FET
JMOS junction MOS

K
kHz kilohertz (10^3)
KSR keyboard send /receive

L
LC inductance capacitance
LCC leaded chip carrier
LCD liquid crystal display
LED light-emitting diode
LF low frequency (30 to 300 kHz)
LIF low insertion force
LNA low noise amplifier
LNB low noise band
LSI large scale integration
LVDT linear velocity displacement transformer

M
MASER microwave amplification by stimulated emission of radiation
MATV master antenna television
µF microfarad
MHz megahertz
MIB microcomputer interface board
MIC microwave IC
MIPS million instructions per second
MOS metal oxide semiconductor
MOSFET metal oxide semiconductor FET
MOSIGT metal oxide semiconductor insulated-gate transistor
MOV metal oxide varistor
MPU microprocessor unit
MSI medium scale integration

N
NBS National Bureau of Standards
NEMP nuclear electromagnetic pulse
NIM national instrumentation module
NOR not OR
NTC negative temperature coefficient

O
OCR optical character reader
OEM original equipment manufacturer
OR a logical operator

P
PC printed circuit
PCB printed circuit board
PCM pulse code modulation
pF picofarad
PGA pin grid array
PIN positive-intrinsic-negative (transistor)
PLA programmable logic array
PLCC plastic leaded chip carrier
PLL phased lock loop
PPI plan position indicator
PROM programmable ROM
PTC positive temperature coefficient
PUT programmable unijunction transistor

Q
QAM quadrature amplitude modulation
Q (meter) quality-factor meter

R
RAM random access memory
RC resistance-capacitance
RFI radio frequency interference
RMS root mean square
ROM read only memory
RF radio frequency
RFC radio-frequency choke
RFI radio-frequency interference
RTD resistance-temperature detector
RTL resistor transistor logic
RTV room temperature vulcanizing
RW read/write

S
SAS silicon asymmetrical switch
SBC single board (micro) computer
SBS silicon bilateral switch
SCR silicon-controlled rectifier
SCS silicon controlled switch
SDA source & detector assemblies
SIDAC bidirectional voltage-triggered switch
SIMM single in-line memory module
SIP single in-line package
SMD surface mount device
SMT surface mount technology
SO small outline
SOIC small outline IC
SOT small outline transistor
SSI small scale integration
SSR solid state relay
STL Schottky transistor logic
SUS silicon unilateral switch

T
TC temperature coefficient
TCE thermal coefficient of expansion
TXCO temperature compensated crystal oscillator
TFE tetrafluoride ethylene propylene Copolymer, 250° Teflon
TRIAC bidirectional AC switch
TTL transistor-transistor logic
TTY teletypewriter

U
UHF ultra high frequency (300 MHz to 3 GHz)
UJT silicon unijunction transistor
UL Underwriters Laboratory
UPS uninterruptible power supply

V
VAC volts (of) alternating current
VAN value added network
VAR volt-ampere reactive
VCR video cassette recorder
VDC volts (of) direct current
VHF very high frequency (30 kHz to 300 MHz)
VHSIC very high speed integrated circuit
VLF very low frequency (3 to 30 kHz)
VLSI very large scale integration
VME virtual machine environment
VRM voice recognition module
VTVM vacuum tube volt meter
VU volume unit
VSWR voltage standing wave ratio

W
WPS word processing software

Y
YIG yttrium iron garnet

Z
ZIF zero insertion force

CHARACTERISTICS OF BATTERIES AND FUEL CELLS

System	Anode	Cathode	Theoretical battery		Practical battery		
			Voltage, V	Capacity, Ah/kg	Typical voltage, V	Capacity[a]	
						Wh/kg	Wh/dm³
Primary:							
Leclanche	Zn	MnO_2	1.6	230	1.2	65	175
Magnesium	Mg	MnO_2	2.0	270	1.5	100	195
Organic cathode	Mg	*m*-DNB	1.8	1,400	1.15	130	180
Alkaline MnO_2	Zn	MnO_2	1.5	230	1.15	65	200
Mercury	Zn	HgO	1.34	185	1.2	80	370
Mercad	Cd	HgO	0.9	165	0.85	45	175
Silver oxide	Zn	AgO	1.85	285	1.5	130	310
Zinc-air	Zn	Air (O_2)	1.6	815	1.1	200	190
Li-organic electrolyte	Li	[b]	2.1-5.4	130-660	1.8-3.2	250	400
Secondary:							
Lead-acid	Pb	PbO_2	2.1	55	2.0	37	70
Edison	Fe	Ni oxides	1.5	195	1.2	29	65
Nickel-cadmium	Cd	Ni oxides	1.35	165	1.2	33	60
Silver-zinc	Zn	AgO	1.85	285	1.5	100	170
Silver-cadmium	Cd	AgO	1.4	230	1.05	55	120
Zinc-nickel oxide	Zn	Ni oxides	1.75	185	1.6	55	110
Zinc-air[c]	Zn	Air (O_2)	1.6	815	1.1	150	155
Cadmium-air[c]	Cd	Air (O_2)	1.2	475	0.8	90	90
Zinc-O_2	Zn	O_2	1.6	610	1.1	130	120
H_2-O_2	H_2	O_2	1.23	3,000	0.8	45	65
Reserve:							
Cuprous chloride	Mg	CuCl	1.5	240	1.4	45	65[d]
Silver-chloride	Mg	AgCl	1.6	170	1.5	60	95[d]
Zinc-silver oxide	Zn	AgO	1.85	285	1.5	30	75[e]
Thermal	Ca	[b]	2.8	240	2.6	10	20[f]
Ammonia-activated	Mg	*m*-DNB	2.2	1,400	1.7	22	60[g]
High-temperature	NA	S	2.1	685	1.8	200	[h]
	Li	S	2.2	1,150	1.8	200	[i]
Solid electrolyte	Ag	Polyiodide	0.66	. . .	0.6	180	75[j]
Fuel cell:							
Hydrogen[c]	H_2	Air	1.23	26,000	0.7		[k]
Hydrazine[c]	N_2H_4	Air	1.5	2,100	0.7	800[b]	[l]
Methanol[c]	CH_2OH	Air	1.3	1,400	0.9	175[b]	185[m]

a Delivered capacity when discharged at normal temperatures (20°C) at normal discharge rates.
b Based on fuel consumption only.
c Weight of air not considered in computation of watt hours.
d Water-activated
e Automatically activated; high rate discharge; 2- to 10-min rate.
f Fused salt; heat-activated; high rate discharge; 2- to 10-min rate.
g Four-minute discharge rate.
h β-alumina electrolyte, 300°C operation.
i Fused salt; 350°C operation.
j Solid $RbAg_4I_5$ electrolyte.
k Several different cathode materials used.
l Fuel consumption is based on source of H_2.
m Based on methanol battery-fuel supply in situ.

eem MINIGLOSSARY POWER SUPPLIES

Ambient reference: Refers to the temperature of the still air surrounding the power supply

Case reference: One of the specs that make up the nominal rating. The temperature of the case with the temperature of the surrounding still air at a stated temperature (usually 25°C).

Crowbar circuit: Protects the load. A protective circuit that applies a short circuit across the output immediately upon overload. (See overvoltage).

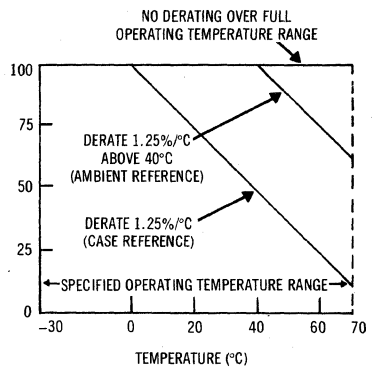


Fig. 1. Power output derating can be referred to ambient or case.

Derating: The degree output is reduced as temperature increases. Usually referenced to ambient case temperature and shown on a graph.

Efficiency: Ratio of the output power to the required input power. Usually expressed as a percentage given nominal environmental temperature.

EMI/RFI: Interference electronic circuitry caused by energy from electromechanical or radio frequency power supplies.

Foldback: Built-in protective circuits that automatically reduce the output voltage and/or current to very low levels in the event of an overload.

Holdover (Holdup): The interval that rated output will continue after input ceases. Usually milliseconds.

Input reflected current: The peak-to-peak alternating current generated by switching transients in DC/DC converters. Should not exceed 1%.

Inrush current limiting: Built-in circuits that monitor high currents through the rectifiers to the capacitors at turn ON. Circuit is usually inhibited as capacitors attain full charge.

Nominal rating: The spec value of the supply at stated conditions of input, output, and temperature.

Overshoot: A transient voltage change occurring during turn ON or OFF or during an abrupt load change.

Overvoltage (Overload) protection: Built-in circuits that protect the load or the supply by shutting it down or providing foldback.

Recovery: The time interval between the termination of an overload and restoration to normal operations.

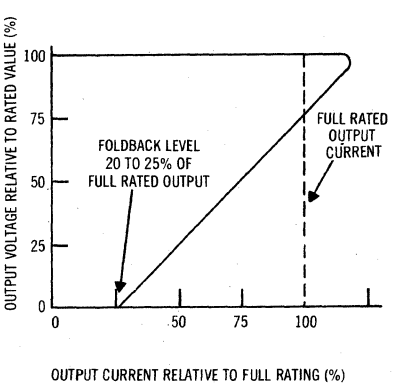

Fig. 2. Current foldback limiting self-resets with removal of fault.

Response: The time interval between a stated step change in input voltage or load current and return of output to normal operating conditions.

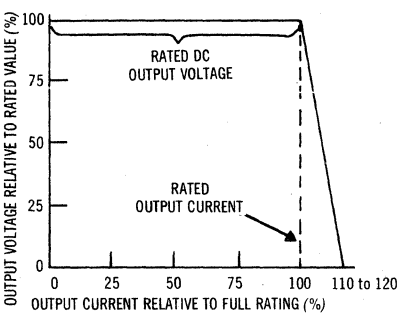

Fig. 3. Current limiting restrictions output current to a valve somewhat greater than full rated output; it resets when fault is removed.

Sensing: Regulation techniques that monitor output voltage and/or current. *Local sensing* refers to the output terminals. *Remote sensing* allows a feedback from the load circuit to the power supply.

Soft start: Allows the supply to start from zero current and/or voltage over a stated period of time during start up to prevent voltage overshoots and current imbalances.

Switchers: Power supplies using switching techniques to achieve high efficiency regulation. These techniques can have attendant EMI/RFI problems.

Tracking: The maintaining of fixed ratios between multiple outlets despite variations in line, load or temperature. Particularly important in supplies with symetrical (+)(−) outputs.

Transient protection: Circuitry designed to protect the supply from high amplitude line transients. Generally expressed in terms of peak voltage and maximum transient time duration.

NOMOGRAPH VOLTAGE DROP

NOMOGRAPH OF VOLTAGE DROP ACROSS LOAD SUPPLY LEADS
(as a function of wire size and load current)

THIS NOMOGRAPH CAN BE USED TO FIND:

Maximum current carrying capacity recommended for any standard wire size.*

1) With a straight edge, connect from the wire size on Scale 2 to the point "A" on Scale 3.
2) Read I_{max} on Scale 1.

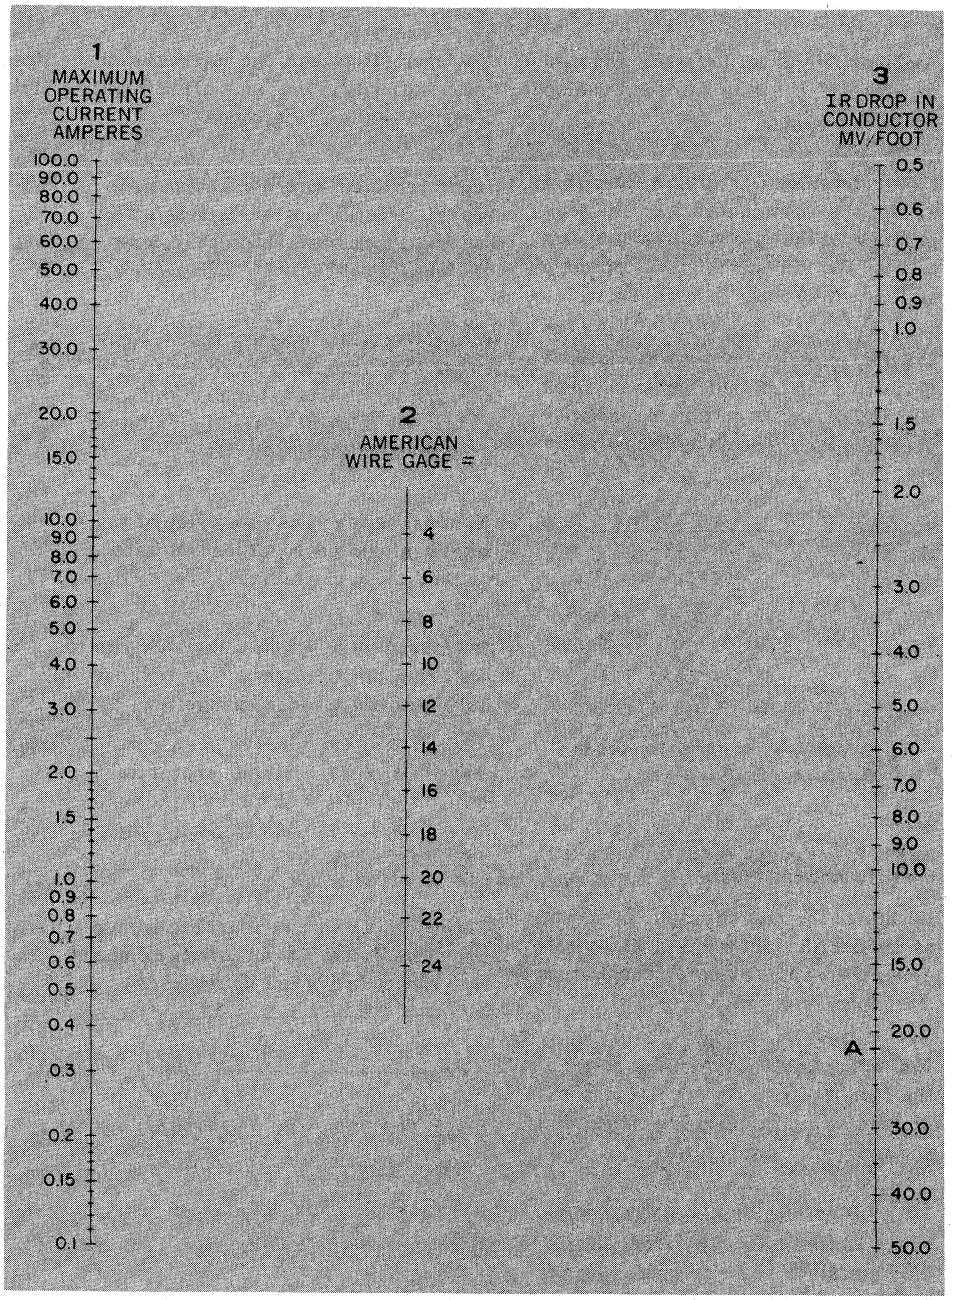
Voltage drop in millivolts per foot for known wire size and operating current.

1) With a straight edge, connect the known current on Scale 1 and the wire size on Scale 2.
2) Read voltage drop on Scale 3.

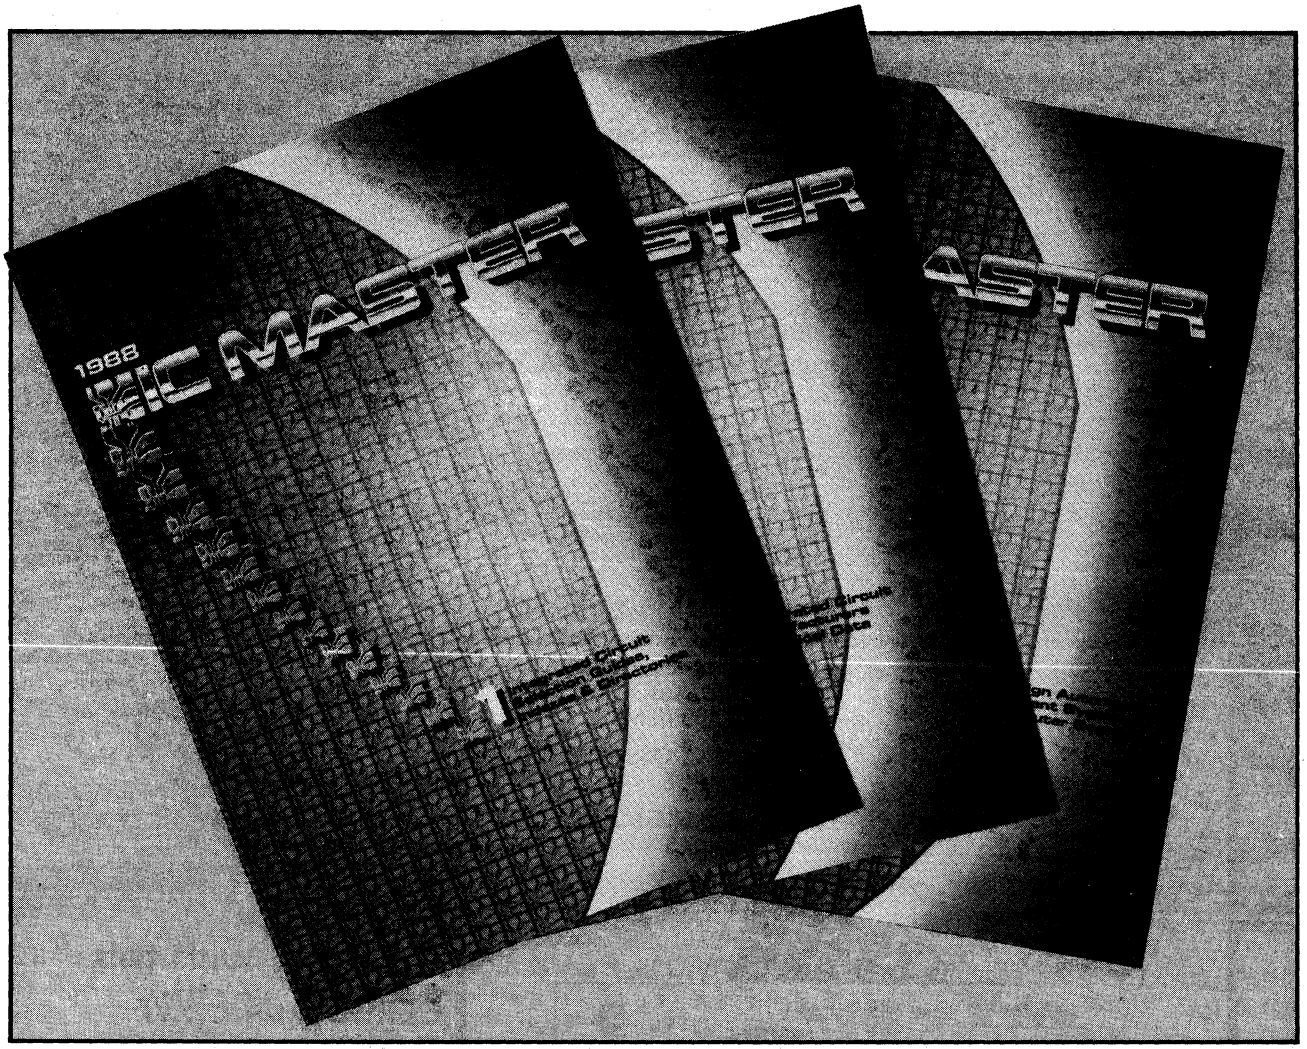
Wire size required for known operating current and known maximum tolerable voltage drop across supply leads.

1) Determine maximum tolerable drop in millivolts **per foot** of lead (sum of positive and negative leads).
2) Connect the value on Scale 3 (as determined in step 1) to the known current on Scale 1.
3) Read wire size on Scale 2.

* *Based on an arbitrary minimum 500 circular mils per ampere. High-temperature class insulation will safely allow higher currents.*



NOTE: A voltage stabilized Power Supply controls the voltage across its output terminals. Hence, the wire conductors used to connect the load must be considered as part of the load. At high load currents, the voltage drop across the supply leads may appreciably degrade stablization at the load. Kepco models equipped with the *remote error sensing* feature can automatically compensate for voltage drops of up to 500 mV across each load supply lead.



LOOKING FOR IC's?

Having trouble finding a particular integrated circuit? If so, you need the IC Master. The IC Master lists all commercially available integrated circuits by function and device number. If it's out there, it's listed in the Master.

Need an alternate source for an IC you already know about? If there is one, it's listed in the Master. Can't understand a part number. Look in the Master. The answers are there.

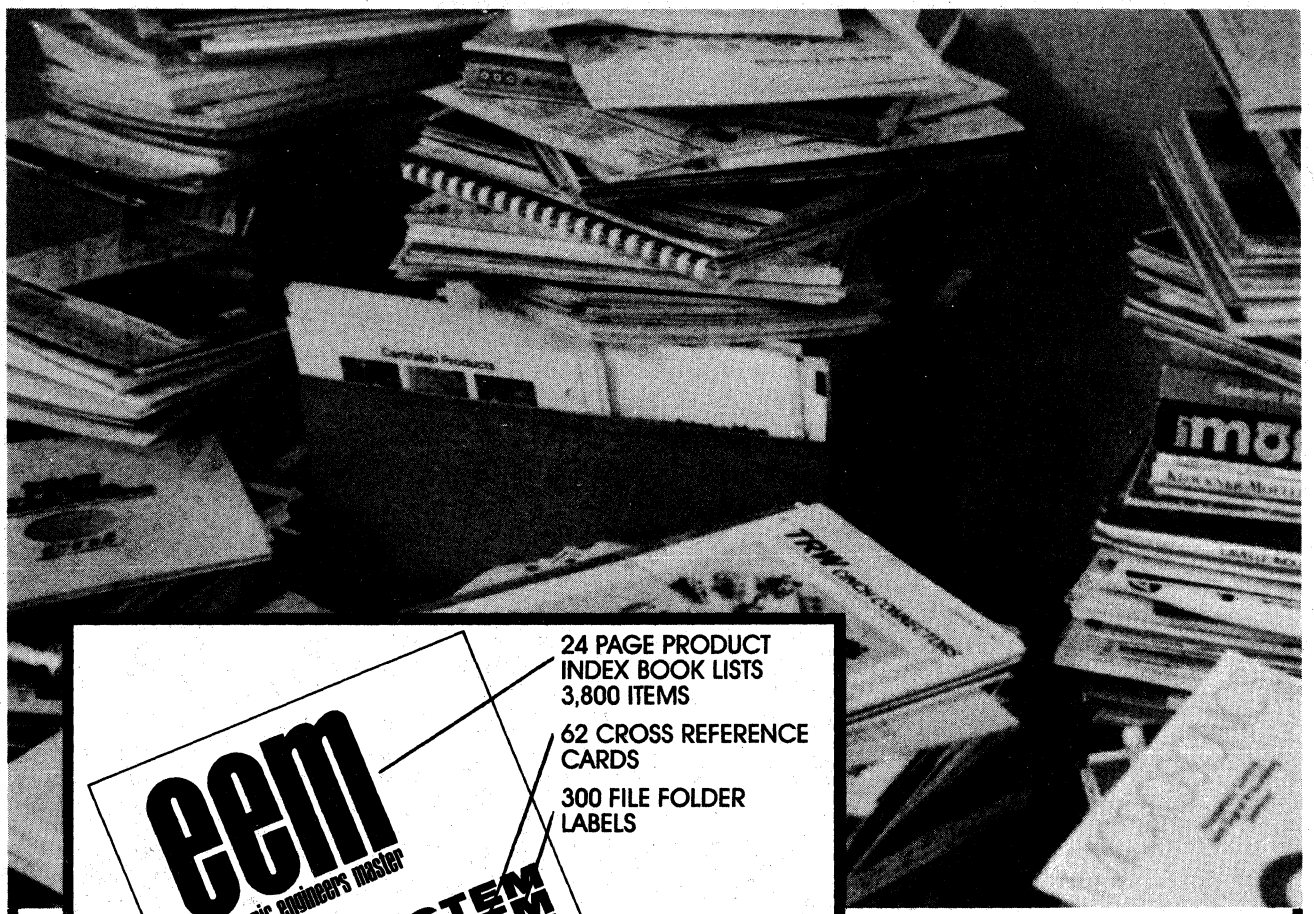
The all-new 1988 IC Master makes finding the IC you need easier than ever. All of the IC selection guides are located in Volume One. Manufacturers' data sheets are now in Volume Two. Volume Three covers ASICs, Design Automation, Microprocessor Development Systems and Microcomputer Boards.

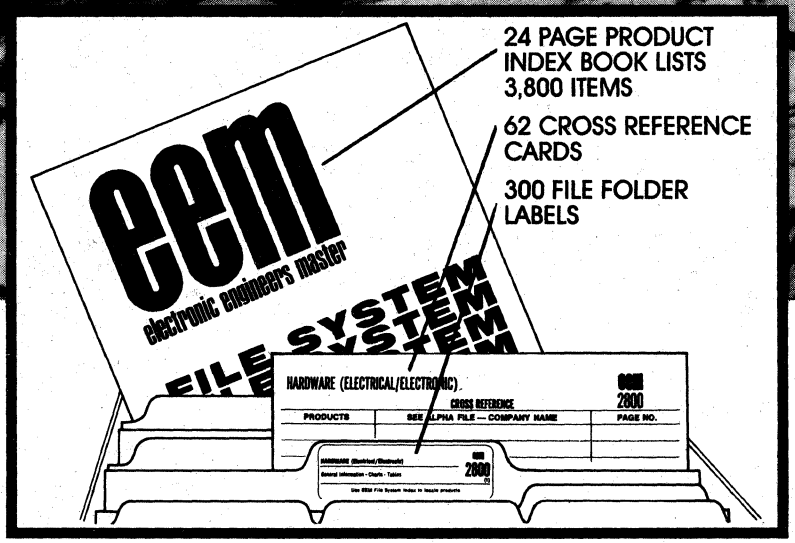
All it takes to get your personal copy of the 1988 IC Master is a telephone call to 516/227-1300. When the operator answers, "Hearst Business Publishing," ask for Marie Botta. Tell Marie you want to save time and trouble. Tell her you want the new IC Master. She will tell you how to get this marvelous reference work. You can charge the books to your VISA or Mastercard. If you want to order by company purchase order or personal check, Marie will tell you how to do it.

Can't wait for the new 1988 Master? A few copies of the 1987 IC Master are still available. Call Marie and find out how you can get a discount on the 1988 Master by ordering the 1987 edition now.

Remember . . . Engineering designs begin with the IC Master.

Hearst Business Communications, Inc., 645 Stewart Ave., Garden City, NY 11530.





ALL NEW with this edition of EEM

GET ORGANIZED!

Are your catalog files organized? Can you find any given catalog in a matter of seconds? If your answer is "Yes," you probably already have the EEM File System. But, if you said "No," you really ought to look into this simple system. It will save hours of time and tons of aggravation.

The EEM File System was invented over twenty-five years ago to help people who specify, buy, or work with electronic products and equipment. It is upgraded on a constant basis to reflect the current state of the art. It's easy to use and easy to customize to your particular needs.

You say you want to file catalogs by type of product? That's easy to do with The System. But, what are you going to do when there are multiple products in one catalog? Take Mallory for example. There are all kinds of products in the Mallory Short Form Catalog. With the EEM File System all you do is file the catalog under "M" for Mallory and refer to it on all of the cross reference cards that apply.

There are thousands of EEM File Systems in everyday use in engineering and procurement offices all over the world. Shouldn't you be using this proven system?

The EEM File System is shipped in one neat package. The package contains everything you need to set up your very own filing system. Best of all, it's easy to get and very affordable. Send a check or money order for $25.00 and EEM will pay the postage and sales tax. If you must use a purchase order, please add $5.00 for postage and handling. An invoice will accompany your System.

Don't waste any more time. Get organized now!

EEM FILE SYSTEM,

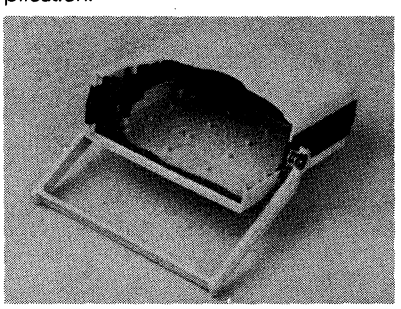
PacTec enclosures can save anywhere from 1/3 to 1/2 the cost of custom metal or molded enclosures.

- **Attractive appearance**
- **Durable construction**
- **Over 50 models • Low cost**
- **Inexpensive front panels**
- **Standard features and options**
- **Prototyping kits**
- **Off-the-shelf availability**

Now you can package your product in an attractive, custom enclosure built from standard, stocked parts and accessories. PacTec enclosures are constructed of durable, impact-resistant ABS material, ensuring long life and attractive appearance.

PacTec enclosures are easy to use, easy to set-up, easy to assemble

The unique system of mounting bosses, rails, and card guides makes PacTec enclosures very versatile. You select the size enclosure you need, and choose the hardware and options to customize your enclosure. You can even order a prototyping kit that contains everything necessary to build an enclosure for your application.



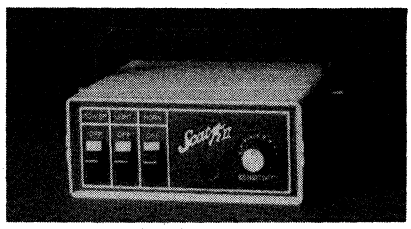
Standard features and options include:

(not all available in every case size)

Choice of standard colors (black, tan, PC bone, grey); optional special colors and combinations; custom trim; special finish; handle; tilt stand; mounting rails; card guides; mounting bracket; shoulder strap; strap handle, wrist strap; belt clip; extended rear panels; sloped top or bottom covers; EMI/RFI shielding; UL listed materials; cord wrap; custom front panels and vinyl carrying cases.

Inexpensive, custom front panels

Create an attractive, custom appearance with a three-dimensional front panel which can incorporate raised copy and production advantages such as posts, clips, slots, etc.



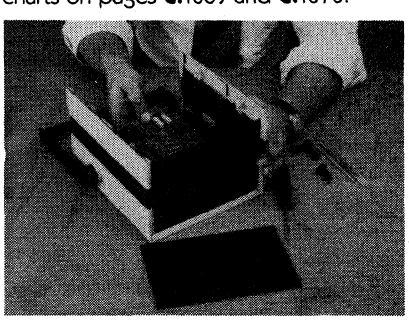
Wide range of standard features and low-cost options

You can customize your enclosure with unlimited variations.

Prototyping kits available

You can build an attractive enclosure for your prototype model—and at the same time design your production unit.

See how easy-to-use the PacTec system is—order an inexpensive kit from the charts on pages **C.**1069 and **C.**1070.



See pages **C.**1068 thru **C.**1071

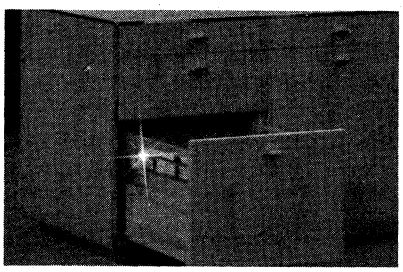
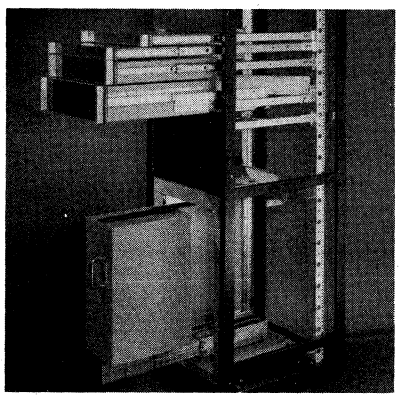
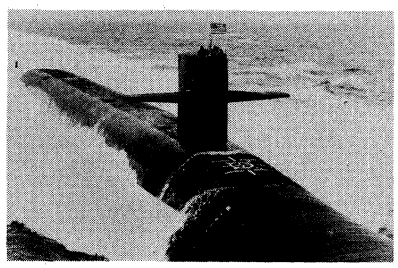
Precision Slides To EIA/RETMA Standards

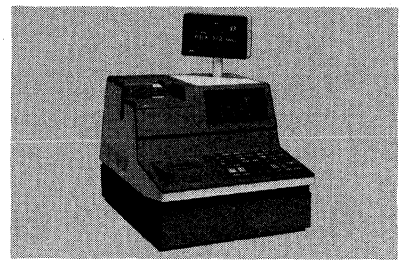
12311 South Shoemaker Avenue / Santa Fe Springs, CA 90670 / 213-944-0921

Accuride®









To The Design Engineer:

The Accuride slide models listed here are specifically engineered for EIA and/or RETMA mounting. Many other standard and custom Accuride models are available for electronic and commercial packaging applications.

Accuride has become the world standard for precise linear motion—in products ranging from disc drives to photocopier optics, from cash register drawers to medical equipment.

Today, almost every slide manufacturer offers an Accuride "look-alike," with roll-formed channels that resemble the Accuride members. But the extraordinary combination of smoothness and silence of the die-formed Accuride movement has never been duplicated.

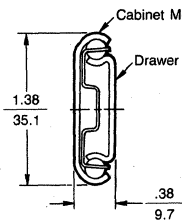
Accuride slide ball bearings are positioned in special "bridged" retainers so they cannot migrate or creep. Side play is virtually eliminated and bearings and raceways are perfectly matched metallurgically. Thus, you can count on Accuride slides for reliable support, quality and extraordinarily smooth movement—time and time again.

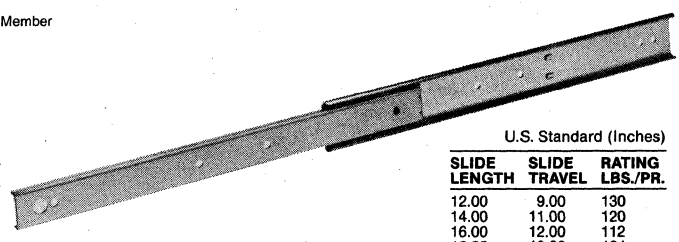
The Accuride textbook "Designing with Slides" and the Accuride "Manual of Specifications" are major tools for packaging engineers and are available to you upon request.

MODEL
201

Economical two-member medium-duty slide with 3/4 extension, positive stop.

- ☐ Full ball-bearing movement for silence, strength and long life.
- ☐ Self-cleaning bridged ball retainer for smooth operation without ball "creep."
- ☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.





U.S. Standard (Inches)

SLIDE LENGTH	SLIDE TRAVEL	RATING LBS./PR.
12.00	9.00	130
14.00	11.00	120
16.00	12.00	112

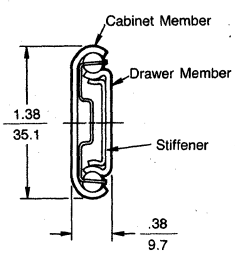
20.00	15.00	97
22.00	16.00	92
24.00	17.00	87
26.00	19.00	83
28.00	20.00	80

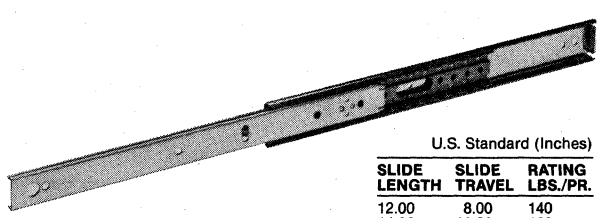
Stock available in even lengths, 12-26 inches.

MODEL
204LR

Standard-duty two-member slide with 3/4 extension. Front lock-out and disconnect facilitate easy chassis maintenance.

- ☐ Full ball-bearing movement for silence, strength and long life.
- ☐ Self-cleaning bridged ball retainer for smooth operation without ball "creep."
- ☐ Positive lock-out and front disconnect.





- ☐ Tapered lead-in at rear of drawer member provides guide for easy, fast reinsertion of chassis.
- ☐ Drawer member reinforced for increased strength.
- ☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

U.S. Standard (Inches)

Accuride® 12311 South Shoemaker Avenue / Santa Fe Springs, CA 90670 / 213-944-0921

MODEL
301

Heavy-duty three-member full extension slide with positive stop. Design provides extraordinarily smooth, easy movement.

- ☐ Full ball-bearing movement for silence, strength and long life.
- ☐ Self-cleaning bridged ball retainer for smooth operation without ball "creep."
- ☐ Reinforced for increased strength.
- ☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

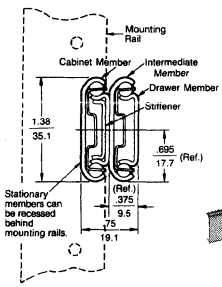
28.00	28.88	120

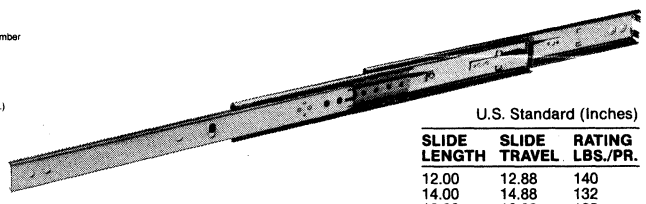
Stock available in even lengths, 14-26 inches.

MODEL
305LR

Unique full extension slide with lock-out and disconnect; requires only 3/8" space on each side of chassis.

- ☐ Full ball-bearing movement for silence, strength and long life.
- ☐ Self-cleaning bridged ball retainer for smooth operation without ball "creep."
- ☐ Positive lock-out and front disconnect.
- ☐ Tapered lead-in at rear of drawer member provides guide for easy, fast reinsertion of chassis.





- ☐ Reinforced for increased strength.
- ☐ Recessed mounting.
- ☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

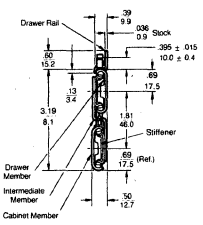
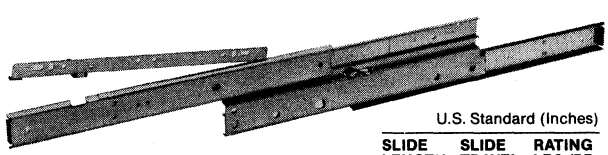
MODEL
447

Special tolerance-absorption feature in addition to a lift-off disconnect, positive stop, lock-out at full extension and load-carrying capability of up to 150 pounds make this slide incredibly versatile.

- ☐ Full ball-bearing movement for silence, strength and long life.
- ☐ Self-cleaning bridged ball retainer for smooth operation without ball "creep."





- ☐ Reinforced for enhanced strength.
- ☐ Operates in side space variances up to ±.030 inch, eliminating the need for slide readjustment when interchanging chassis.
- ☐ Positive stop and lock-out.
- ☐ Quick drawer rail lift-off disconnect.
- ☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

MODEL
501

Extra-heavy-duty full extension slide supports tremendous loads and provides reliable support and smooth movement.

- ☐ Full ball-bearing movement for silence, strength and long life.
- ☐ Self-cleaning bridged ball retainer for smooth operation without ball "creep."
- ☐ Reinforced for increased strength.
- ☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

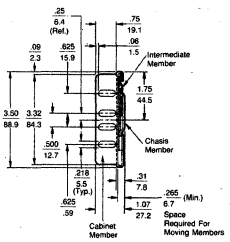
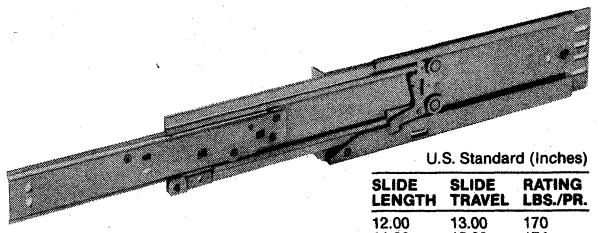
Accuride® 12311 South Shoemaker Avenue / Santa Fe Springs, CA 90670 / 213-944-0921

MODEL
772

Ultra-thin heavy-duty roller bearing slide, needs only .31" side space, only .27" for moving members. Locks out and disconnects.

- ☐ Positive lock-out and front disconnect.
- ☐ Front mounting bracket integral with slide.
- ☐ Cabinet member safety stop.
- ☐ Uses No. 10 pan-head screws.
- ☐ Slim profile with no protrusions.





☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

U.S. Standard (Inches)

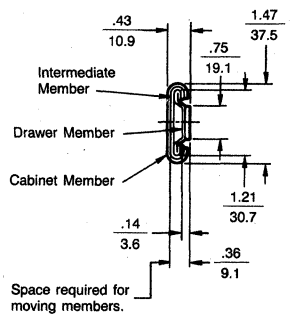
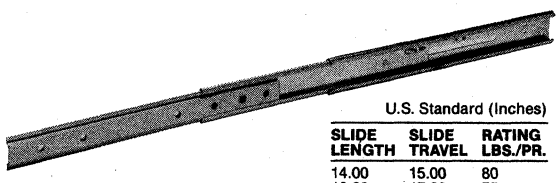
Stock available in even lengths, 14-28 inches.

MODEL
830

Low-cost solid-bearing slide provides alternative for full extension requirements. Requires only .43" side space. Lock-out and front disconnects.

- ☐ Positive lock-out and front disconnect.
- ☐ Low profile configuration with optional bracket positioning.
- ☐ Can be installed with centerlines either in-line with or between standard rack rail mounting holes.





☐ Dimensioned for typical EIA/RETMA chassis-cabinet combinations.

Cable Carriers

Accuride offers a full line of cable carriers designed for both round and ribbon cable management. The wide support arm and tie slot construction of the CC11 allow for single or multi-layer cabling. Numerous clamp attachment points on the CC9 keep cabling taut to prevent sag and consequential cable damage. Both the CC11 and CC9 may be used as either a left or right hand assembly and may be installed separately or as an integral part of Accuride chassis suspension slides. An Application Engineering Group is available for consultation and specialized design.

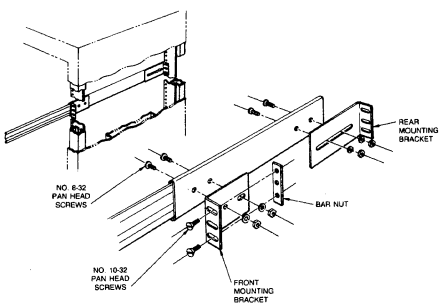
Mounting brackets and kits are not furnished with the slide and must be ordered separately.

Special Options

- ☐ Accuride acetal polymer balls for use where lubricants are prohibited or where ultra-smooth, quiet slide movement is desired.
- ☐ Locks available to lock slide open, closed and at ½-travel locations, separately or in any combination.
- ☐ Hold-in and/or hold-out detents.
- ☐ Silenced stops to assure quiet opening and/or closing.
- ☐ Shock blocks to eliminate amplification of shock and vibration to the chassis.
- ☐ Front and rear travel (two way).
- ☐ Special hole pattern.
- ☐ Bar nuts.
- ☐ Special features, e.g., lanced-out tabs, bayonets, angle brackets, threaded holes, tilt mechanisms, etc.

Contact Accuride for special requirements.

Mounting Bracket Instructions



The mounting brackets listed above are designed specifically for Accuride slides. Slides properly installed with correct mounting brackets will provide lasting maintenance-free service.

Illustrated to the left is the correct orientation of the mounting screws for attaching mounting brackets to Accuride slides. To ensure proper operation of the slide, make certain that all bracket mounting screw heads are inserted so that the screw heads are inside the slides. The front bracket should first be positioned, then securely fastened in place. The rear bracket screws should be left sufficiently loose to allow adjustment while fitting to the vertical mounting rails.

During installation in the enclosure, matching the alignment of the left hand and right hand slides is accomplished by installing one slide, than aligning it to the vertical mounting rails and securing the mounting screws. Then install the remaining slide, leaving the mounting screws sufficiently loose to permit horizontal adjustment. Moving the chassis in and out a few times prior to tightening the loose mounting screws will ensure proper alignment of the slides to each other and to the cabinet. Any sign of binding indicates lateral stresses or misalignment.

Ordering Information

ORDER PROCEDURE

Specify plating, slide model and length, brackets, mounting kits, bar nuts

Example C 3307 - 16

Commercial, Electro-zinc plating, Clear chromate coating — C

Slide model — 3307

Slide Length — 16

Order four (4) each brackets per slide pair:
Example: Two #4000-0250-CE (short) brackets for front mount
Two #4000-0251-CE (long) brackets for rear mount

Order four (4) each mounting kits (bracket-to-slide):
Example: Four #4180-0100-XE

Material and Finish Specifications

Stocked slides, brackets and bar nuts are only available in a commercial "C" finish. Other finishes available on order.

Commercial/Industrial Slides: Use "C" Prefix in Part Numbers

ITEM	MATERIAL	FINISH
Slide Members	Cold rolled steel	Electro-Zinc Plate per ASTM Spec. B633 SC1, Type III: Yellow ("CY" Prefix), Black ("CB" Prefix), Olive ("CO" Prefix)
Ball Retainers	Cold rolled steel	Zinc (Pre-plated)
Ball Bearings	Steel	Carburized
Packaging: Corrugated quality containers		Lubricants: Ball-bearing slides: Hi-Lo temperature grease Solid bearing slides: Molybdenum disulfide base dry film

NOTE: For stainless steel ("SS") and other materials and finishes consult with Accuride Applications Engineering.

Models, specifications and availability subject to change without notice. The tabulation above indicates standard dimensions. Contact Accuride for special requirements.

MODULAR ENCLOSURE SYSTEMS SHIPPED IN 5 WORK DAYS

Solve most any configuration problem with Amco's unlimited design and arrangement possibilities. Two attractive styling systems to choose from —high-tech simplicity of the Traditional style, or advanced state-of-the-art esthetics of Interface 33.

Select desk top cabinets, consoles, computer desks and accessories. Then specify single-unit, multi-bay configurations. Simplified one-number console ordering system makes design, selection and ordering easy and error-free. ***CATALOG 500-A. Newly Revised.***

Now includes color selection and 10-day shipping program.

Now you can select from 10 of our most popular color finishes for both Traditional and Interface 33 vertical consoles — at no extra cost. All custom-colored cabinets are shipped within 10 work days of approved credit or C.O.D.

• STRENGTH • DESIGN VERSATILITY

ALUMINUM
Heavy-duty structural systems, simplified design and assembly.

Minimize design time of even the most difficult structures and specialized enclosures. Bolted aluminum structural systems are stronger than most welded structures. High-strength 6061-T6 alloy extruded aluminum tubing is pre-cut to any length from 6 inches to 20 feet. Corner castings (356-T6) furnished with assembly locking clips. Take advantage of Amco's years of specialized design expertise.

• STRENGTH • DESIGN VERSATILITY

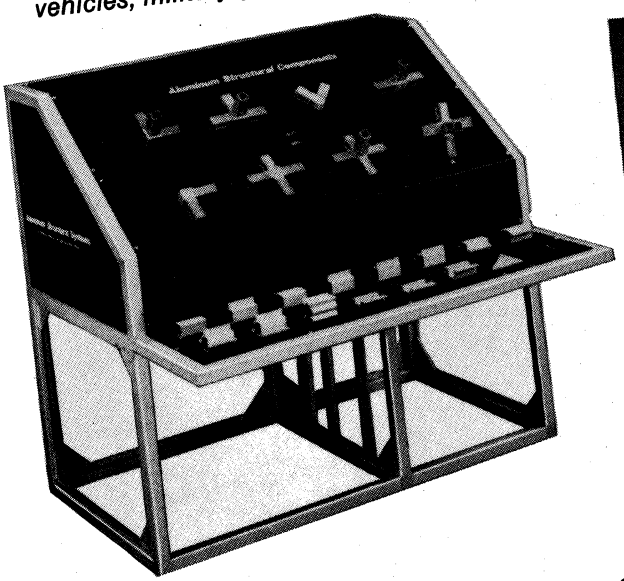
ALUMINUM... HEAVY DUTY STRUCTURAL SYSTEMS

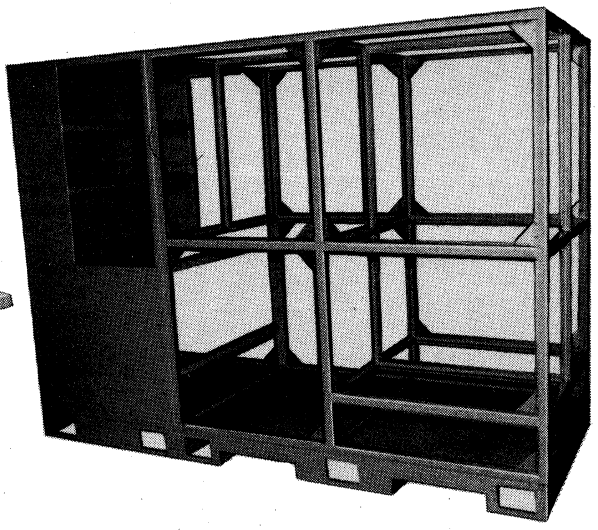
More and more equipment manufacturers, government and industrial project leaders are finding solutions to their unique structural needs at Amco...

...military and industrial enclosures of complex structural design and strength are often readily resolved with the Amco Aluminum Structural System. Here's why:

You can eliminate expensive welding and inherent stress relieving because Amco bolted assembly techniques exceed welded strength.

Application testimonials include Sentinel Program enclosures, Army mobile communications vehicles, military ground support and shipboard, Airforce and NASA airborne applications.





The Simple Solution For Complex Shock, Vibration And Environmental Requirements

- Simple assembly without special tools
- Greater structural stability and strength **without welding**
- Saves labor, time and materials cost
- Maintains tight tolerances — no distortion in the finished structure
- Eliminates magnetic properties
- Design and build even the most intricate structures
- Ideal for electronics, computer, communications, scientific instrumentation and experimentation, military and industrial equipment
- 11 different extrusions with or without integral flanges for assembly; flush or recessed panel mounting; 1 1/2 inch OD
- 8 versatile corner castings includes 0 to 120 degree hinged corner
- All extrusions (6061-T6) and corner castings (356-T6) provide high-strength structural integrity
- Assembled with locking or non-locking clips, as needed
- Standard gusseting for heavy duty applications adds extra strength where needed

EMI ENCLOSURES... SPECIAL DESIGN SERVICES

Amco brings it all together

- **Product capabilities**
- **Advanced design and test facilities**
- **Engineering services**
- **EMI experience that spans over 25 years**

We designed and built the **first** modular EMI system for NASA in 1962. In fact, you could even say we taught the enclosure industry the techniques in use today.

DON'T OVER OR UNDER BUY

There's no room for compromise when you have to meet rigid specifications like MIL 285 and Tempest, or the moderate needs of FCC.

Experience a refreshingly realistic approach to your EMI needs. You'll get the help and cooperation you require to meet your objectives. This often includes structural strength as well as EMI solutions. Remember, there is no single, all-serving enclosure solution.

EMI-TREATED ACCESSORIES

- For equipment mounting, cooling, wiring plus convenience drawers, shelves and writing surfaces.
- 2 catalogs — #650 for all commercial applications and #204 for heavy-duty and military applications.

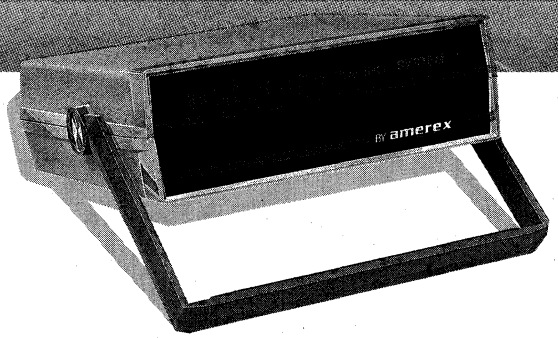
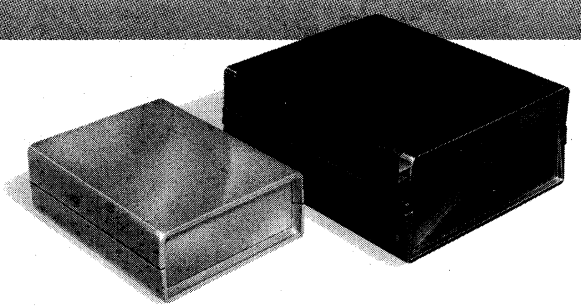
OVER FOUR DECADES

unibox® PACKAGING SYSTEM

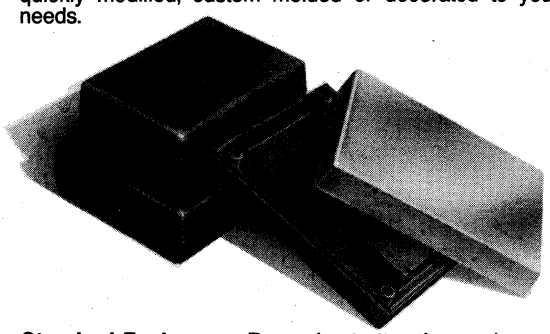
The Unibox electronic packaging system presents an attractive solution for the image you want, at a price you can afford.



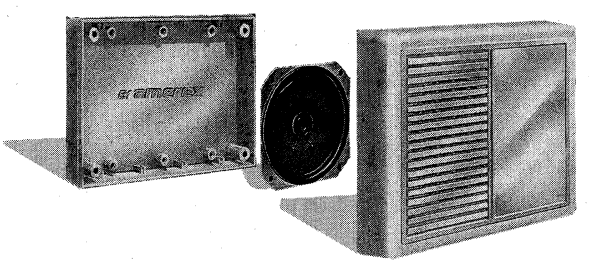
Desk Top Enclosures - An 8.8 x 8.3 inch enclosure is available in several standard colors, and features an adjustable tiltstand/carrying handle for convenience. Face panels are stocked in aluminum or plastic and can be quickly modified, custom molded or decorated to your needs.



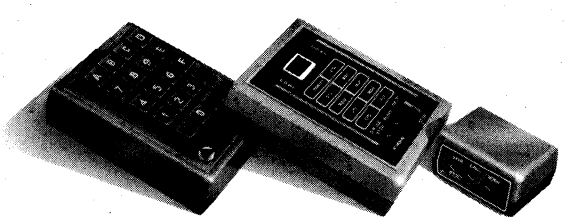
Panel Enclosures - Available in a variety of sizes and colors, featuring removable front and rear panels, these enclosures offer greater product design flexibility for many applications. Aluminum or plastic front and rear panels can be specially modified to your requirements.



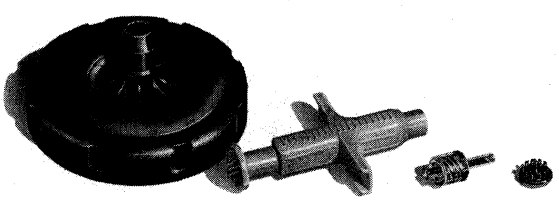
Standard Enclosure - Rugged yet attractive enclosures are molded from high impact ABS plastic in a variety of colors, and feature designer styling with an attractive grain finish. This modular system is supported with a variety of standard accessories including windows, panels, circuit boards and shielding products.



Specialty Enclosures - Popular Standard Enclosure sizes are also available with specialty options. Battery Compartment Enclosures feature a unique design to accept a 9 volt battery, and stylish Speaker Grill Enclosures are stocked with or without a standard 2½ inch speaker.



Custom Modifications - All Standard Enclosures, Specialty Enclosures, and Face Panels can be quickly and easily modified to transform standard parts into your custom product. Molded modifications, machined openings, screen printing, hot stamping, special materials or colors, and labels or overlays provide total versatility to the Unibox System.



Custom Molding - Amerex serves a variety of industries through our Custom Molding Division. Offering services from design through production, we can provide sodlutions to your manufacturing requirements.

STANDARD ENCLOSURES™

Series 10 and 11, with steel top and bottom covers, are 0.04" thick and grilled for excellent heat dissipation. The aluminum back cover, with a thickness of 0.05", facilitates the making of holes.

Series 12 and 13 are top-of-line enclosures made with heavy gauged aluminum. All surfaces are anodized. Additional front panels for mounting meters or switches are included at no extra charge.

Series 22, 23 and 24 are extra heavy gauged all aluminum with 0.08" thick side panels. It provides light weight and strong construction. For series 22 and 23, all surfaces are anodized, and series 24 are painted in Beige.

Desk-Top series 54 is same color and construction as series 24. Except there is no mounting ear, and the front panel is clear anodized.

ATLAS / SOUNDOLIER

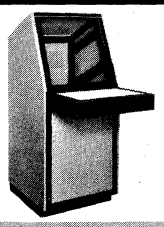
CABINETS

SELECT SERIES / STANDARD SERIES

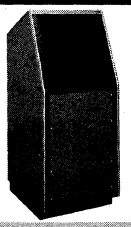
Select Series heavy duty modular enclosures include 19", 24", and 30" wide vertical cabinets, 19" slope front consoles, turrets and wedge sections. These attractive enclosures are welded 16 ga. CRS and conform to EIA standards. Furnished with basic frame, gussetted base, removable top panel and rear door with lock and louvers, horizontal trim, 11 ga. CRS mounting rails and choice of finish. Options include insert panel, vertical trim, side panels, front doors and UL listed versions.

Standard Series 19" racks and equipment cabinets are available in various width, height and depth configurations with welded, knocked down and UL Listed models to meet most specification requirements. Unless otherwise listed, 16 ga. CRS units include adjustable 11 ga. CRS mounting rails on EIA spacing, louvered side panels, wiring access, necessary hardware and choice of 17 standard colors.

Complete selection of convenience and electronic accessories are available for both series as well as custom manufacturing to meet individual needs.

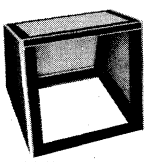


***1044/*1044LS** Select Series consoles include listed features plus bottom front panel and writing surface (1044LS is without writing surface). Units are 23⅜" W x 54⅛" H x 25½" D with 19⅜" (top) and 24⅝" (bottom) vertical panel space.

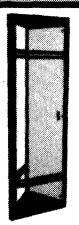


***1047** Select Series console includes listed features plus bottom front panel. Unit is 23⅜" W x 54⅛" H x 25½" D with 19⅜" (top) and 28⅛" (bottom) vertical panel space.

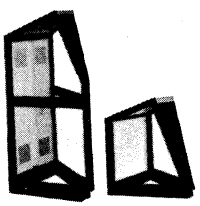
***2000, 2400 and 3000** Select Series cabinets are 23⅜" W, 28⅜" W and 34⅜" W respectively and include listed features. All models are 25½" D (30" depths available) with 5 sizes from 36⅞" - 77⅛" vertical panel space.



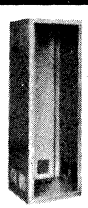
***700** Select Series desk turrets include frame, base, horizontal trim and removable top and back panels. 700-14 is 23⅜" W x 17⅝" H x 18" D with 14⅛" vertical panel space. 700-19 is 23⅜" W x 22½" H x 20" D with 19⅜" vertical panel space.



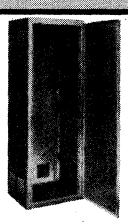
2000-45 Select Series floor wedge joins the 2000, 2400 and 3000 Series cabinets. 45° unit includes frame, removable top panel and rear door with lock.



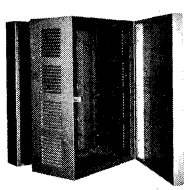
***1044-45** Select Series 45° wedge joins all consoles. Furnished with frame, base, removable top panel and louvered rear door with lock. ***700-45** Series are 45° wedge units which join 700 Series desk turrets. Units includes frame, removable top and back panels.



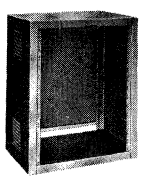
100/*WA100 Standard Series cabinets with fixed mounting rails are 22⅜" W x 18½" D with 5 vertical panel sizes from 36⅞" to 77⅛". 100 Series is knocked down. WA100 Series is welded.



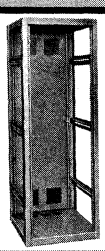
200/*WA200 Standard Series cabinets with adjustable mounting rails and locking front door are 22⅜" W x 18½" D with 5 vertical panel sizes from 36⅞" to 77⅛". 200 series is knocked down. WA200 series is welded. 200LD and WA200LD series are without front door.



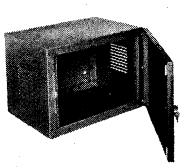
300/320 Standard Series welded sectional wall cabinets with locking front door are 17½" and 21½" deep respectively with 6 vertical panel sizes from 17½" to 61¼". Available without front door, order 300LD or 320LD.



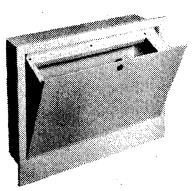
400 Standard Series cabinets are welded desk-top assemblies with solid rear door. Units are 22¼" W x 15⅜" D with 4 vertical panel sizes from 12⅜" to 31⅝".



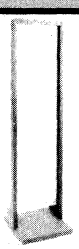
***500/*502** Standard Series multiracks are 18" and 25½" deep respectively. Models include open side frame, wiring access and louvered rear door with lock. Both sereis are 22⅜" wide with 61⅜", 70⅛" or 77⅛" vertical panel space.



***600-12** Standard Wall Mount cabinet is a welded, surface mounting assembly with full back and keyhole slots. Unit is 22⅜" W x 15¼" H x 15⅜" D with 12⅜" vertical panel space.



AWR Series amplifier wall cabinets include 14 ga. CRS frame with flush, tilt out locking door and attached 16 ga. CRS backbox. Recessed models have 3½" panel space. Surface models have 3½" and 5¼" panel space.



800 Standard Series open relay racks include frame, base and 11 ga. CRS mounting rails. 5 vertical panel sizes available from 36⅞" to 77⅛". Racks are shipped knocked down with mounting hardware.

Bivar Hardware for Electronic Components and PCB Assembly

OVER 5000 LOW-COST STANDARD PRODUCTS ARE NOW AVAILABLE FROM STOCK THROUGH YOUR AUTHORIZED BIVAR DISTRIBUTOR.

Now, Bivar's complete family of low cost time saving aids for electronic component assembly and printed circuit board packaging is available through direct distribution.

- A complete selection of mounts/spacers for industry's most popular components.
- Standard designs that answer real applications problems.
- Eliminate costly rework/rejects in assembly.
- Printed circuit board packaging aids: Guides/ejectors/handles.
- Immediately available from stock.

A simple call to your Authorized Bivar Distributor can mean immediate response and delivery, just the kind of service and assistance you need. You can ask for Bivar's complete, 32-page catalog too, including all specifications and prices.

VG1 SERIES
Connector Mounted or Free Standing.

- Choice of mounting styles and lengths to accommodate various board sizes.
- Economical, rigid, strong, heat resistant and stocked in depth.
- Black, glass filled nylon with U.L 94V-0 rating
- Funnel entry ramps and .109" channel depths for firm PCB retention

VG2 SERIES

Available from stock in 7 lengths, the VG2 series is designed to be used in pairs and is easily mounted with standard #6 fasteners.

- Rigidly reinforced and heat resistant.
- Easily installed with standard #6 fasteners. Built-in anti-rotation device.
- Funnel entry ramps with .109" channel depths.
- 7 standard lengths stocked in depth.

VG3 SERIES

These double sided guides are available from stock, may be used in pairs or in tandem for maximum economy and are easily mounted with standard #6 fasteners..

- Can be used in tandem for maximum density and economy.
- Easily installed with standard #6 fasteners. Built-in anti-rotation device.
- Funnel entry ramps with .109" channel depths.
- 7 standard lengths stocked in depth.

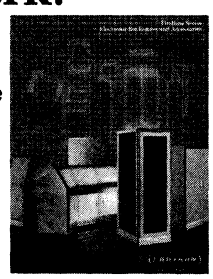
Standard or Modified—
Cabtron has the enclosures to make *your* designs work.

Cabtron's electronic enclosures are designed for maximum efficiency—whether used for automatic test equipment, communications, military, security, video, medical, industrial, or other applications. Our large selection of standard sizes, coupled with distinctive styling and a fully integrated, modular parts system, offer you the ultimate design flexibility required in today's market.

Cabtron also offers one of the largest selections of accessories in the industry, while attractive trim packages help you finish your enclosures in style. In addition, our skilled technicians will match any color, punch any size hole, or assemble any cabinet configuration to meet your specifications.

Put Cabtron's more than 20 years' experience in electronic enclosures to work for you. For the name of your local representative and your FREE Firstline catalog, contact Cabtron at:



1-312-498-6090

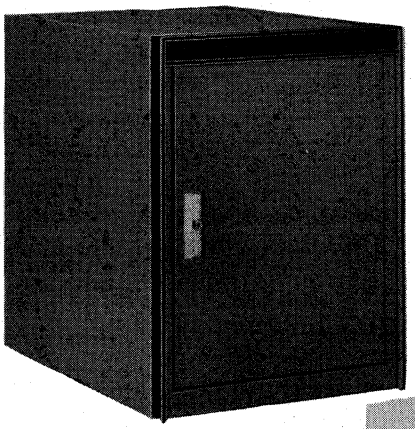
Standard Features

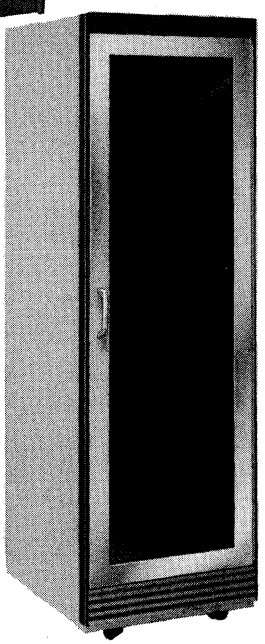
- 12, 14, or 16 gauge steel frame.
- 11 gauge corner gussets for added strength on vertical rack and console models.
- Horizontal cowlings, vertical frame channel, horizontal top channel, and bottom caster plates all seam welded together for extra strength and rigidity.
- 11 gauge mounting angles have tapped holes on EIA patterns.
- Removable bottom panel for computer floor access.
- Front and rear grills with cleanable air filters engineered to accept exclusive Cabtron blower system.
- Frame provided with knock-outs for easy mounting of casters.
- Casters purchased at time of order installed at no additional charge.
- Free hardware kit includes four 10-32 panel screws for every 8¾" of front panel space and joining hardware for multi-bay configurations.
- Choose from 10 standard textured finishes. Combinations of standard colors available at no additional cost.

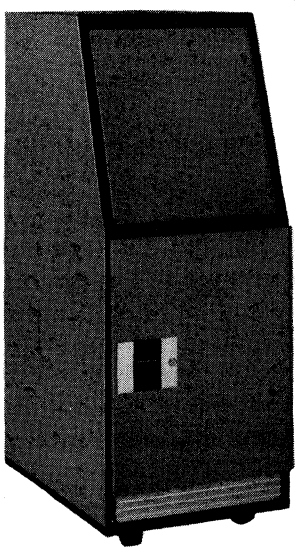
CABTRON **CABTRON SYSTEMS, INC.**, 200 Anets Drive, Northbrook, IL 60062

Durable

Quality enclosures in 5 DAYS.







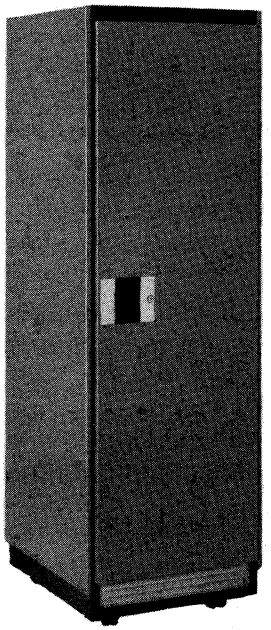
When you need it good, and you need it **now**, turn to Cabtron. We can produce and ship a large variety of standard sizes and configurations in just **five days** helping you keep important schedules.

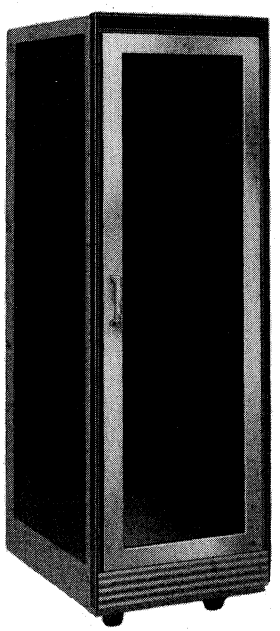
Cabtron can also help you replace or upgrade old enclosures with minimum downtime. And all enclosures in the five day program give you the quality features and durability you expect from Cabtron.

If you need it yesterday, and want it to last past tomorrow, be sure you call Cabtron today.

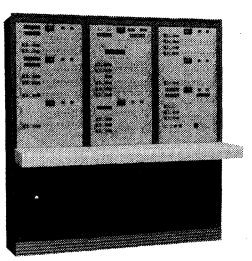
Firstline Series Vertical Rack Cabinets

• Three Panel Widths • Four Cabinet Depths • Nine Cabinet Heights





Cabtron's Firstline Series vertical racks combine a long list of performance and durability features with a styling package that complements the visual appeal of your single and multi-bay designs — all at an affordable price.



TYPICAL MULTI-BAY APPLICATION

For example, a 14 gauge steel frame is reinforced by eight corner gussets of 11 gauge steel to stand up to the toughest work environment. Critical components are seam welded for added strength and rigidity. Adjustable 11 gauge front and rear mounting angles provide distortion-free mounting for the heaviest loads. And, our exclusive filtered air base system helps protect valuable electronic equipment from heat overloads and dust contamination.

Choose from our model "C" (with trim) for computer style look, or our model "S" (square corners without trim) for industrial-type applications.

Also available in **Heavy Duty** version, featuring 12 gauge steel frame with three panel widths, three cabinet heights, two cabinet depths.

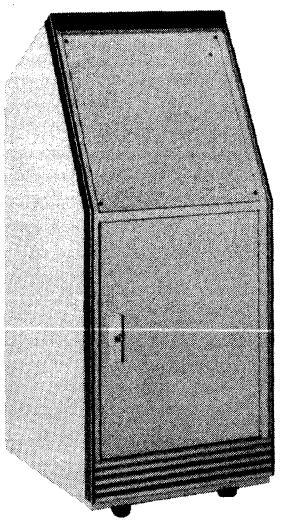
CABTRON

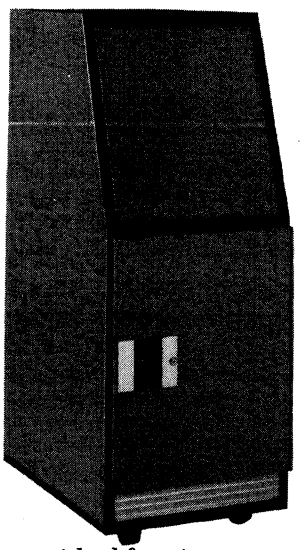
CABTRON SYSTEMS, INC., 200 Anets Drive, Northbrook, IL 60062

Versatile

Firstline Series 30° Vertical Slope Front and New 19° Vertical Slope Front "Flat-Top" Consoles

• Three Panel Widths • Four Frame Openings • Three Slope Openings

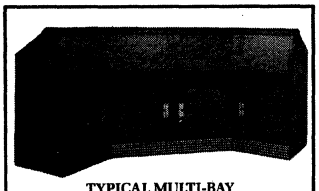




Firstline slope front consoles are ideal for virtually any control room environment. A wide range of features and optional accessories allow these cabinets to be used for monitors, control panels, and electronic equipment anywhere a sloped angle is desired.

Modular design enables Firstline consoles to be used individually, in groups, or intermixed with other Cabtron enclosures.

Joining hardware is provided for easy assembly of multi-bay configurations.



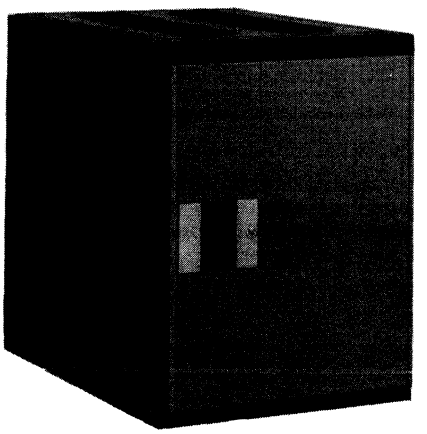
TYPICAL MULTI-BAY CONFIGURATION

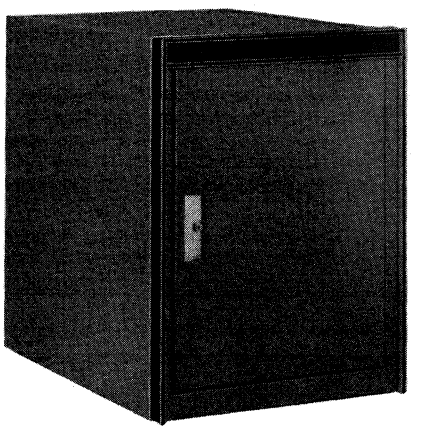
For standard applications, use our 30° console. Or, for applications requiring maximum depth with a sloped front, specify our new 19° flat-top model.

Choose between our model "C" (with trim) for computer-style look, or our model "S" (square corners without trim) for industrial-style applications.

Firstline Series Bench Cabinets

• Three Panel Widths • Five Frame Depths • Six Panel Heights





The ideal enclosures for use as bench top instrument cabinets or desk height equipment racks. Firstline bench cabinets combine sturdy construction with intelligent, productivity-oriented engineering and stylish good looks.

Rugged 14 gauge steel frame construction and seam welding of critical components allow Firstline bench cabinets to be matched to our other cabinet lines—or to stand alone wherever they're needed. Attractive styling makes them as at home in a high tech area as they are in an industrial environment. And, joining hardware is included to simplify multi-bay installations.

Choose between our model "C" (with trim) for computer-style look, or our model "S" (square corners without trim) for industrial-type applications.

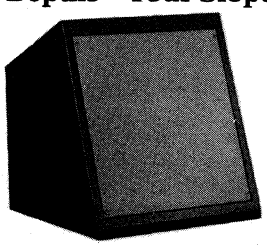
CABTRON

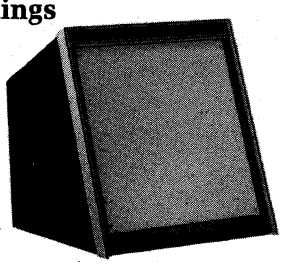
CABTRON SYSTEMS, INC., 200 Anets Drive, Northbrook, IL 60062

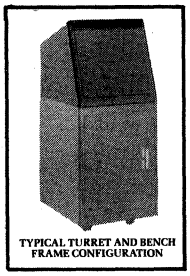
Attractive

Firstline Series 19° Turret Cabinets

• Three Panel Widths • Four Frame Depths • Four Slope Openings







TYPICAL TURRET AND BENCH FRAME CONFIGURATION

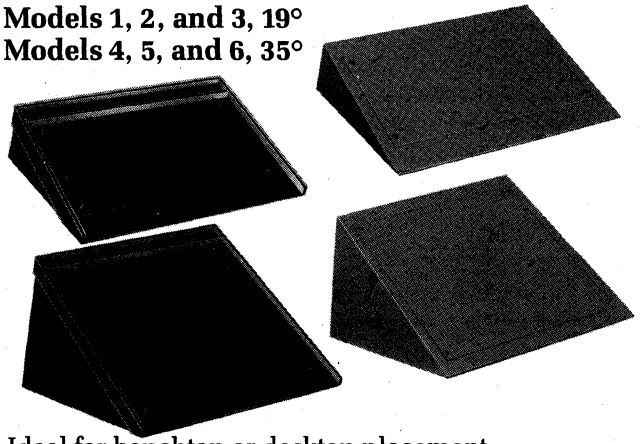
The perfect complement to Firstline bench cabinets, these turret cabinets are also ideal for desktop use. They provide the ideal slope viewing angle in sizes to match the particular application.

The 16 gauge steel frame can stand up to the toughest duty, allowing even heavy monitors or equipment to be conveniently mounted. Solid sides provide an attractive appearance in areas open to the general public, and multi-bay capability allows space to be used most efficiently.

Choose between our model "C" (with trim) for computer-style look, or our model "S" (square corners without trim) for industrial- type applications.

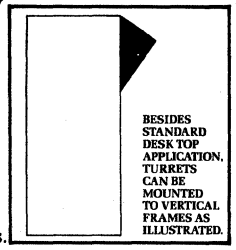
Firstline Series Desk Turrets

Models 1, 2, and 3, 19°
Models 4, 5, and 6, 35°



Ideal for benchtop or desktop placement, Firstline desk turrets provide maximum utility in minimal space. They can be easily attached to table tops as well, and can even be mounted to Firstline vertical rack cabinets for overhead monitor viewing.

Choose between our model "C" (with trim) for computer-style look, or our model "S" (square corners without trim) for industrial-type applications.

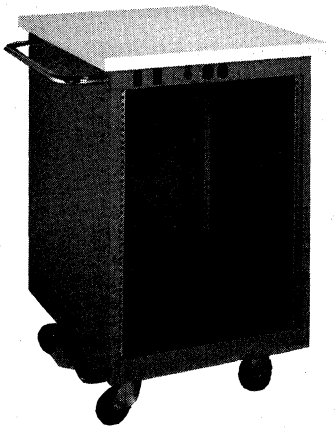


BESIDES STANDARD DESK TOP APPLICATION, TURRETS CAN BE MOUNTED TO VERTICAL FRAMES AS ILLUSTRATED.

Model MTC Mobile Test Cart

• Portable Work Station • Test Station • Equipment Transport

Test equipment not included.



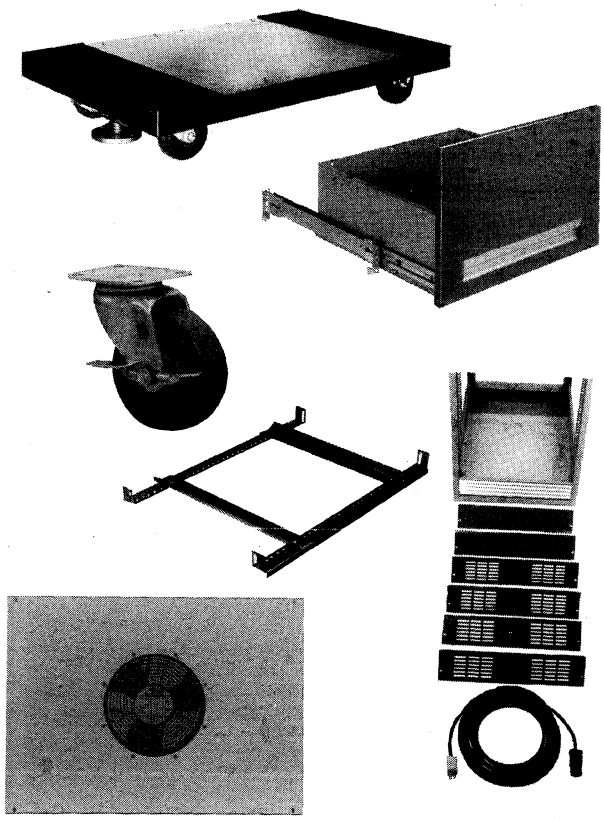
Cabtron's Mobile Test Cart transports integrated instrumentation and organizes your test or data acquisition equipment. Constructed of prime 14 gauge steel, this rugged single or dual bay cart features two grounded duplex outlets controlled by a master switch and pilot light, and one twist-lock receptacle on the outside of the frame.

The entire circuit is protected by a 15 amp fuse. Mounting angles with EIA spacing, removable 20 foot, 14 gauge/3 wire power cord, two swivel and two rigid casters, and foot lock provided. Available in any one or combination of 10 standard textured finishes.

CABTRON **CABTRON SYSTEMS, INC.**, 200 Anets Drive, Northbrook, IL 60062

Intelligent

Accessories

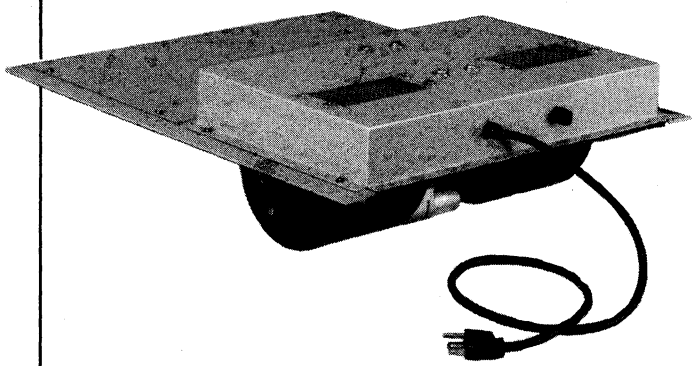


Cabtron offers a complete line of accessories to complement any of our standard lines of electronic enclosures. In addition, our engineers are available to assist you in creating custom applications or options... economically and efficiently.

Select the accessories you're interested in from the list below. Then call or write for more information.

- Blowers, base mounted
- Air duct assemblies
- Fan, 400 CFM top panel mounted
- Doors
  - Flush and surface, plain and louvered
  - DSA surface, plain and louvered
  - DSAW plexiglass window
- Enclosure panels
  - Plain and louvered, formed
  - Perforated, formed
  - Flat aluminum
  - Laminated plastic
- Panel spacers
- Casters
- Caster dollies, cabinet
- Caster plates, bench frame
- Bases
  - Toe base
  - Anti-tip base
  - Anti-tip legs
- Chassis brackets
  - Regular
  - Adjustable
- Shelves
  - Cabinet equipment
  - Perforated
  - Sliding
- Drawers
  - Writing top
  - Equipment
- Pull-out writing tops
- Mounting angles, cabinet panel
- Grills, base mounted
- Receptacle strips
- Grounding strips
- Extension, desk tops
  - "WTA" plastic with radius front
  - Plastic desk top
  - "WTC" plastic one piece console for 30° and 45° assemblies
- Chassis slides
- Cable carrier
- Cable runway
- Hardware, replacement and miscellaneous
- Hardware, mounting

Exclusive Base Mounted Blowers



Exclusive base mounted blowers are made to fit within the base of any filtered base Cabtron frame. Available in four air deliveries, 150 CFM, 300 CFM, 500 CFM, and 800 CFM.

Cabtron blower units have dual outlets providing filtered air into the cabinet. For directing filtered air to specific parts of the cabinet we recommend using out "AD" air ducts.

All Cabtron blowers operate on 115 volts AC, 50-60 Hertz and are fused per industry standards. A 30" cord and plug is provided for easy attachment to our receptacle strips. All parts are finished in Cabtron light gray finish.

COMMONLY USED ELECTRICAL/ELECTRONIC ABBREVIATIONS AND ACRONYMS

A
AC alternating current
ABS acrylonitrile butadiene-styrene
A/D analog to digital
ADC analog to digital converter
ADP automatic data processing
AF audio frequency
AFC automatic frequency control
ALGOL algorithmic language
AM amplitude modulation
AND a logical operator
AQL acceptable quality level
ASCII American national standard code for information interchange
ASIC application specific IC
ATE automatic test equipment
AWG American wire gauge

B
BALUN balanced to unbalanced
BASIC beginners' all-purpose symbolic instruction
BCD binary-coded decimal
BNC baby "N" connector
BUS basic utility system

C
CAD computer aided design
CAM computer aided manufacture
CAMAC computer automated measurement and control
CATV cable television or community antenna television
CCC (leaded) ceramic chip carriers
CCD computer-controlled display
CERMET ceramic metal element
CLCC ceramic leadless chip carriers
CMOS complementary metal-oxide semiconductor
Comm. communications
CPS characters per second
CPU central processing unit

D
D/A digital to analog
DAC digital to analog converter
DC direct current
DIAC bidirectional trigger diode
DIL dual in-line
DIN Deutsche Industrie Normenausschuss
DIP dual in-line package
DPM digital panel meter
DRAM dynamic RAM
DTL diode transistor logic

E
EDP electronic data processing
EBCDIC extended binary coded decimal interchange code
EEPROM electrically erasable PROM
EIA Electronic Industries Association
EMC electromagnetic compatibility
EMI electromagnetic interference
EMP electromagnetic pulse
EPROM electrically programmable ROM
ESR equivalent series resistance

F
FEP fluorinated ethylene propylene Copolymar, 200° Teflon
FET field-effect transistor
FM frequency modulation
FORTRAN formula translator

G
GaAsFET gallium arsenide FET
GPIB general purpose interface bus
GPS global positioning system

H
HF high frequency (3 to 30 MHz)
HIPOT test, measurement and diagnostic equipment
HLL high level language
HV high voltage
Hz Hertz

I
IC integrated circuit
IDC insulation displacement contact
IF intermediate frequency
IO input/output (devices)
IR insulation resistance (or) infrared

J
JEDEC Joint Electronic Device Engineering Council
JFET junction FET
JMOS junction MOS

K
kHz kilohertz (10^3
KSR keyboard send /receive

L
LC inductance capacitance
LCC leaded chip carrier
LCD liquid crystal display
LED light-emitting diode
LF low frequency (30 to 300 kHz)
LIF low insertion force
LNA low noise amplifier
LNB low noise band
LSI large scale integration
LVDT linear velocity displacement transformer

M
MASER microwave amplification by stimulated emission of radiation
MATV master antenna television
µF microfarad
MHz megahertz
MIB microcomputer interface board
MIC microwave IC
MIPS million instructions per second
MOS metal oxide semiconductor
MOSFET metal oxide semiconductor FET
MOSIGT metal oxide semiconductor insulated-gate transistor
MOV metal oxide varistor
MPU microprocessor unit
MSI medium scale integration

N
NBS National Bureau of Standards
NEMP nuclear electromagnetic pulse
NIM national instrumentation module
NOR not OR
NTC negative temperature coefficient

O
OCR optical character reader
OEM original equipment manufacturer
OR a logical operator

P
PC printed circuit
PCB printed circuit board
PCM pulse code modulation
pF picofarad
PGA pin grid array
PIN positive-intrinsic-negative (transistor)
PLA programmable logic array
PLCC plastic leaded chip carrier
PLL phased lock loop
PPI plan position indicator
PROM programmable ROM
PTC positive temperature coefficient
PUT programmable unijunction transistor

Q
QAM quadrature amplitude modulation
Q (meter) quality-factor meter

R
RAM random access memory
RC resistance-capacitance
RFI radio frequency interference
RMS root mean square
ROM read only memory
RF radio frequency
RFC radio-frequency choke
RFI radio-frequency interference
RTD resistance-temperature detector
RTL resistor transistor logic
RTV room temperature vulcanizing
RW read/write

S
SAS silicon asymmetrical switch
SBC single board (micro) computer
SBS silicon bilateral switch
SCR silicon-controlled rectifier
SCS silicon controlled switch
SDA source & detector assemblies
SIDAC bidirectional voltage-triggered switch
SIMM single in-line memory module
SIP single in-line package
SMD surface mount device
SMT surface mount technology
SO small outline
SOIC small outline IC
SOT small outline transistor
SSI small scale integration
SSR solid state relay
STL Schottky transistor logic
SUS silicon unilateral switch

T
TC temperature coefficient
TCE thermal coefficient of expansion
TXCO temperature compensated crystal oscillator
TFE tetrafluoride ethylene propylene Copolymer, 250° Teflon
TRIAC bidirectional AC switch
TTL transistor-transistor logic
TTY teletypewriter

U
UHF ultra high frequency (300 MHz to 3 GHz)
UJT silicon unijunction transistor
UL Underwriters Laboratory
UPS uninterruptible power supply

V
VAC volts (of) alternating current
VAN value added network
VAR volt-ampere reactive
VCR video cassette recorder
VDC volts (of) direct current
VHF very high frequency (30 kHz to 300 MHz)
VHSIC very high speed integrated circuit
VLF very low frequency (3 to 30 kHz)
VLSI very large scale integration
VME virtual machine environment
VRM voice recognition module
VTVM vacuum tube volt meter
VU volume unit
VSWR voltage standing wave ratio

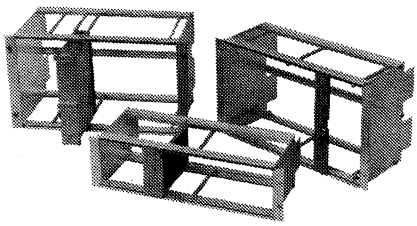
W
WPS word processing software

Y
YIG yttrium iron garnet

Z
ZIF zero insertion force

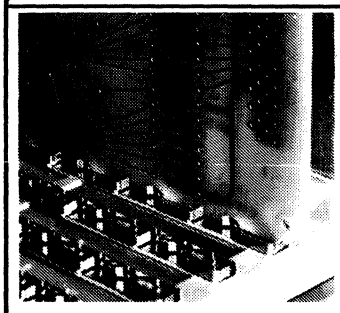
CALMARK® . . . A Leader in Packaging Hardware

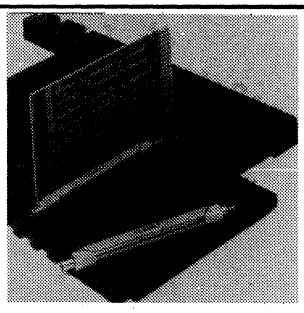
Compare our range of products



EUROCARD PACKAGING HARDWARE

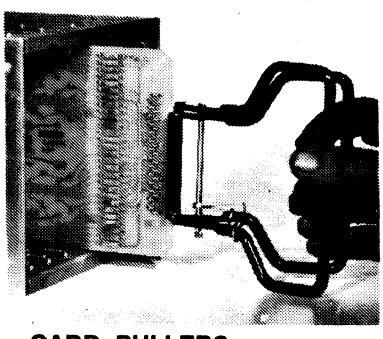
In accordance with VME 41494 & IEC 297 Stds.
VMEbus & MULTIBUS II compatible.

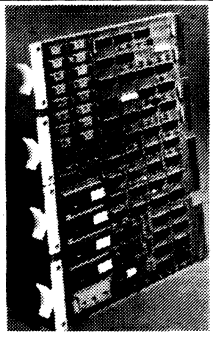




CARD RETAINERS CARD-LOKS

Excellent thermal and electrical conductivity, plus protection against shock and vibration.



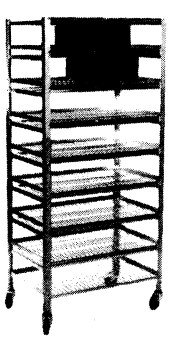


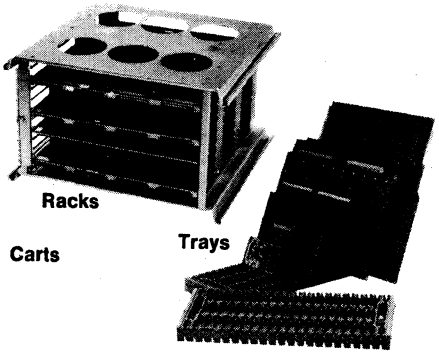
CARD PULLERS

For easy PC card extraction.

PCB HANDLING PRODUCTS

Trays, Racks and Carts for safe and efficient handling, transport, and storage of PC boards during all stages of production. Available with static resistant or conductive material.

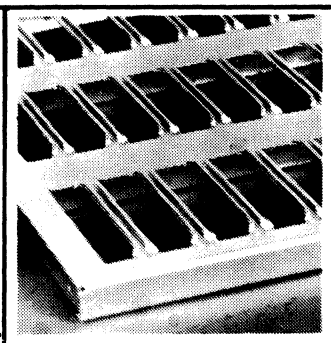


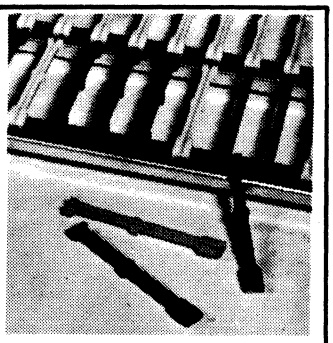


Racks

Carts

Trays





CARD GUIDES

Metal louver and nylon snap-in.

CARD INSERTERS & EXTRACTORS

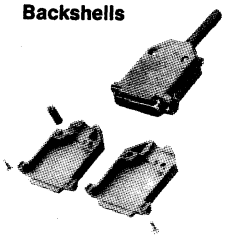
For easy insertion and extraction of cards.

- Available in colors for coding • Generous area for hot stamp marking.
- U.L. Approved • Available with pre-started assembly pins.

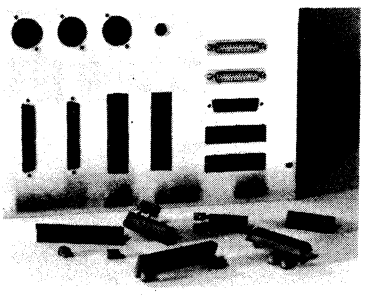
CONNECTOR ACCESSORIES

For "D"-subminiature rectangular connectors.

Backshells



Available with EMI/RFI shielding.



Cutout Covers

ELECTRONIC COOLING PRODUCTS

Fan Tray Assemblies offer standard mounting with multiple and adjustable fan locations. Cabinet Blowers for cooling of electronic rack equipment. For Special Applications Calmark will design an airmover to meet specific requirements.

CUSTOM FROM COMPAC'S BLANK SERIES

Compac will modify our Blank Series to meet your needs and specifications.

- Drilling
- Tapping
- Milling
- Punching
- Traps for Subminiature Connections
- Silk Screening/Painting

Work is done from your print to your specifications.

For your convenience Compac has included on page 5 a request for quote with a rendering of a Compac Case to depict your modifications.

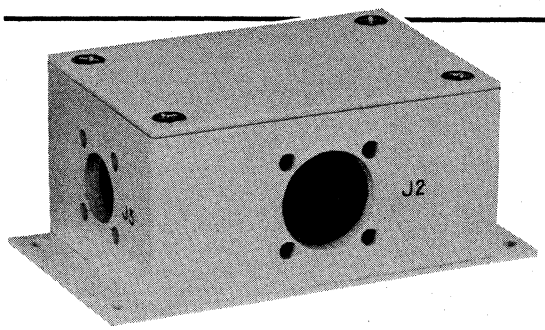
COMPAC™

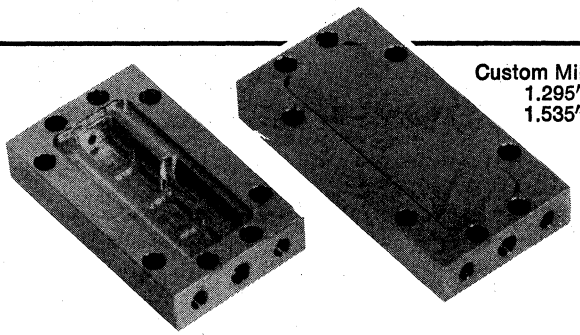
CUSTOM SERIES

Compac's unique product line can easily be tailored to meet your many custom specifications. But if our RFT or Blank Series do not fit your basic requirements, Compac can build a totally custom enclosure quickly and inexpensively. Compac's versatility converts your design into a finished product ready for assembly and installation. All you have to do is supply circuitry!

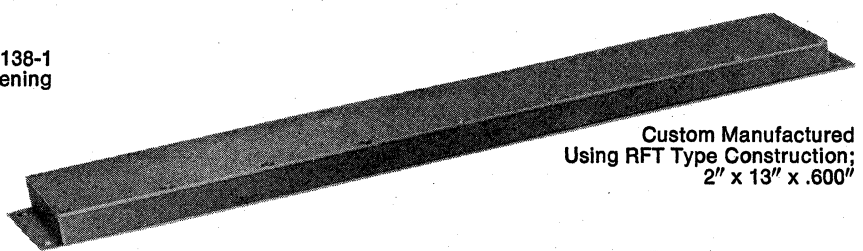
— Print or Detailed Drawings Required —



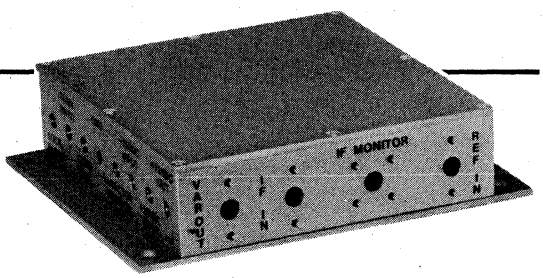
Manufactured from 51170-138-1
with Custom Drilling, Painting, and Silk Screening



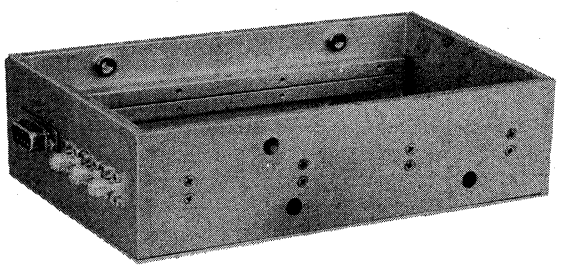
Custom Milled Enclosures,
1.295″ x .765″ x .225″
1.535″ x .765″ x .225″



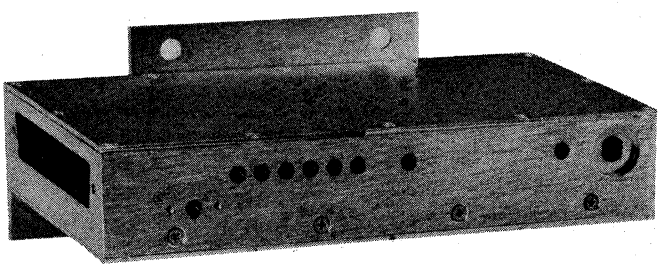
Custom Manufactured
Using RFT Type Construction;
2″ x 13″ x .600″



Manufactured from R51210-075-1 with
Custom Drilling, Tapping, and
Silk Screening



Custom Manufactured
Using RFT Type Construction, 4.00″ x 7.00″ x 2.00″
Showing Mounting Bars, Custom Drilling for
Hardware and Connectors



Manufactured from R51230-100-0(N)
Showing Custom Mounting Plate
Drilling, Milling and "D" Punching

24 PAGE PRODUCT INDEX BOOK LISTS 3,800 ITEMS

62 CROSS REFERENCE CARDS

300 FILE FOLDER LABELS

ALL NEW with this edition of EEM

GET ORGANIZED!

Are your catalog files organized? Can you find any given catalog in a matter of seconds? If your answer is "Yes," you probably already have the EEM File System. But, if you said "No," you really ought to look into this simple system. It will save hours of time and tons of aggravation.

The EEM File System was invented over twenty-five years ago to help people who specify, buy, or work with electronic products and equipment. It is upgraded on a constant basis to reflect the current state of the art. It's easy to use and easy to customize to your particular needs.

You say you want to file catalogs by type of product? That's easy to do with The System. But, what are you going to do when there are multiple products in one catalog? Take Mallory for example. There are all kinds of products in the Mallory Short Form Catalog. With the EEM File System all you do is file the catalog under "M" for Mallory and refer to it on all of the cross reference cards that apply.

There are thousands of EEM File Systems in everyday use in engineering and procurement offices all over the world. Shouldn't you be using this proven system?

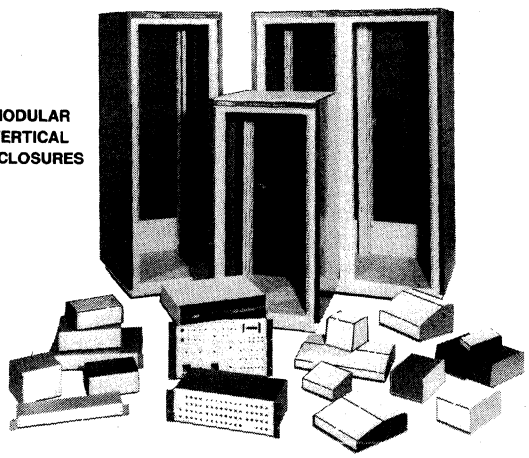
The EEM File System is shipped in one neat package. The package contains everything you need to set up your very own filing system. Best of all, it's easy to get and very affordable. Send a check or money order for $25.00 and EEM will pay the postage and sales tax. If you must use a purchase order, please add $5.00 for postage and handling. An invoice will accompany your System.

Don't waste any more time. Get organized now!

EEM FILE SYSTEM,

645 stewart ave., garden city, ny 11530

CTS METAL ENCLOSURES



CTS ENCLOSURES

A complete and compatible family of value engineered cabinets and vertical rack enclosures which meet the highest standards of quality, versatility, and ease of use at a surprisingly modest price.

All three lines: MOD-U-BOX, MOD-U-LINE, and MODULAR VERTICAL ENCLOSURES are specifically designed to complement each other and other standard electronics industry products.

Material: All CTS enclosures are manufactured from heavy gauge aluminum or cold rolled steel.

Finish: Beautiful oven-baked smooth and textured paints available in a selection of colors.

Design: Ease of assembly and replaceability of all parts are built-in features.

Price: Value engineering means top performance for bottom dollar.

CALL: TOLL FREE (800) 558-7297

MOD-U-BOX

The MOD-U-BOX series presents a wide choice of small electronic cabinets. Distinctively styled, MOD-U-BOX offers rugged high quality construction at an exceptionally low price.

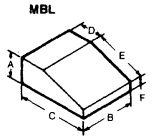
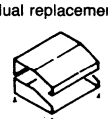
14 SIZES AVAILABLE



MOD-U-BOX FEATURES

Construction: Made from aluminum for lightweight strength and ease of handling. Wrap around base is .090" aluminum; sloped or flat front insert is .062" aluminum.

Ease of Assembly: Simple two piece design assembles or disassembles in minutes with just four screws. Allows easy access to your enclosed components. Individual replacement parts also may be ordered.



Colors & Finish: Cabinets are finished with oven-baked, EPA-approved paint. Wrap-around base has a textured finish while front insert is smooth. Standard colors are:

Wrap-Around Base	Front Insert
*Blue	*Off-White
Dark Grey	Light Grey
Black	Black
Tan	Tan

***Note:** **BLUE** and **OFF-WHITE** cabinets in stock for immediate delivery. Call for current availability of other standard color combinations.

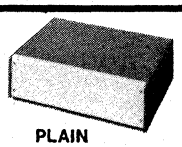
Modifications: CTS will make in-plant modifications to your specifications. Turn three pages to **STANDARD ENCLOSURE MODIFICATIONS** heading for a list of available modifications. Popular modifications include: silkscreening, venting, cut-outs, etc. Steel cabinets are also available through a special order.

To Order Mod-U-Box: Select appropriate CTS model number and specify color combination by adding color suffix, the base color first followed by the insert color. For example, an **MBS-3-4-6** with a **BLACK** wrap-around base and an **OFF-WHITE** insert is ordered as follows: **"MBS 3-4-6 BLACK/OFF-WHITE".**

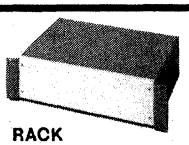
CTS METAL ENCLOSURES

MOD~U~LINE

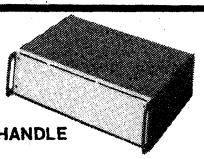
Mod-U-Line is a line of quality small cabinets, available in standard off-the-shelf sizes. "Value Engineered" to provide the optimum in versatility, strength, and economy.



PLAIN



RACK



HANDLE

MOD-U-LINE FEATURES:

Construction: Made from aluminum for lightweight strength and ease of handling. Side panels (except for wooden) are .090" aluminum. All other components are .062" aluminum. Side panels and chassis plates are ordered separately.

Ease of Assembly: Mod-U-Line cabinets are designed to assemble in minutes. The top cover is easily removed for complete and immediate access to the inside.

Replacement Parts: All components of Mod-U-Line may be replaced in seconds with stock panels. This feature reduces damage or redesign costs by eliminating the need to repaint or replace the entire unit.

Colors & Finish: Cabinets are finished with oven-baked, EPA-approved paint. All exterior parts have a textured finish, except the front panel, which has a smooth finish. Standard colors are:

Top, Bottom & Rear Panels	Front Panel	Side Panels (except wooden)
*Blue	*Off-White	*Blue
Dark Grey	Light Grey	Dark Grey
Black	Black	Black
Tan	Tan	Tan

***Note:** **BLUE** and **OFF-WHITE** components in stock for immediate delivery. Call for current availability of other standard color combinations. Chassis plate and interior side braces are gold alodined.

Modifications: CTS will make in-plant modifications to your specifications. Turn two pages to **STANDARD ENCLOSURE MODIFICATIONS** heading for a list of available modifications. Popular modifications include: silk screening, venting, cut-out, etc. Steel cabinets are also available through a special order. Vented top and bottom panels are also available.

Order Mod-U-Line: A complete cabinet is ordered in three segments. 1) **Mod-U-Line Cabinet Less Sides (MCLS)** includes: front, back, top and bottom panels plus interior side braces. 2) Side Panels are ordered by style. **Side Panel Plain (SPP)** **Side Panel Rack (SPR)**, **Side Panel Handle (SPH)**; by size and color. Side panels are symmetrical - there are no righthand or lefthand panels. 3) Optional **Chassis Plate (CP)** is ordered individually according to table below. For example, a 3 5/16" x 16 5/8" x 11 7/8" cabinet with a **BLUE** exterior and **OFF-WHITE** front panel which has **BLUE RACK** side panels and a **16 5/8" x 11 7/8"** chassis plate is ordered as: **MCLS 3-17-12 BLUE/OFF - WHITE**, plus **SPR 3-12 BLUE, CP 17-12.**

STANDARD VENTED TOP AND BOTTOM PANELS ORDERING INSTRUCTION

A 1" wide ventilation strip comprised of 1/8" holes on 1/4" centers may be ordered on either top **(VT)**or bottom **(VB)** panels or on both **(VTB)**, if desired. Example: An **MCLS 3-17-12-VTB TAN/WHITE** would be vented on both top and bottom panels.

EXTRA COST PER PANEL $3.00

Venting other than standard can be obtained as a modification.

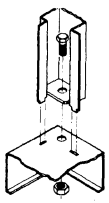
CTS METAL ENCLOSURES

MODULAR VERTICAL ENCLOSURES

CTS SPECIAL FEATURES

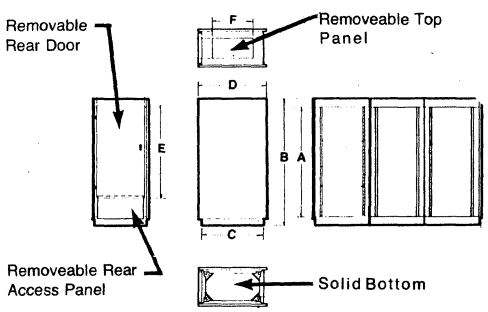
- **Unique Corner Post Design** CTS combines two unique design features to provide strength and rigidity previously associated only with more expensive welded units. Interlocking tab and slot construction in the corner joints eliminates torsional movement of the corner posts. Secondly, a heavy gage mounting plate is welded, slightly recessed, into the top and bottom of each corner post. Thus, when the corner bolt is tightened, the cabinet base (or top) flexes slightly, ensuring that the joint is always preloaded in tension, providing additional rigidity.



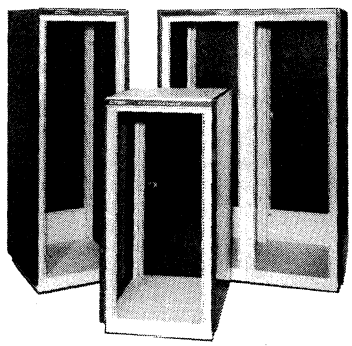
- **Knock Down Units Reduce Shipping Costs.** CTS Modular Enclosures save up to 66% in shipping costs -savings which are passed on to you.

- **CTS Modular Construction Reduces Parts Replacement Costs.** Never replace an entire enclosure again. All CTS cabinet parts, including frame components, are removable, interchangable, and replaceable.

- **Full Line of Accessories.** A full line of accessories to add versatility and to enhance the performance of your vertical enclosures is available. The line includes: plexiglass doors, casters, blower unit, louvers, door locks, drawers and more. Turn to the next page under the **VERTICAL ENCLOSURE ACCESSORIES** heading for a complete list. Note: 17" wide MOD-U-LINE with rack side panels fits 19" vertical enclosures.



Modular Vertical Enclosures are "tough as welded" with the cost savings and versatility of knockdown enclosures.



VERTICAL ENCLOSURE FEATURES

Construction: Heavy duty steel construction ensures durability. Corner Posts - 13 gage C.R.S. Top and bottom assemblies -14 gage C.R.S. All other components - 18 gage C.R.S. All metal forming, welding, and painting is done in CTS manufacturing facilities.

Ease of Assembly: CTS self-registration design enables quick and routine assembly. One person can assemble these vertical enclosures in minutes. Unique tab and slot engineering ensures all parts accurately self-align.

Colors and Finish: Enclosures are finished with oven-baked, EPA - approved paint. Rear door and side panels have a textured Royal Blue finish. All other components are textured in Ash White. This color combination harmonizes with standard electronics industry products. Other colors are available as modifications.

Multi-Bay Add-Ons: Modular enclosures are designed to bolt together easily and securely to form multi-bay configurations in any quantity. A variety of special multi-bay accessories is available. Turn next page under **VERTICAL ENCLOSURE ACCESSORIES** for a complete list.

Modifications: CTS will make in-plant modifications to your specifications. See next page under the **STANDARD ENCLOSURE MODIFICATIONS** heading for a list of available modifications.

To Order: Select the desired CTS model number from the table, for example: **MVE 19-61-25.** For multi-bay configurations add the appropriate suffix, ie. for **DOUBLE BAY** order: **MVE 19-61-25-2.**

EXAMPLE: Single Bay = MVE-19-61-25; Double Bay = MVE-19-61-25-2

YOUR MVE ORDER INCLUDES:

- Four corner posts *per bay*
- One top assembly *per bay*
- One top access panel *per bay*
- One closed bottom assembly *per bay*
- One rear door *per bay*
- One rear access panel *per bay*
- Two removable side panels
- Mounting hardware

Note: CTS MVEs may be ordered without all these standard accessories. Call for prices.

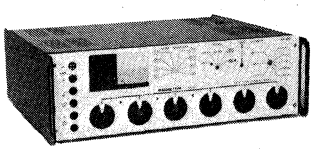
CTS METAL ENCLOSURES

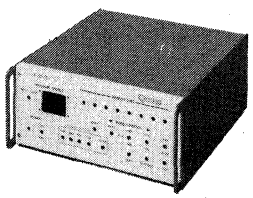
STANDARD ENCLOSURE MODIFICATIONS

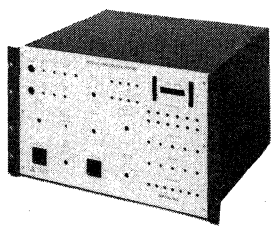
CTS can save you valuable time and money by modifying its entire line of standard enclosures [MOD-U-BOX, MOD-U-LINE, or MODULAR VERTICAL] to your specifications. In its manufacturing facilities, CTS can perform a wide variety of modifications for you under one roof, at competitive prices. Call for more information.

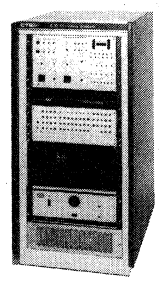
Modifications now available include:

- Custom Colors
- Smooth or Textured Paints
- Multicolor Silkscreening
- Cut-Outs
- Knockouts
- Punched Holes
- Louvers
- Vent Slots
- Double "D"
- Standoffs
- Pem Nuts
- Studs









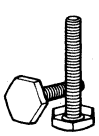
VERTICAL ENCLOSURE ACCESSORIES

CTS offers a full line of accessories to enhance the performanace and versatility of your vertical enclosures. Call for prices.

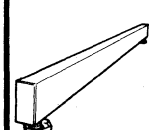
BASE ACCESSORIES

Casters
3 ½" diameter swivel casters plus assembly handware. These hard rubber casters are rated for 200 pounds each. 4 per set.
MVE 1010 **$34.50/set**

Leg Levelers
3" independently adjustable leg levelers for stabilizing units placed on uneven floor surfaces. 4 per set.
MVE 1015 **$7.50/set**



Anti-tilt Legs
Anti-tilt legs are available in CTS Royal Blue. Legs are tubular constructed with protective plastic caps and easily attach to the base of the cabinet. Assembly hardware included.
37" **MVE 1020** **$52.00/pair**
43" **MVE 1021** **$63.00/pair**



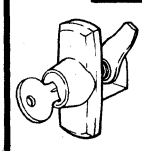
CTS ENCLOSURES:

Design, Variety, Quality, Durability, Modification, Replacements, Compatability

CTS MEANS RELIABILITY

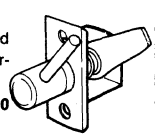
(800) 558-7297

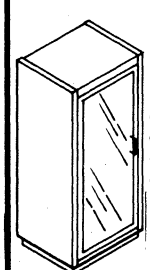
DOOR ACCESSORIES



Lock Assembly
Adjustable grip latch with key lock capabilities to limit access to the interior of your enclosure.
MVE 1030 **$15.00**

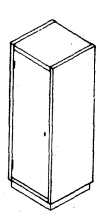
T-Door Handle
CTS offers zinc plated, knurled head/T-bar handles for all Vertical Cabinet models.
MVE 1035 **$7.50**





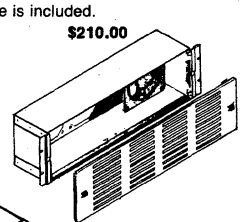
Plexiglass Door:
Smoked grey plexiglass door has a satin anodized aluminum extruded frame. Magnetic closure strip and handle allow easy access and secure closure.
42" **MVE 1092** **$185.00**
61" **MVE 1090** **$194.00**
70" **MVE 1091** **$216.00**

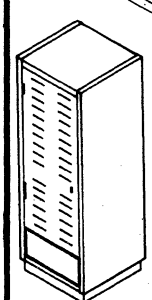
Steel Front Door:
18 gage C.R.S. door is finished in oven-baked, textured Royal Blue. Lock and handle ensure secure access. All mounting hardware is included.
42" **MVE 1185** **$119.00**
61" **MVE 1175** **$134.00**
70" **MVE 1180** **$150.00**



VENTILATION ACCESSORIES

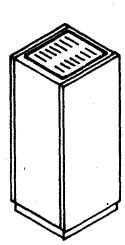
Blower Unit:
Three 15 W, 109 CFM fans housed in a zinc-plated rack mount enclosure. Washable air filter is protected by a bright nickel plated grille. All mounting hardware is included.
MVE 1115 **$210.00**





Louvered Rear Door:
18 gage C.R.S. door is finished with oven-baked textured Royal Blue. Two columns of louvers allow fresh air flow.
42" **MVE 1131** **$ 87.00**
61" **MVE 1125** **$100.00**
70" **MVE 1130** **$112.00**

Louvered Top Panel:
18 gage C.R.S. panel is finished in oven-baked textured Ash White paint. Top panel is formed to lie flush and mounts with four screws, which are included.
25" deep
MVE 1140 **$34.00**
30" deep
MVE 1145 **$37.00**



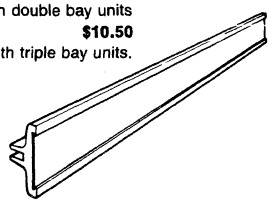
CTS METAL ENCLOSURES

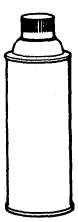
VERTICAL ENCLOSURE ACCESSORIES CONT'D

COSMETIC FINISHES

Identification Strip
The CTS Identification Strip is manufactured with a finish to match your CTS Vertical Enclosure. This strip fits neatly into the aluminum trim which is a standard part of all CTS Vertical Cabinets. This item is also available with your logo or corporate name for a slightly additional charge.

MVE 1001 **$4.50**
use with single bay units
MVE 1002 **$7.50**
use with double bay units
MVE 1003 **$10.50**
use with triple bay units.

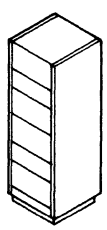




Touch Up Paint
Touch up paint is available to provide a compatible finish. Paint comes in 12 oz., air dry cans.

MVE 1040 **$13.40**
Royal Blue
MVE 1041 **$13.40**
Ash White

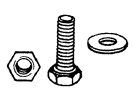
Filler Panels:
18 gage C.R.S. filler panels are formed to mount flush with the corner posts. Finished in oven-baked, textured Ash White paint. Available in three heights to fit 19" wide MVES.



3" **MVE 1101** **$14.50**
5" **MVE 1105** **$16.00**
7" **MVE 1110** **$18.00**

MULTI-BAY ACCESSORIES

Joining Kit
Complete hardware is available for joining units to form multi-bay capacities. Kit contains hex head bolts, nuts, flat and lock washers to complete assembly.



MVE 1045 **$4.50**

60" Power Strip:
Contains 6 single, 125V, grounded outlet receptacles on 9" centers. UL listed and rated for 15 amps. A 6' cord with ground is attached. All mounting hardware is included.

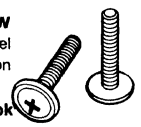
MVE 1135 **$97.00**

MOUNTING HARDWARE

5/8" Cup Head Screw
10/32 Phillips washer head panel mounting screw with nylon washer. 20 per pack.

MVE 1049 **$3.00/pk**

1 1/8" Cup Head Screw
10/32 Phillips washer head panel mounting screw with nylon washer. 20 per pack.



MVE 1046 **$3.00/pk**

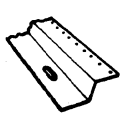
Clip Nut
10/32 Plated "U" type clip nut to be used with panel mounting screws. 20 per pack.

MVE 1047 **$4.50/pk**

Cage Nut
10/32 Plated "U" type clip nut to be used with panel mounting screws. 20 per pack.

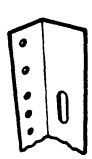
MVE 1048 **$12.00/pk**

Multi-Formed Vertical Mounting Rail Kit
Each kit contains two 16 ga. steel zinc plate, gold irridite rails. These can be used when necessary to install equipment horizontally into cabinet. Each rail is drilled and tapped with 10/32 holes using the standard EIA pattern. All necessary installation hardware is included.



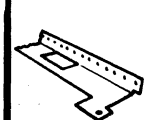
42" **MVE 1082** **$40.00 pr.**
61" **MVE 1080** **$44.00 pr.**
70" **MVE 1081** **$49.00 pr.**

90 Degree Vertical Mounting Rail Kit
Packed two per kit with all necessary installation hardware. Kit contains two 16 ga. steel rails. Rails attach to horizontal mounting kit inside of cabinet and are used to recess equipment inside of cabinet. Each rail is drilled and tapped with 10/32 holes using the standard EIA pattern.



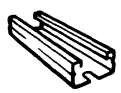
42" **MVE 1077** **$35.00 pr.**
61" **MVE 1075** **$37.00 pr.**
70" **MVE 1076** **$40.00 pr.**

Vertical Corner Mounting Rail Kit
Vertical corner mounting rails are packed two per kit and include all necessary installation hardware.
Rails attach directly behind corner post and provide a continuous height of 10/32 tapped holes utilizing the standard EIA pattern.



42" **MVE 1062** **$35.00**
61" **MVE 1060** **$38.00**
70" **MVE 1061** **$41.00**

MOUNTING HARDWARE

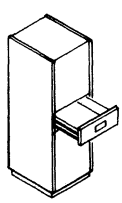


Horizontal Mounting Rail Kit
Each kit contains two 16 ga. steel rails with a zinc plate, gold irridite finish. Rails attach to CTS 90 degree vertical mounting rails and CTS multi-formed vertical mounting rails. All hardware is included.

25" **MVE 1070** **$23.00**
30" **MVE 1071** **$25.00**

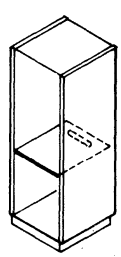
DRAWERS AND SHELVING

Drawer Assembly:
18 gage C.R.S. drawers are rated for a 200 lbs. load. Drawers mount on 14 gage zinc-plated C.R.S. brackets with ball bearing slides. Front panel is oven-baked textured Ash White, all other surfaces are smooth Ash White. Stainless steel pull is flush mounted in front panel. Drawer measures H x W x D = 6" x 16 1/8" x 16"
Note: All mounting hardware is included.
Front panel of drawer is available in two height sizes.



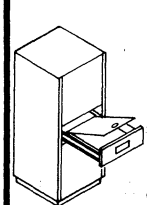
7" panel
MVE 1155 **$150.00**
10 1/2" panel
MVE 1160 **$155.00**

Equipment Shelf:
16 gage C.R.S. equipment shelf is rated for a 200 lbs. load. A slot for cables has been cut out in the back of the shelf. The shelf is finished in oven-baked smooth Ash White paint. All mounting hardware is included. Two shelf depths are available.



25" deep
MVE 1165 **$32.00**
30" deep
MVE 1170 **$42.00**

Drawer Assembly w/Writing Shelf:
This drawer assembly with a 3 1/2" high front panel, has the same construction and finish as the drawer described above. In addition, an 18 gage C.R.S. writing shelf has been attached to the back of the drawer. The shelf may be raised on its hinges to allow access to the drawer. The writing shelf is finished in smooth Ash White paint. All mounting hardware is included. The drawer dimensions, H x W x D, are: 2 11/16" x 16 1/8" x 16"



MVE 1150 **$150.00**

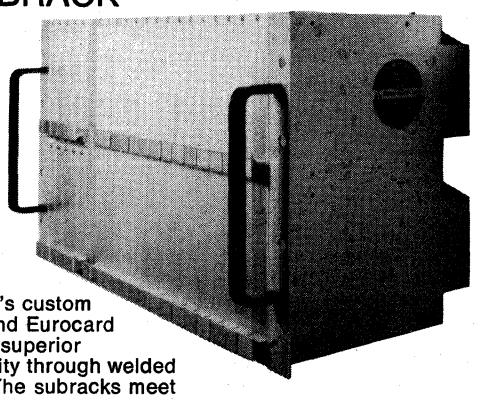
- **Electronic Packaging Design & Manufacture**
- **Custom PCB Racks, Chassis, PCB Guides, Retainers**
- **Machined Subassemblies and Fabricated Enclosures**
- **Accessories & Assembly of Electronic Hardware**

Whether you need custom fabrication for commercial or military applications, you need quality and competitive prices. You'll find both at EG&G Birtcher. From single unit to thousands. From initial concept to final design and detail drawings. We meet the stringent QA requirements of MIL-1-45208A. Call or send us your drawings for a quote and ask for our free 52 page catalog of custom metal fabrication, PC board guides and retentive hardware.

CUSTOM 6U VME SUBRACK



EG&G Birtcher's custom rugged VME and Eurocard subracks offer superior structural rigidity through welded construction. The subracks meet documented VME Product Specifications per the VMEbus Manual, Revisions C.1. Euro-subracks meet specifications per IEC 297-3 and DIN 41494, Parts 1 and 5.

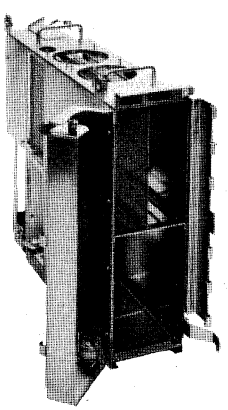
SHEET METAL CAPABILITIES

Available to all EG&G Birtcher customers are the combined resources of the Birtcher facilities and broad spectrum of technical and manufacturing knowledge.

Our fully equipped 60,000 square-foot plant with its top-of-the-line equipment enables us to fill almost any customer requirement including design, shearing, piercing, bending, milling, welding, chemical finishing and painting, silk screening and assembly of hardware.

CUSTOM FABRICATION

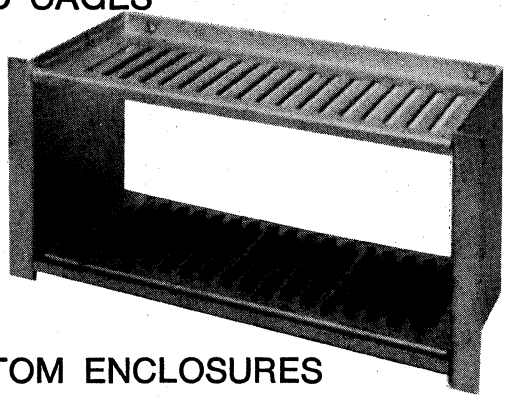
POWER SUPPLY CHASSIS



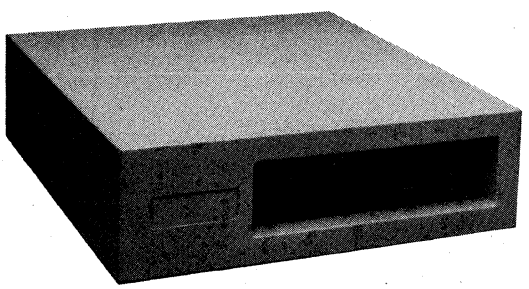
This custom power supply chassis is fabricated from cold rolled steel and perforated sheet metal, complete with formed metal guides, weld studs, self clinching fasteners, grommets, spring clips, hinges and a zinc-plated finish. The chassis is manufactured at a rate of 400 per week utilizing sophisticated numerically controlled punch presses and forming machinery plus welding, stamping, machining and plating.

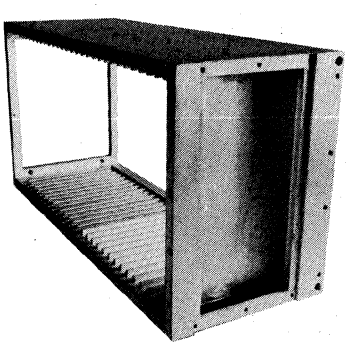
BRINGING DESIGN SOLUTIONS TO YOUR PCB SHOCK, VIBRATION AND THERMAL PROBLEMS

MIL-GRADE CARD CAGES



CUSTOM ENCLOSURES

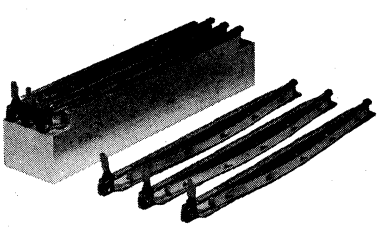




This custom milled and brazed aluminum chassis with five-piece, self-aligning Wedge-Lok™ retainers is an example of the type of Hi-Rel products produced by EG&G Birtcher.

NAVSEA LOK-TAINER®

RETAINERS



The SEM (Standard Electronic Module) Format D clamping retainer was designed by EG&G Birtcher engineers to meet stringent NAVSEA Systems specifications. The successful development produced a product now in service which meets MIL-S-901C Shock test procedures. The NAVSEA Lok-Tainer® Retainer was designed for use in a liquid cooled card drawer and provided intimate contact for heat dissipation from the module to the card drawer.

Also available is a SEM Format E Lok-Tainer® Retainer with screw actuation. These designs and others can be developed to meet your critical thermal or environmental specifications.

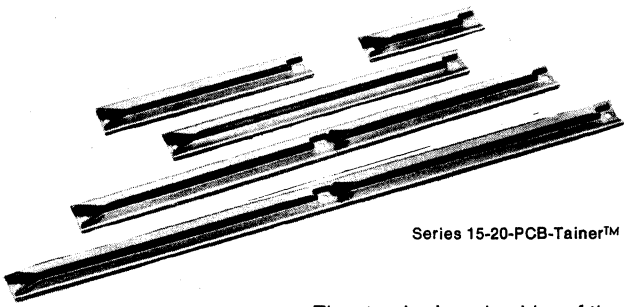
PCB-TAINER™ CARD GUIDES

Patent No. 3,186,554



Series 15-20-PCB-Tainer™

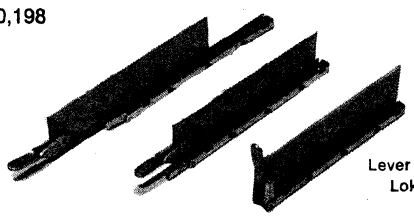
The standard card guides of the industry, EG&G Birtcher's patented PCB-Tainer™ card guides provide an economical way of securely fastening PC boards. EG&G Birtcher PCB-Tainer™ card guides come in standard or made-to-spec versions. They are made of cold rolled steel or beryllium copper for rivet, weld or adhesive bonding installation. They provide heat dissipation, electrical grounding, retention in shock and vibration applications.

SERIES 38 SNAP-TAINER™ CARD GUIDE

- Provides a snap in feature which saves installation time
- Requires no custom installation tools
- Made of Beryllium Copper to provide electrical grounding and retention without riveting or screws

LOK-TAINER® RETAINERS

Pat. No. 3,970,198



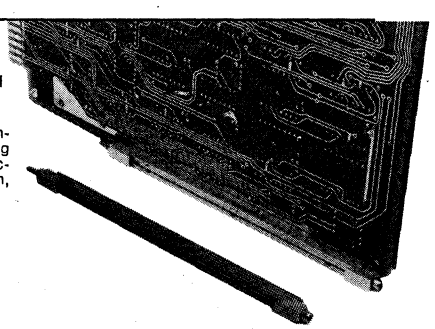
Series 24
Lever Actuated
Lok-Tainer®

Series 27
Screw Actuated Lok-Tainer®

EG&G Birtcher patented screw and lever actuated Lok-Tainer® locking retainers are designed to provide high resistance to heavy shock and vibration while maintaining maximum contact for heat dissipation.

SERIES 40 WEDGE-LOK™

Meets or exceeds the performance requirements of drawing 84103 Rev. A, Defence Electronics Supply Center, Dayton, OH 45444.

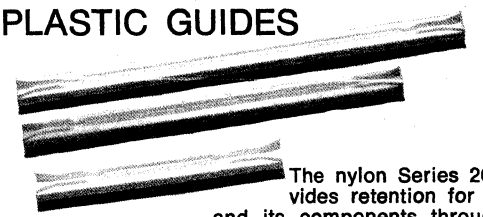


EXTRACTORS CARD HANDLES, AND INJECTOR/EXTRACTORS FOR PC BOARDS

Injectors/Extractors

Extractors provide for quick, damage free, removal of PC card. Injector/Extractors function in two different directions allowing the card to be easily inserted into the connector as well as providing quick removal.

PLASTIC GUIDES

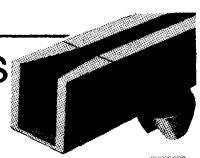


Series 26
Plastic Guides

The nylon Series 26 Guide provides retention for the PC card and its components through a unique gripping action. It is self-lubricating, non conductive with superior strength and durability.

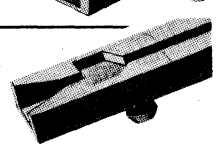
DEEP CHANNEL GUIDES

Nylon Type 6/6
For 1/16" and 1/8" P.C.B.'s



SPACE SAVER GUIDES

Nylon Type 6/6
For 1/16" P.C.B.'s



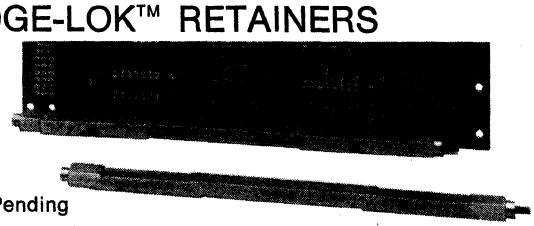
WEDGE-LOK™ LOCKING RETAINERS

For Mil-Grade performance in commercial, industrial or military applications, secure PC boards with Wedge-Lok™ locking card retainers.

SERIES 41 WEDGE-LOK™

LOW PROFILE VERSION OF 40 SERIES

SELF-ALIGNING FIVE-PIECE WEDGE-LOK™ RETAINERS



Patent Pending

EG&G Birtcher introduces the patent pending, self-aligning Wedge-Lok™ Series, 40-5 and 42-5 designed for heavy shock, vibration and heat dissipation, in cold plate/heat sinking applications. Features zero entry force for insertion and removal of PC boards. Other standard and custom styles available. Visual indicator for locked and unlocked position available as an option.

The "quality circle" approach at Electro-Space . . . a free, in-depth value analysis program . . . is the first step toward improved card rack design. Our engineering group works as a team with you to produce an enclosure that is both cost effective and production efficient.

Every card enclosure design is approached as if it were our own. Close tolerance requirements, structural integrity and cost effective design simplifications are as important to us as they are to you. After all, when you have the competitive edge, we have a solid, satisfied customer.

Your sketches, prints or sample racks are enough to start us on a design cycle geared towards saving you money without compromising quality. Whether you require 50 or 5000 units, you'll find that Electro-Space Fabricators is your best source.

The Engineers' Design Manual combines the latest technical information with answers to the most commonly asked questions on designing card racks.

For your free copy or additional information write or call Electro-Space Fabricators.

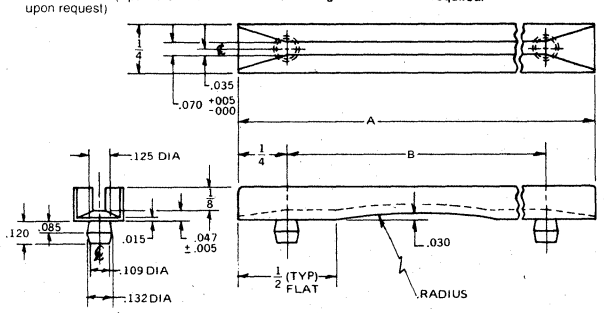
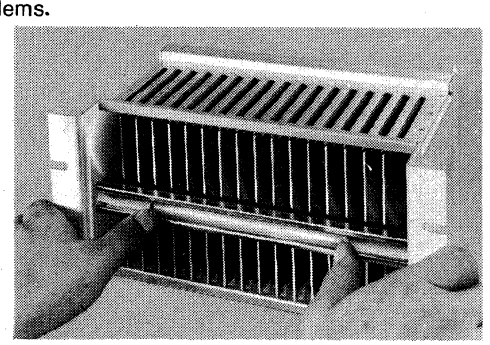
material range .048 to .080

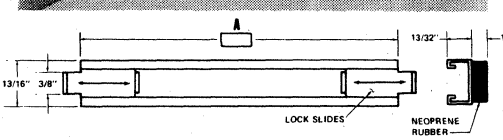
INSTALLATION:
Sharp impact, snap-in.
No special tools or hardware required.



Retaining Bars

Quick, low cost solution for PC board retention and shipping problems.





HOW TO SPECIFY AND ORDER

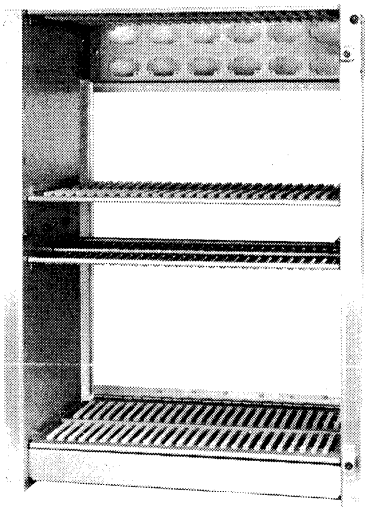
1. Deduct 1/8" from the inside dimension of your PC card enclosure. This is the "A" dimension shown above.
2. Develop part number by expressing the "A" dimension in three-place decimal form and writing it after the prefix RB-_____. (Example: A = 16-7/8". Part number is RB-16875.)
3. Use this part number in ordering. Specify clear or yellow zinc plate.

Electro-Space Fabricators, Inc.

FREE Value Analysis of Your Enclosure

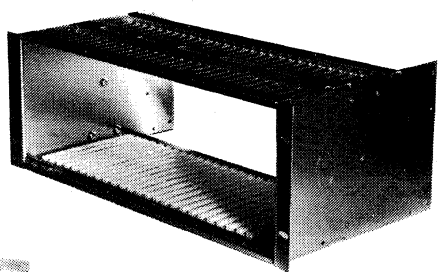
Improved card rack design begins with in-depth value analysis. And that's a free service of the ELECTRO-SPACE design group...aimed at delivering greater strength and better tolerances at lower unit cost. Our packaging techniques place no limitations on size, card spacing, special holes and hardware, connector or back plane mounting.

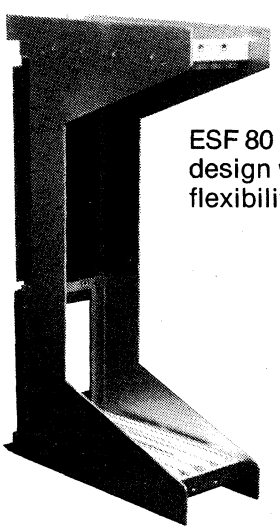
If your rack requirements are 50 or 100, 500 or 5000, why not draw upon our expertise? Our present customers have done so and enjoyed significant savings, both in unit cost and on their production lines. Send us your sketches, prints or sample rack at no obligation. Or, call and ask for one of our qualified design engineers.



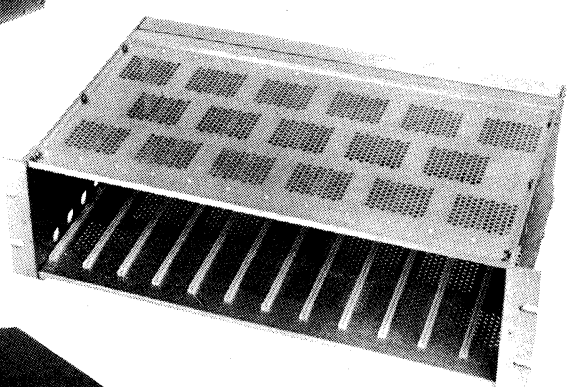
Double bay enclosure with fan mounting tray.

Stiffening hat section for greater strength.

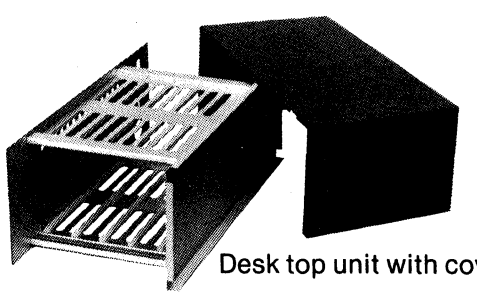




ESF 80 standard rack design with low cost flexibility.



Perforated guide plate with RF shielding.



Desk top unit with cover.

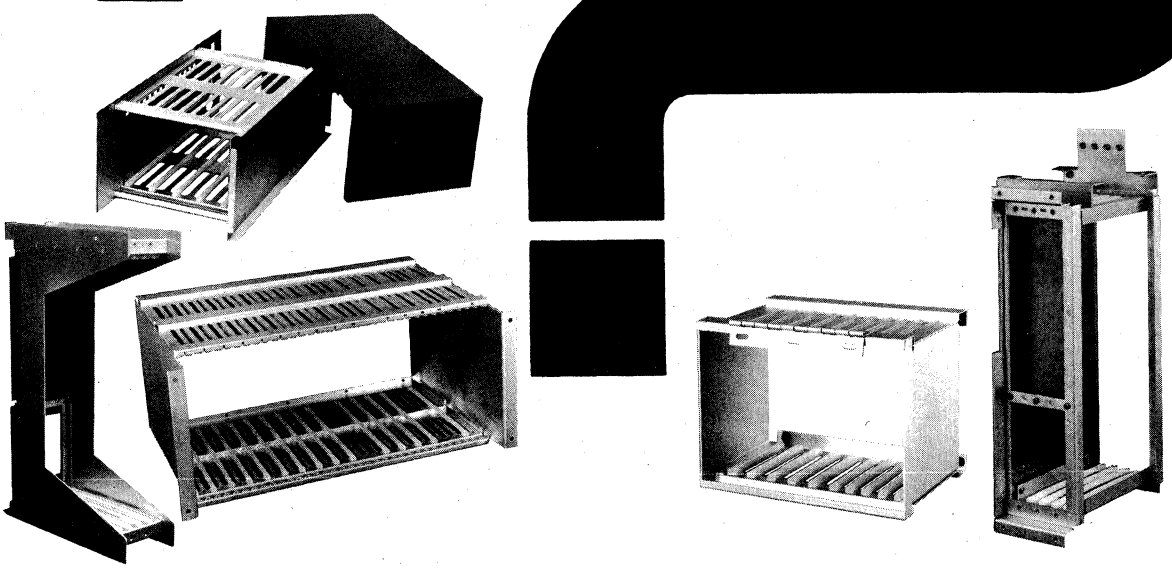
THE CARD ENCLOSURE QUIZ
Does your supplier measure up?

- ☐ FREE Value Analysis service.
- ☐ Competitive pricing for maximum cost effectiveness.
- ☐ Complete in-house manufacturing and finishing.
- ☐ Consistent high quality and on-time delivery.
- ESF ALL OF THE ABOVE



ESF, America's card enclosure specialists, has the people, products and services to best fill your card enclosure needs. Starting with our Free Value Analysis, we work with you to provide a stronger, more cost effective rack design. This team effort continues through engineering into production and testing.

Just send us a sketch, print or sample of your present card rack. Whether you need 50 or 5000, our engineers can show you the first step to improved card enclosure design at lower unit cost.

The Engineers' Design Manual is a compilation of the latest technology and most commonly asked questions concerning card enclosure design. Send for your FREE copy.

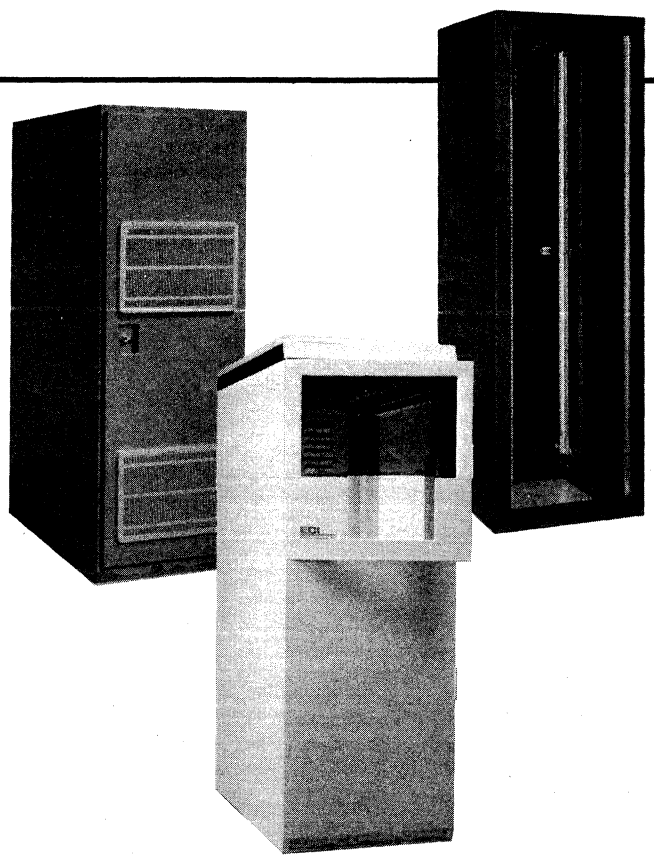
Electronic Enclosures

for cost effective standard, modified-standard and custom designs



Wyle Laboratories Electronic Enclosures builds the industry's finest cabinets for electronics at prices that don't shut the doors on budgets. Our integrated line of standard and modified-standard designs and an extensive line of accessories make it possible to meet many customer requirements "off the shelf". This includes RFI/EMI shielded enclosures built to commercial, military, and high security (TEMPEST) specifications.

Even custom cabinets from Electronic Enclosures are cost effective. A large, constantly evolving design library and an engineering staff that keeps pace with the electronics industry allows Electronic Enclosures to meet specialized requirements without "reinventing the wheel" for each new order.

Cabinets from Electronic Enclosures' line include vertical enclosures, control consoles, sloping front consoles, custom consoles, mobile carts, small bench cabinets, turrets, equipment cases, special tables, and work benches.

These are accessorized as required with casters, desks, blowers, circuit breakers, duplex outlets, plugmold strips, glass doors, drawers, mounting hardware, ID panels, shelf angles, and levelers.

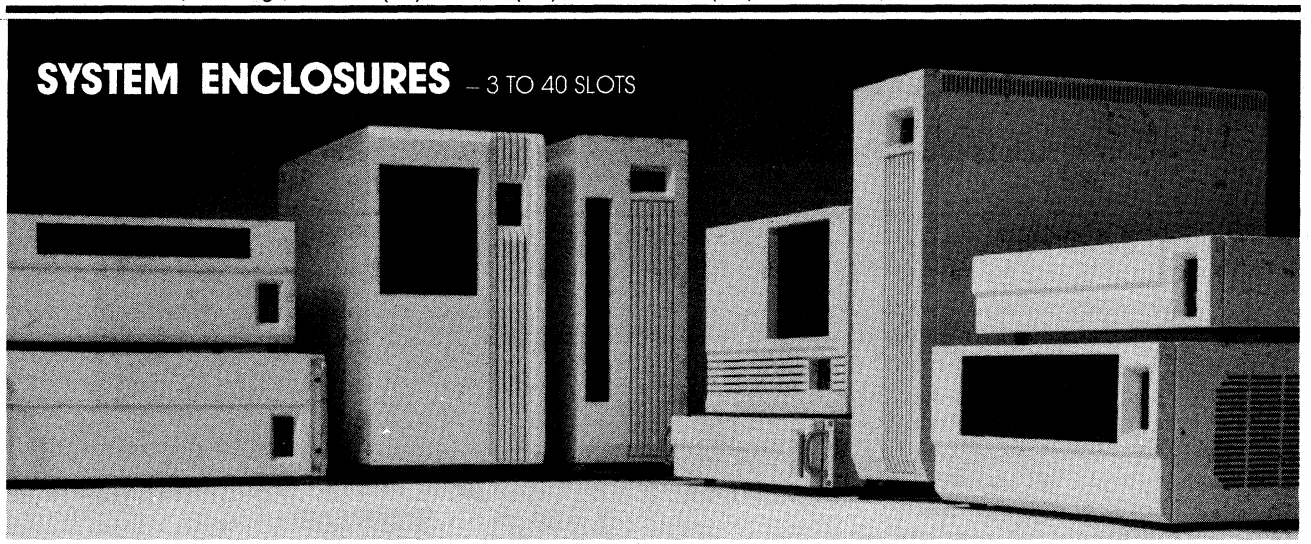
System Packaging for



Electronic Solutions jumps out in front with an entire new series of system enclosures for VME, Multibus, and Multibus II. From the compact Series 3 to the hefty Gemini for large systems, you'll find the rugged construction, precision card cage and attention to detail that has made Electronic Solutions the leader in system packaging.

Choose from tabletop, rack mount or floor-standing DeskMate™ models. Models with front, rear or top card loading. Models with space for disk drives or other peripherals.

The 12 and 32-slot models have modular mounting for up to four half-height peripherals. The 20-slot models have a choice of front or rear card mounting. The 32 and 40-slot models have two card cages, one front and one rear loading.

All have high-performance P1/J1 backplanes (with a choice of P2/J2 options) and efficient switching power supplies. And every one is designed to meet FCC EMI/RFI, UL, CSA, IEC 380 and TUV/VDE standards—to make *your* job easier.

IEC380

SERIES 3

- Tabletop or rack mount only 3½" high
- 4 slots Multibus, 3 slots VME
- Front or rear card loading
- 175 Watt switching power supply

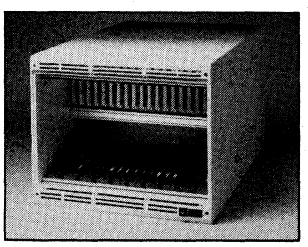
SERIES 7

- Tabletop or rack mount 7" high
  or
- DeskMate 19¾" high
- With provision for 4 half-height or 2 full-height peripherals: 7 slots VME or Multibus II, 10 slots Multibus; rear card loading
- With provision for 2 half-height peripherals: 5 slots VME or Multibus II, 7 slots Multibus; front or rear card loading
- Without peripheral mounting: 7 slots VME or Multibus II, 10 slots Multibus; front or rear card loading
- 325 Watt switching power supply

SERIES 10

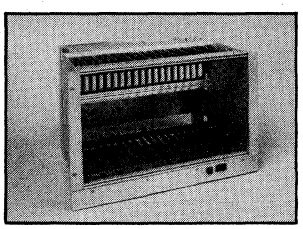
- Tabletop or rack mount 10½" high
  or
- DeskMate 19¾" high
- 12 slots VME, 15 slots Multibus; top card loading
  or
- 10 slots VME or Multibus II; rear card loading.
- Optional provision for 8 half-height or 4 full-height peripherals
- 325 or 500 Watt switching power supply

GEMINI



- Tabletop or rack mount
- 14" high (for 6U cards)
- 12, 20, 32 or 40 slots VME or Multibus II
- 400W, 600W or 800W power supplies
- Optional provision for 4 half-height or 2 full-height peripherals
- Models for 3U, 6U and 9U card heights
- Models for 100, 160, 220, 280, 340 and 400mm card depths (20 slots max for 280mm and up)

VME AND MULTIBUS II POWER CAGES

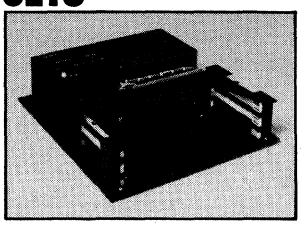


Here's the convenience of an enclosure with the easy access of a test set, in a compact, rack mount package. The power cage combines a rack mount VME or Multibus II card cage, a 400W or 600W power supply and triple fan cooling. It's fully wired and ready to go, but takes up only 3½" more rack space than the cage alone. 20 or 21 slots VME; 20 slots Multibus II. Or 12 slots plus up to 4 half-height peripherals. 3U, 6U or 9U card heights; 160mm, 220mm or 400mm card depths.

All Electronic Solutions enclosures, cards and card cages

THREE YEAR 3 LIMITED WARRANTY

BENCH TEST SETS



Get your board-level system up and running with a minimum of cost and effort. Use this fully wired combination card cage and 125 Watt power supply.

VME: TS-80x
x = 5, 7 or 9 slots
Multibus: TS-60x
x = 4, 5, 6, 8 or 9 slots

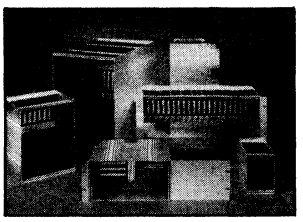
VME AND MULTIBUS II CARD CAGES - 3 to 21 SLOTS



Strong, rugged Electronic Solutions Eurocard VME and Multibus II cages are ideal for system development and OEM applications. It's easy to match OEM mounting configurations, since each card cage can be mounted on the bottom or any side. All include high-performance P1/J1 backplane and are available with a variety of P2/J2 options.

For VME, a unique center adapter can convert a double height (6U) slot into two single size (3U) slots (or a 9U slot into a 6U and a 3U), making it easy to configure systems with multiple slot sizes.

Order No. V 80 3 - D N 160 T

Backplane Type
V: VME Backplane. **M:** Multibus II Backplane.
E: EuroCage Frame Only (i.e. no Backplane).

Card Spacing (Ctr-to-Ctr)
80: 0.80" spacing.

Number of Slots
3, 5, 7, 9, 12, 16, 20, and **21.**

Card Height
S: 3U (Single High) **D:** 6U (Double High) **T:** 9U (Triple High)

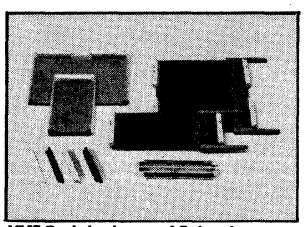
Termination Position
N: On-board terminations (for 3, 5, 7, 9, 12, 16, & 20 slot backplanes).
F: Off-board terminations (plug-on terminations like those on the 21 slot backplane).

Card Depth
100: 100mm **220:** 220mm **340:** 340mm
160: 160mm **280:** 280mm **400:** 400mm

Mounting Configuration
T: Table Top (Surface mount).
H: Horizontal Rackmount.
V: Vertical Rackmount.

• Fans and fan mounting brackets are available for all Electronic Solutions card cages

VME & MULTIBUS PROTOTYPING AND EXTENDER CARDS



VME Prototyping and Extender Cards

Electronic Solutions development cards have 0.1" hole spacing, I/O connectors, easy power and ground assignments with dedicated and undedicated bus strips.

VME:

VME-68HD	Prototyping board for up to 120 16-pin DIP packages in 6U version
VME-68HS	Prototyping board for 48 packages in 3U version
VME-68ED	6U Extender Card
VME-68ES	3U Extender Card

MULTIBUS I:

PR-100H	Prototyping board for up to 150 16-pin DIP packages
PR-100A	Prototyping board with interface circuitry, plus up to 75 16-pin DIP packages
PR-100WP2	Wire wrap board for up to 75 16-pin DIP packages. Two- or Three-level wire wrap.
PR-100WP3	
80EX-3	Extender card

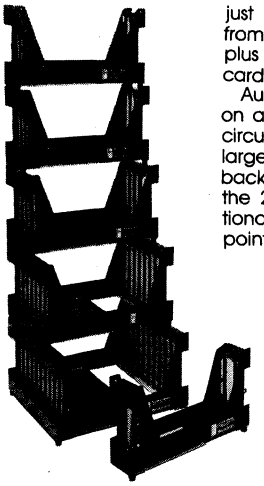
MULTI-CAGE™ CARD CAGES FOR MULTIBUS I



These rugged, durable anodized aluminum card cages are available with just the right capacity for your needs—from 3 slots to 26 slots, 0.6" or 0.75" spacing, plus accommodation for iSBX or wirewrap cards.

Auxiliary (P2) backplanes are available on all models. Parallel priority resolution circuitry (PPRC) is available on 8-slot and larger cages. All have multiple backplane power supply terminals, and the 21-slot and larger cages have an optional power distribution board for single point, high current power connections.

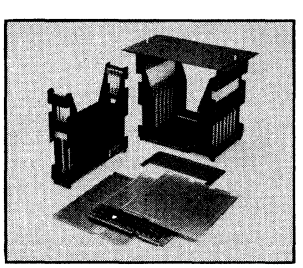
DOUBLE HEIGHT MULTIBUS I



The Electronic Solutions 2X Multibus system uses 12 × 12" cards, offering double the useful circuit area of a standard size card. Or even more than double, considering the bus interface "overhead" on each card.

All Multibus I card cages, prototyping and extender cards are available in double height versions. Add "2X" before model number.

ELMA

ELMA Electronic Inc.

Elma's Modular Electronic

A Member Of The Sulzer Group, 41440 Christy Street, Fremont, CA 94538 • (415) 656-3400

All ELMA products are available off-the-shelf and REASONABLY PRICED

General Information

ELMA enclosures are designed for ease of assembly, versatility, and durability. Their modular design offers virtually unlimited electronic packaging flexibility. Standard Eurocard (100 x 160 mm, 3.94 x 6.30 in.) and card sizes derived therefrom are easily accommodated. Compatible to VMEbus and MULTIBUS II board formats. With internal subdivisions, any card size can be used. In addition, all edge connectors currently in use can be fitted using supplementary assembly sections.

Material

Aluminum extrusions form the framework of all these **ELMA** cabinets. Front and rear panels are 2½ mm clear anodized aluminum sheets. Cover panels are either 1.5 mm colored, vinyl coated aluminum sheet (models 14, 32, 36) or 3 mm colored, vinyl coated alucobond (two sheets of aluminum separated by a polyethylene core).

Accessories and Colors

Front and rear panels are accessories on all models except 36, for which rear panels are included. Hinged and folding front panels may also be obtained in a variety of sizes for some models. Extruded front panels in various heights and widths can be used for plug-in modules. Aluminum handles are also available.

Cover panels are included on models 32 and 36. Standard colors are neutral umbra-brown, and blue (model 36). Graphite black, brilliant blue, and gray cover panels are available on special order. Perforated top and bottom panels may also be obtained.

Dimensional Units
1U = 1.75″, 1T (HP) = 0.20″

The overall height of modules, card frames and plug-in cases and the acceptance height of cabinets is based on height units (U) per DIN Standard 41494. One U equals 1¾″ or 44.45 mm. The 5.08 mm (2/10″) horizontal pitch unit T is used for the acceptance width. The 19-inch insert width (483 mm) of the 19″ floor cabinet corresponds to the overall width of 19″ modules, 19″ card frames, 19″ cases and the 19″ cabinet front panels.

Economy Card Cage, Model 11

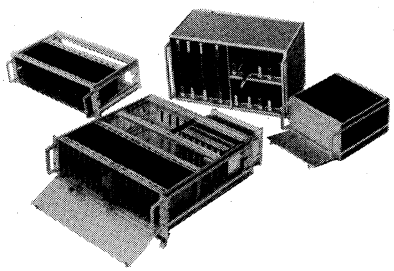
Application: The Model 11 is designed to accommodate single (3u), double (6u), and triple high (9u) Eurocards with depths of 160 mm, 220 mm, 280 mm, 340 mm and 400 mm. It can also accept card heights of 4.4″, 4.5″ and 9.65″. It is fully compatible to VMEbus, MULTIBUS II and Sun Systems.

Heights: 5.25″, 10.50″, 15.75″.

Widths installed: 8.4″, 16.8″.

Depths installed: 8.50″, 10.87″, 13.23″, 15.61″, 17.98″.

19-Inch Universal Enclosure, Model 14



Application: The extruded aluminum frame can be used as a desktop case on a subrack for mounting in to 19″ cabinets. It is possible to rack mount type 14 with cover plates.

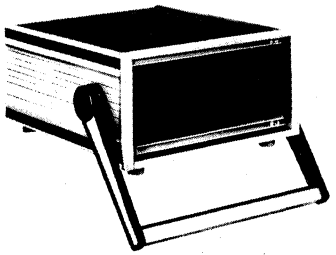
Accepts card sizes of 3u, 6u, 9u, 4.4″, 4.5″, 9.65″ and card depths of up to 400 mm.

Heights: 3.50″, 5.25″, 7.00″, 8.75″, 10.50″, 15.75″.

Widths installed: 8.4″, 12.6″, 16.2″, 16.8″.

Depths installed: 9.17″, 11.53″ 16.25″, 21″.

DIN Instrument Case, Model 36 (also panel-mount)



Features: front panel recessed by 10.5 mm (.41″).

Application: for control and regulating instruments, switches, etc. Panel mounting and tabletop case, available with angled feet; case dimensions and recess in accordance with standard governing built-in switchboard appliances (DIN standard 43 700).

Useable depths: 4.62″, 5.27″, 6.98″, 7.63″, 9.34″, 9.99″, 11.70″, 12.35″.

Heights: 2.84″, 3.78″, 5.59″.

Widths: 3.78″, 5.67″, 7.56″, 11.34″, 15.12″, 17.01″.

See section 2025 (Computers-Mini/Micro), section 2400 (Panel Hardware-Bezels, Dials, Knobs, etc.) and section 5100 (Switches) for additional ELMA products!

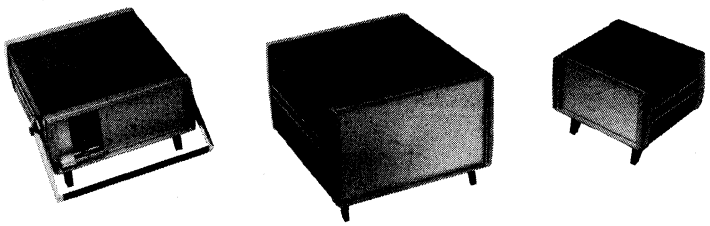
Packaging Enclosure Systems

ELMA Electronic Inc.

A Member Of The Sulzer Group, 41440 Christy Street, Fremont, CA 94538 • (415) 656-3400

All ELMA products are available off-the-shelf and REASONABLY PRICED

Desk Top Case, Model 32 Easy Assembly and Maintenance



Two sectional supports running full depth carry all inserts. These special supports permit versatile mounting with only simple assembly gear. The actual enclosure, which consists of front and rear frames and a top and base plate, has no supporting function. These parts are mounted on the mentioned supports using only four screws after the components have been inserted, wired-up and functional tests carried out. Therefore, no damage can be done to the cover plates during assembly. The cover plates are of scratch-resistant Sinaplast and are available in neutral umbra-brown. Unfinished aluminum plates for customer painting can also be furnished.

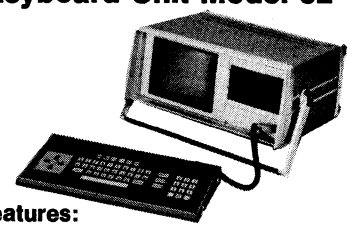
Heights: 5.25″, 10.50″, 3.50″, 7.00″.

Widths: 8.43″, 12.62″, 16.82″.

Depths: 9.02″, 12.17″, 15.31″, 18.46″.

Optional handles, front covers and component mounting chassis available.

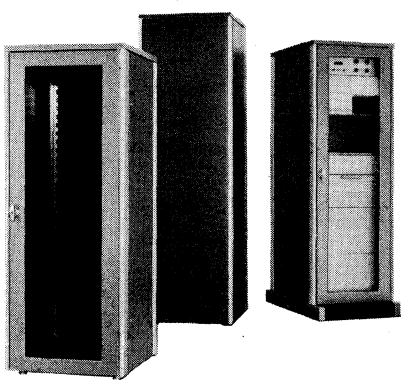
Portable Detached Keyboard Unit Model 32



Features:

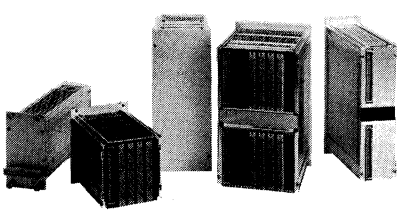
- Optimal flexibility
- Easy removal of keyboard from case
- Designed for numerous applications
- Sturdy construction for rugged field service use
- Accepts mountings per DIN 41494
- Mounting kits for 9″ CRT monitors available
- Standard or custom front panel design
- Accepts standard PC, PC-XT, PC-AT keyboards

Cabinets



Various models and colors available.
Height: 3, 4, 5, 6, 9, 10, 12, 14, 15, 20, 26, 32, 36, 39, 41, 46 U.
Acceptance Depth: 235, 289, 355, 379, 469, 470, 475, 495, 600, 670 mm.
Total Width: 505, 545, 548, 559, 600 mm.
Accessories: Telescoping rails, castors, bases, leveling feet, lifting eyes, grounding sets, slide/guide rails, coupling sets, drawers, pull-out trays, top covers with fan, slide-in fan trays, sealing kits, etc.

Cassettes and Modules Model 23



Equipment: with cover plates, bottom and cover plate perforated.

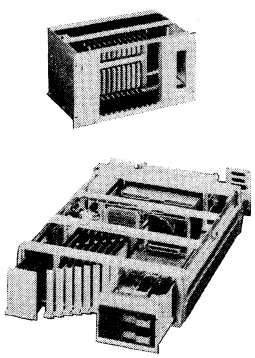
Application: to house printed circuit cards and components.

Heights: 5.25″, 10.50″.

Widths: 1.4″, 2.0″, 2.8″, 4.2″, 5.6″, 8.4″.

For card depths: 6.30″, 8.66″.

Modular VMEbus, Systems



For complete family of VMEbus and Multibus II system enclosures, card cages, and components, see computers mini/micro section.

See section 2025 (Computers-Mini/Micro), section 2400 (Panel Hardware-Bezels, Dials, Knobs, etc.) and section 5100 (Switches) for additional ELMA products!

Emcor's super six

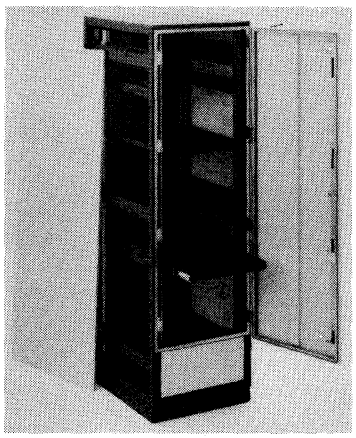
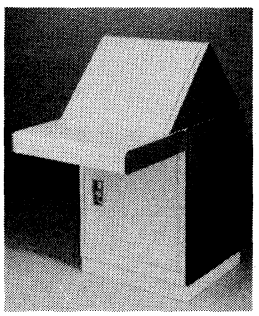
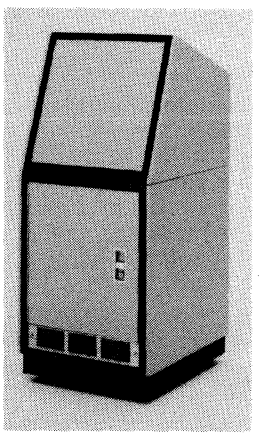
10 SERIES



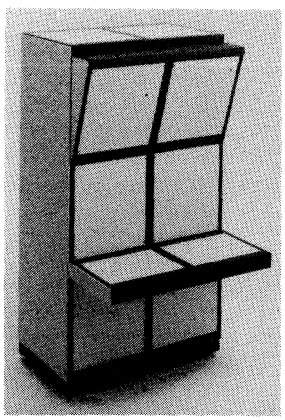
EMI/RFI ENCLOSURES



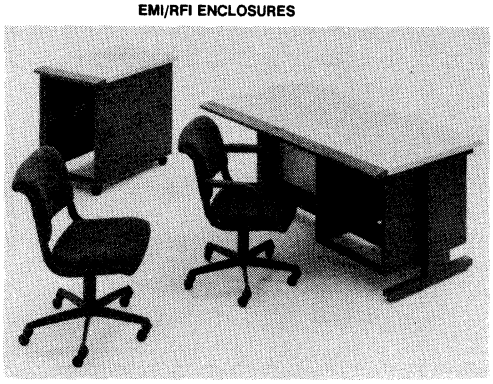
EMCOR I



EMCOR II



EMCOR ESQ



COMPUDESK

Emcor I

Emcor's original concept and broadest product line is available in vertical, slope front, low silhouette, desk height and turret configurations.

Emcor II

This top-of-the-line series features seamless construction and handsome, contemporary styling.

Emcor ESQ

Designed to combine the economy of Emcor I with the styling of Emcor II. This is currently Emcor's most popular product line.

10 Series

Emcor's newest and most rigid product line — available in vertical, desk height and slope front configurations with a full complement of accessories.

EMI/RFI Enclosures

Emcor offers two levels of standard catalog EMI/RFI shielded enclosures: one to meet FCC requirements and another to meet levels of attenuation required by the military. Both product lines have been tested to MIL STD 285.

Compudesk

Emcor's computer support furniture is available in two heights, two depths, four widths and in three different top styles. More than 500 models available.

And when you need it fast, there's Instant Emcor

775 items — available for shipment in just five working days, with option of color on selected items in ten working days.

ECS electronic enclosures... Transportable protection for all 19 inch rack mounted equipment. Originally patented by ECS in 1965 (US Pat. 3,482,895). Now in the third generation of improved design and performance. After thousands of successful installations, this is the recognized, international leader.

ECS enclosures are available in 185 pre-engineered sizes. Rack heights from 5.25 inch (3U) up to 47.25 inch (27U). Standard rack depths from 8.63 inch to 24.00 inch. Ultra-compact exterior dimensions from 20.06W × 14.27D × 7.62H inches. All are available as Non Development Items (NDI) and can be specified by part number from the ECS catalog.

Options can be mixed and matched to meet the unique design requirements of any application... special sizes, unusual colors, clever hardware devices, EMI/RFI shielding, casters, fans, AC power receptacles... and much more. All specified by part number.

Creative utilization of thermoset and thermoplastic composites achieves maximum strength and minimum weight. Materials are corrosion proof, and resistant to contaminants, salt, humidity, fungi, solvents and fuels. Operating temperature range exceeds −65 F to +160 F. Exterior handles and latches are recessed. The Enclosure Selection Guide will quickly tailor the shock/vibration isolator system for ideal protection of individual electronic devices.

Consistently superb quality for military and non-military enclosures. Certification and testing available for all appropriate US Mil Specs including MIL-STD-108, MIL-T-28800, and MIL-C-4150. Quality assurance system per MIL-I-45208. Test procedures meeting FED-STD-101 and MIL-STD-810.

ECS Composites manufactures comprehensive families of enclosures, transit cases, EMI/RFI shielded products, conductive thermoplastic moldings, Thermo-Stamped Composite (TSC) moldings, and proprietary end-user products.

Gemini's standard line of **HEAVY DUTY TRANSIT CASES** are constructed from high density polyethylene, and extremely tough and resilient material ideally suited to the abuses transit cases are subjected to. The heavy wall (.100" nominal) shells and heavy duty 1.838" wide #6063 T52 aluminum valance combine to form a container capable of transporting delicate portable instruments under the most adverse conditions. Available with recessed wheels and folding handle.

Gemini's standard line of **HEAVY DUTY CARRYING CASES** are constructed from rugged A.B.S. and feature a heavy wall aluminum valance to provide an extremely rugged case with contemporary lines for transporting delicate portable instruments under the most demanding conditions.

Standard Features Include:

- .100" to .150" nominal wall black A.B.S. shells
- variable case depth
- heavy wall 1.838" wide #6063 T52 aluminum valance with dust seal
- choice of handle, latch, hinge and bumpers

Gemini specializes in custom designed cases for industry. We have the capability to design a case specifically for your product and follow through from prototypes to production. If you are currently purchasing a standard case from another manufacturer, we may be able to duplicate that case at a lower cost. We welcome the opportunity to quote on your case requirements and to work with you on design.

The above sizes are only a partial list, contact GEMINI for a complete catalog.

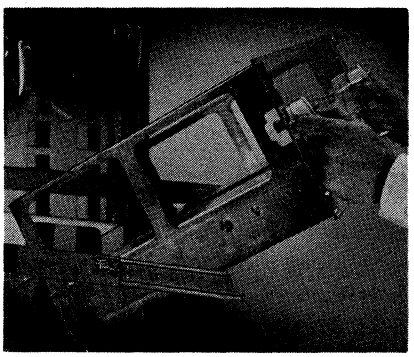
CHASSIS TRAK® Telescoping Slides

Enclosure slides for even the most unusual applications!

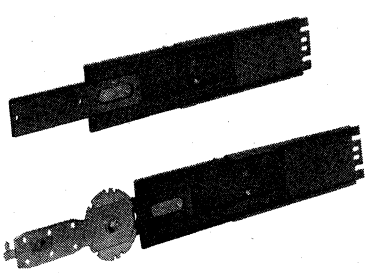
Rugged • Dependable • Economical



Chassis Trak solid bearing slides are exceptionally compact, durable and economical slides for commercial and military application. Permanently lubricated with Poxylube® molybdenum disulfide dry film lubricant to provide smooth sliding action. Chassis Trak solid bearing slides offer a high degree of immunity to shock and vibration and all slides offer lock-out and quick-disconnect as standard features.

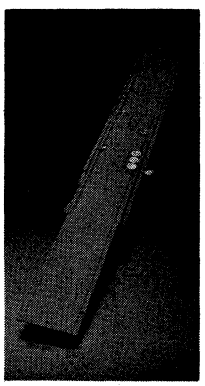
Series	Load Capacity lbs./pr.	Lengths
C300	85	10″ to 24″
C230	125	12″ to 24″
D-600	125	10″ to 24″
CT	175	10″ to 24″
CTR	175	10″ to 24″
CTH	275	14″ to 24″
CTHR	275	14″ to 24″

All solid bearing slides available in 2 inch increments affording complete installation versatility.



Pencil-thin design permits installation of standard 17″ chassis in standard 19″ panel racks. All solid bearing slides are cold-rolled steel except Model D-600 which is lightweight, hard coated aluminum.

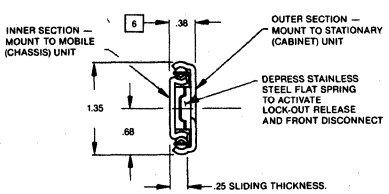
CC6400 Roller Bearing Slides



The CC-6400 bearing slide is designed with rollers that reduce drag and pull force and facilitate easy movement.

Features

- 175 lbs. weight capacity with only .38 clearance required.
- Quick disconnect with safety stop feature eliminates chassis from being inadvertently pulled out. The release must be activated for mechanism to disconnect.
- Automatic release option available.



CLB-203 Slides

Ball Bearing Disconnect Slides

The CLB-203 electronic slide is available with custom hole patterns for changing office environments. The disconnect feature makes it easy to install and maintain. Plus, the chassis and slide close very quietly.

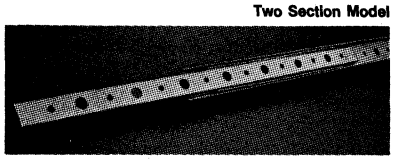
Standard Lengths Available: 10 to 30 inches in one inch increments.

- Symmetrical slide assemblies used as right or left hand.
- Quick disconnect to ease cabinet mounting and service.
- Friction hold-in feature.
- Rubber bumper to quiet final movement.
- Lock-out feature at full extension.
- Industry standard mounting holes.
- Zinc and clear chromate finish.

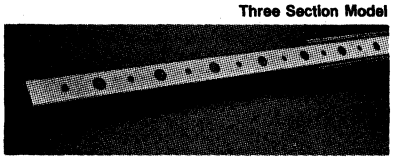
Linear Ball Bearing Slides

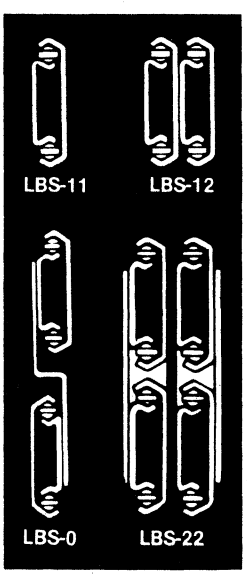
Designed for especially smooth travel and extra long life under maximum loads, these slides are made of cold-rolled steel raceways and operate on precision carbon steel ball bearings. Available in several models and lengths, with optional cabinet mount and/or lock out. Applicable to low cost commercial and tough military applications. Easy mounting system is calibrated for installation at 2 inch intervals.

LBS-11
Two Section Model



LBS-12
Three Section Model



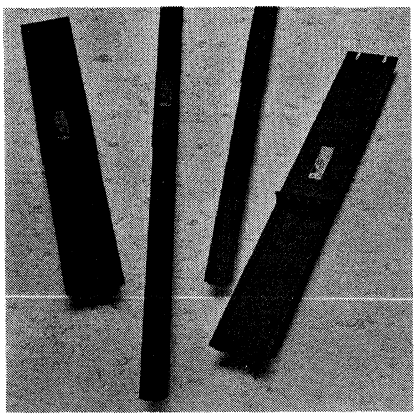


Series	Load Capacity lbs./pr.	Lengths
LBS-11	100	10″ to 40″
LBS-12	250	10″ to 40″
LBS-0	150	10″ to 30″
LBS-22	400	10″ to 30″

CHASSIS TRAK® Telescoping Slides

- *Rugged*
- *Dependable*
- *Economical*

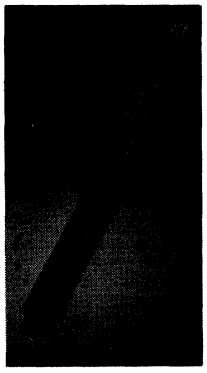
GENERAL DEVICES
Electronic Hardware Manufacturers



Two-Section Slides

These slides are thinner than normal slides. Sturdy construction allows these two section slides to be only .340 of an inch thick to provide additional chassis space. They are supplied as *direct mount* solid bearing slides but can be obtained with a return flange for standard mounting. Also designed to be easily disconnected. Mounting hardware is included.

CC3700 "Thin-Trak"



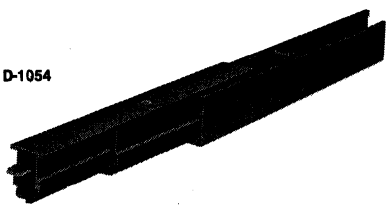
This two section slide series offers slides that are ultra thin and just as sturdy as standard units allowing for a much wider chassis application. Still designed as a "solid bearing" slide, the sliding section of this unit is only .188 of an inch thick.

Features

- Ultra thin sliding thickness - (.188″).
- 85 lb. capacity (per pr.).
- Can be furnished for direct flat-mount requirements (mount directly to side of cabinet - flanges, front and rear *not* required).
- Parts interchangeable - (No LH or RH).
- Other combinations of length and travel available on request.

Quick Disconnect - Chassis is easily removed by depressing both stop latches and pulling the chassis forward.

D-1054



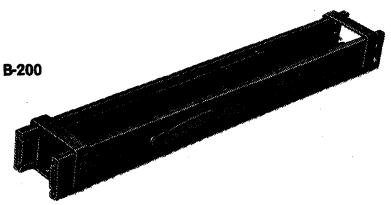
Bottom Mount Slides

Five different models offer load-carrying capacities from 150 lbs./pr to 1,500 lbs./pr. These slides are made from cold-rolled steel, cadmium plated and irridite dipped, and are available with solid-bearing surfaces or roller bearing, depending on the model. Slides feature smooth operation, dependability and long life for heavy-duty applications. Close tolerance rollers minimize pulling force required for extension and provide vertical alignment, while ball bearings carry any horizontal thrust.

Series	Load Cap. lbs./pr.	Lengths
B-200 (solid)	50	10″ to 24″
C-938 (roller)	400	12″ to 48″
D-1065 (roller)	600	12″ to 24″
D-1050 (roller)	1000	22″ to 48″
D-1054 (roller) (same as D-1050 except includes lock-in and lock out)	1000	22″ to 48″

(other lengths available upon request)

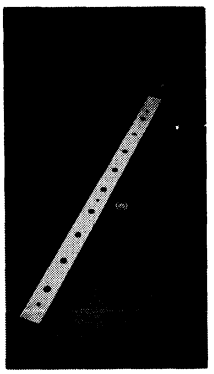
B-200



Top/Bottom Mount Slides

Telescoping, formed sections, bearing on a film of Poxylube® , a molybdenum disulfide dry film lubricant, makes this low-cost slide desirable for many light-weight applications.

CC4500 Hybrid Slide



This new design is a combination Linear Ball Bearing and Solid Bearing Slide, which combines ease of movement with economy and dependability.

This slide is 1/2″ thick and at full extension can carry up to 125 lbs. per pair.

Features include 16 in. through 30 in. lengths, disconnect, and safety stop feature at front.

Series	Load Cap. lbs./pr.	Lengths
CC4500	125	16″ to 30″

Options: • Strap mount
• Lock-out
• Automatic release

General Devices Offers:

Experience - Leader in Chassis Slides for commercial and military applications for over 30 years.

Low Cost - Advanced production techniques enable us to offer quality at a competitive price.

Stock - Commonly used models are stocked for off-the-shelf immediate delivery.

Specials - Engineers are ready to handle your special engineering requirements.

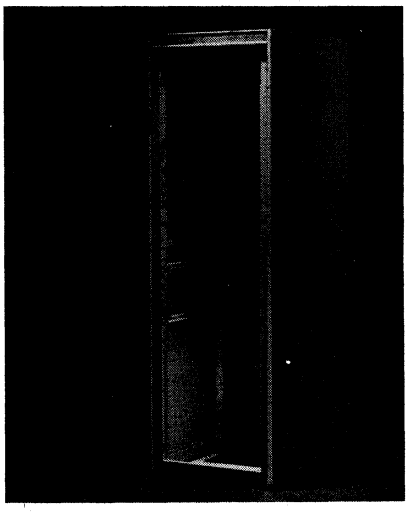
VENT RAK® Cabinets & Enclosures

Electronic Cabinets
both beautiful and functional

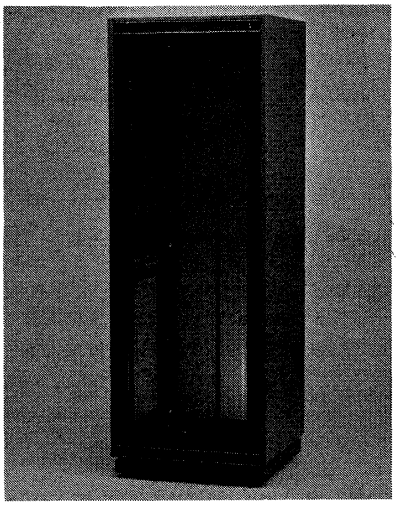


Light Duty 9500 Series

Series 9500 is constructed from standard pre-engineered parts featuring welded all steel construction.

Standard Features

- Frame is 14 gauge CRS.
- Lift-off removable 18 gauge CRS side panels.
- Hinged and removable flush 18 gauge rear door and key lock.
- Adjustable rear mounting angles punched and tapped #10-32 per EIA Standard RS-310.
- Front corner posts have .270 inch dia punched clearance holes in EIA Standard RS-310 pattern. Forty #10-32 clip nuts are furnished with each frame.
- Adjustable levelers.
- Available panel openings 35.06 inches through 70.06 inches in 1.75 inch increments.
- Available frame depths from 24.0 to 30.0 inches in 2.00 inch increments.
- Panel width 19.13 inches with 17.91 inches clear opening.
- Overall cabinet width is 24 inches.
- Overall cabinet height is 5.00 inches greater than the vertical panel opening.
- Aluminum extrusion horizontal trim and woodgrain insert.
- Ideal for EMI applications.

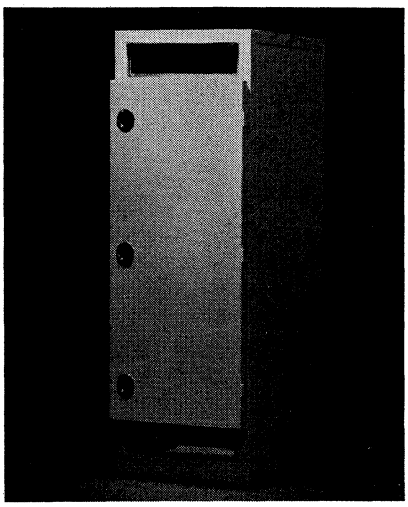


Medium/Heavy Duty 6200 Series

The Series 6200 line is designed and built to pass some of the most stringent commercial applications.

Standard Features

- Frame is 12 gauge CRS, Tig welded.
- Two 18 gauge CRS lift-off side panels.
- Surface mounted hinged 16 gauge CRS rear door with magnetic latch and aluminum extrusion pull.
- Removable 12 gauge CRS top cover.
- Available vertical panel openings 35.06 through 77.06 inches in 1.75 inch increments.
- Available frame depths from 24.00 inches to 30.00 inches in 2.00 inch increments.
- Four 12 gauge CRS mounting angles punched and tapped #10-32 per EIA Standard RS-310. Mounted on UNISTRUTS for infinite adjustment.
- Extruded aluminum front horizontal trim.
- Four levelers.
- Panel width 19.13 inches with 17.91 inches clear opening.



Heavy/Seismic Duty 7700 Series

The Series 7700 are standard cabinets pre-engineered with custom quality for special applications. This line is designed to conform with military specifications.

Standard Features

- EMI, EMP, RFI shielding capability.
- Frame 10 gauge CRS.
- Reinforced corner posts with 10 gauge CRS liners.
- Removable 16 gauge CRS side panels.
- Removable and flush mounted 16 gauge CRS rear door with multiple latches.
- Removable 12 gauge CRS bottom cover.
- Adjustable 10 gauge CRS rear mounting angles punched .27 inch diameter holes in RS-310 pattern.
- Front corner posts are punched and tapped #10-32 per EIA RS-310.
- Available in vertical panel openings from 35.13 inches through 84.13 inches in 1.75 inch increments.
- Available panel widths of 19.13 inches and 24.13 inches.
- Available frame widths with 19.13 inch panel width are 23.13 inches and 21.13 inches.
- Available frame width with 24.13 inch panel width are 28.13 inches and 26.13 inches.
- Available frame depths from 20.00 inches through 36.00 inches.

VENT RAK® Cabinets & Enclosures

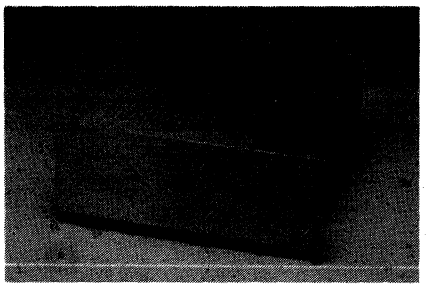
- *Hardware & Accessories*

GENERAL DEVICES
Electronic Hardware Manufacturers



Modular Chassis

- Finish is etch and clear chromate conversion per MIL-C-5541C.
- Mounting slots are located per EIA Standard RS-310-C.
- Standard 17 inch width for a 19 inch front panel width.
- Chassis plate is .090 aluminum, standard one piece or optional modular chassis sub-plates.
- Chassis sides .060 aluminum, available in four standard depths 8.50, 12.75, 17.00 and 21.25 inches. Chassis sides are .50 inch less the front panel height and are available in heights 1.75 inch through 14 inch in 1.75 inch increments.
- Top and bottom covers are perforated .060 aluminum.

Standard Chassis consists of:

A. Front Panel

B. Chassis Sides (Pair)

C. Chassis Plate (One piece)

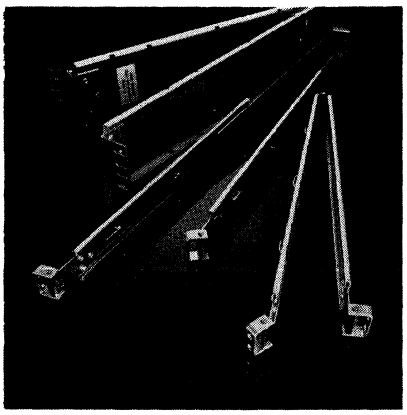
D. Rear Support Panel

Standard chassis are shipped unassembled with all required mounting hardware.

Standard options available on Vent Rak chassis include:

- Special cut outs
- Painted front panels
- Lettered front panels
- Assembled chassis
- Hardware mounting holes
- Perforated top cover
- Handles
- Chassis Trak slides

The Vent Rak facilities permit the fabrication of made-to-order chassis and our engineers welcome your inquiries.



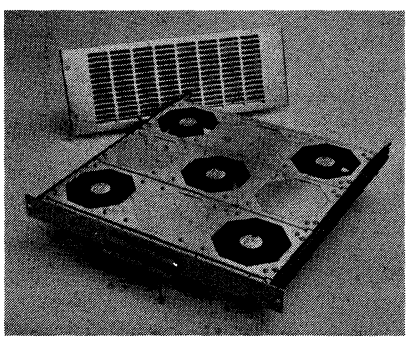
Cable Carriers

The D-329, C-990 and C-4555 will extend proportionately with cable movement and prevent sagging cable hazards that might damage the equipment housed and the lower chassis. The D-329 and C-990 with quick disconnects were designed for round cable. The C-4555 was designed to handle ribbon cable.

C-4555 Ribbon cable carrier

C-990 Quick disconnect cable carrier

D-329 Quick disconnect cable carrier

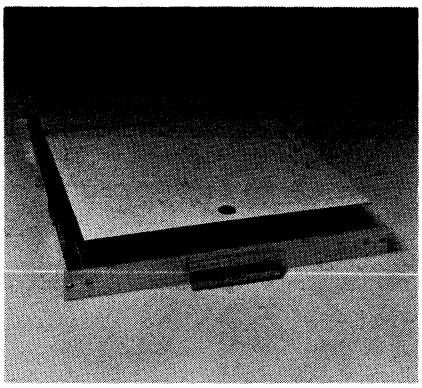


Cooling Modules

D-4118 cooling modules, the arrangeable cooling module enables you to choose the fan pattern that will best cool your equipment.

D-4119 cooling module provides air movement rated at 250 CFM and occupies 7 inches of vertical panel space.

Both cooling modules are fuse protected and supplied with easily replaceable fans; filters are optional on the D-4118 and standard on the D-4119.



D-4080 Retractable Writing Shelf

This readily accessable writing surface mounts directly to any standard 19.00 inch cabinet per RETMA/EIA universal or MIL-STD-189. Completely assembled unit requires 1.75 inches of vertical front panel space.

Features

- Writing surface covered with off-white laminate.
- Maximum extension of 20.88 inches.
- Quick disconnect slides for easy removal.
- Lock out slides that will hold up to 85 pound load.
- Adjustable rear mounting brackets to mount in cabinets 20 to 30 inches in depth.
- Finger tip desk top lid.
- Clear anodize aluminum handle.
- Zinc plate 1.5 inch body.

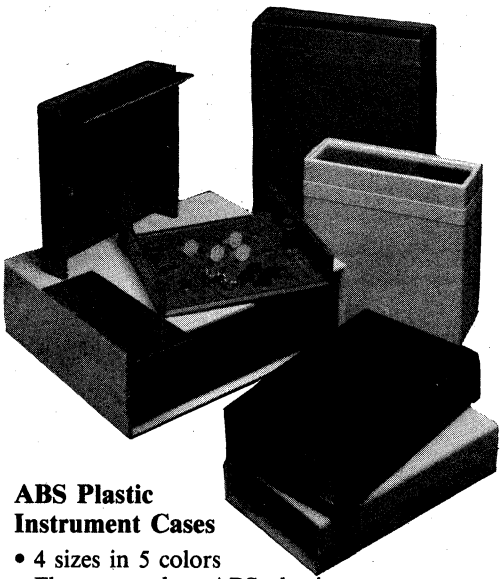
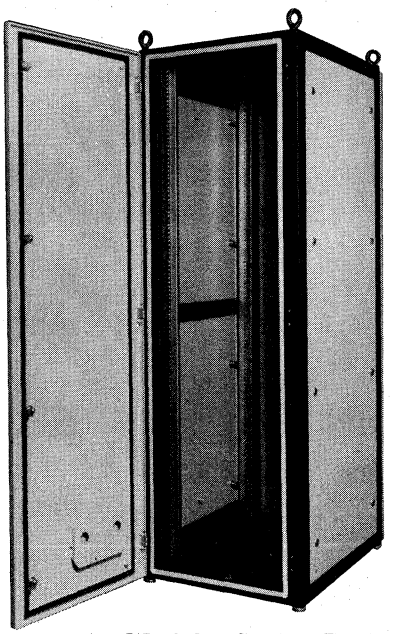
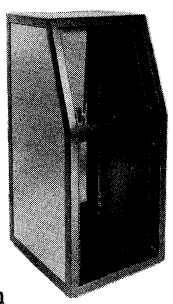
The Hammond Alternative For Small Cases and Rack Packaging



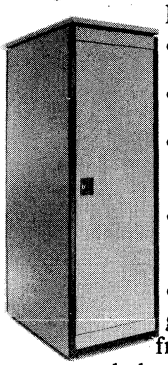
ABS Plastic Instrument Cases
- 4 sizes in 5 colors
- Flame retardant ABS plastic
- Integral P.C. mounting slots
- Two piece construction

NEMA 12 and NEMA 12 EMI/RFI Shielded Racks
- Oil and dust tight racks built to NEMA specifications
- 19″ or 24″ panel widths available in 9 heights (21″ to 77″ panel height)
- Two depths 24.5″ and 31.5″
- Cabinets are Gulf Blue or Sand with textured black frame
- A wide range of accessories are available



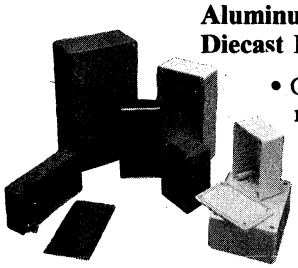


Console Racks
- 19″ or 24″ rack mount panel width
- 49″ overall height
- 24.5″ or 31.5″ deep
- Available in a wide range of colors
- Accessories include rack mount desks, front and rear doors and a wide range of universal accessories



Modular System Racks
- 12 heights 21″ to 84″
- 19″ or 24″ panel widths
- 3 depths 17.5″, 24.5″ and 31.5″
- Available in a wide range of colors
- Accessories include ganging kits, wedge kits, front and rear doors, rack mount desks, tops, gang tops and a wide range of universal accessories

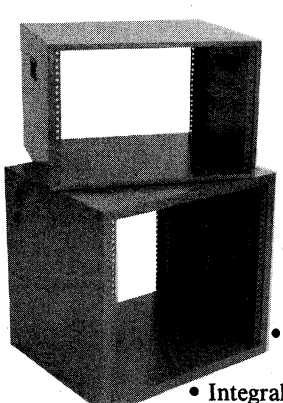
Plastic and Aluminum Diecast Boxes



- Over 50 models to choose from
  - ABS plastic cases
  - Aluminum diecast cases
- ABS Plastic consoles
- EMI/RFI shielded plastic or metal cases
- Water tight metal cases
- Available in a wide variety of colors and finishes
- Custom punching and screening

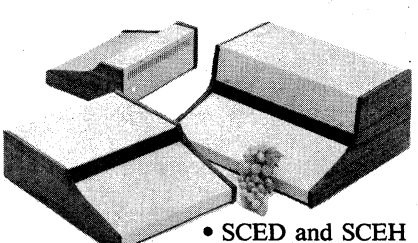
Knockdown Economy Racks
- 4 piece construction
- 8 heights in two depths
- Accept most universal 19″ accessories
- Available in a wide range of colors

Heavy Duty Racks
- 19″ or 24″ panel widths
- 5 heights 49″ to 85″
- 3 depths 17.5″, 24.5″ or 31.5″
- Available in a wide range of colors
- Accessories include rack mount desks, ganging kits, variety of doors and side panels and a full range of universal accessories



19″ Panel Mount Rack Cases
- Panel heights 3.25″ to 28.0″
- Depths 13.5″ and 17.5″
- Available in a wide range of colors
- Many Universal 19″ Accessories
- Integral front and rear panel rails use 10-32 clipnuts for panel mounting

Desktop Cases and Consoles
- Hundreds of models in a wide range of colors and materials



- SCED and SCEH consoles shown here feature real walnut wood sides

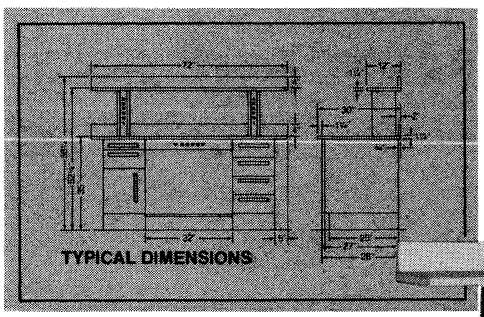
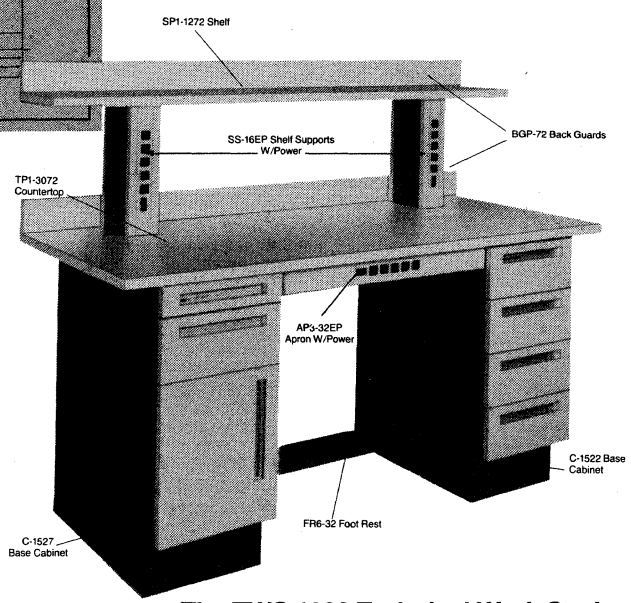
TWS-1000

...a new benchmark in engineering productivity





- **15 grounded outlets in 3 convenient locations**
- **Magnetic combination switches incorporating circuit breakers and pilot lights**
- **Easy-glide roller bearing drawers with recessed pulls**
- **Spacious equipment cabinet with recessed handle**
- **Choice of best quality work-surface materials, including anti-static, maple, and Tec-stone**
- **Highest-quality welded all-steel component construction**
- **Choice of attractive and durable textured finish colors**
- **Cabinet knock-outs and guides for internal wiring**

The TWS-1000 Technical Work Station is one of hundreds available – from a single station to a complete lab system – offering you a quantum improvement in engineering productivity through increased efficiency, unsurpassed quality, and a better working environment. For a FREE 20-page catalog, write to the address below, or call TOLL-FREE:

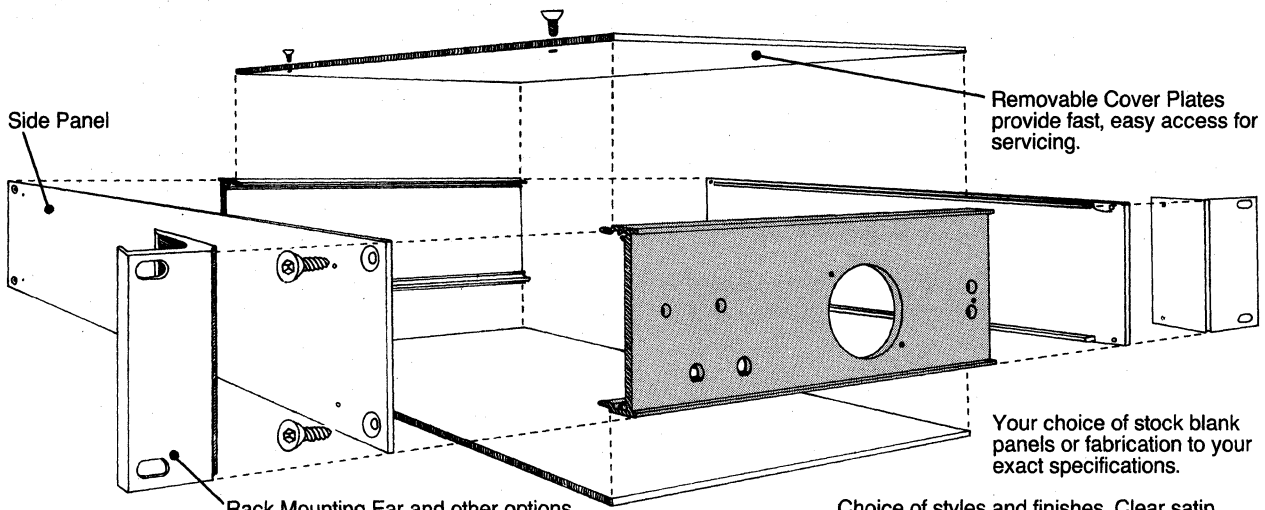
LANSING Electronic Instrument Enclosures

GrayBox™ Enclosures



Ready for use. Custom tailored. Economically priced.

Lansing electronic instrument enclosures look, feel, and perform like they were designed for your product alone — without the high cost and lead time of custom fabrication.

Our engineered system of aluminum extrusions and metal covers makes Lansing enclosures well suited for use in both prototype and production quantities. Printed circuit boards can be mounted in a variety of ways. Lansing enclosures are designed as submultiples of standard rack width and height, and work effectively for both stand-alone and rack-mount instruments.

Each complete enclosure contains as few as six parts plus hardware. Knocked down units occupy minimum storage space and assemble quickly and efficiently.

Most importantly of all, we work with you to ensure that your enclosure meets your product or instrumentation needs precisely. Then we get your enclosures to you *fast*.

Call our toll-free number or write today and find out how to put your product in a custom quality enclosure at an economical price.

INSTANT OPTIMA will in just 3 days.

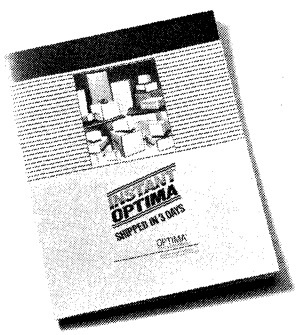
8 Good Reasons to Choose Instant Optima.

New No-Premium Policy
Instant Optima will ship your enclosures at our low regular pricing (previously reserved for 'build-to-order' product.)

Shipped in 3 days
For your prototype or short run needs, we're ready to ship 3 days after receipt of order. We're the fastest of the fast!

New Wider Selection
You can get more styles and sizes than ever. Including EMI/RFI shielded cabinets, Optima MPS (Modular Packaging System) and the new Optima Electronic Desk System.

Huge Inventory
With our large warehouse and automated inventory system, we track hundreds of styles, sizes and configurations 24 hours a day. And that means more 'in-stocks' than ever.



Get your Optima catalog today!
For more information and a complete catalog, call Optima customer service at (404) 496-4000 or write to the address below.

The Most Popular Colors
Optima offers 11 standard colors and a proven custom color capability. **Instant Optima** lets you choose from 3 popular color combinations.

Pre-assembled, Boxed and Ready
Instant Optima delivers your enclosures ready for your electronics.

Same High Quality and Smart Design
Optima is ranked as one of the top quality-enclosure makers. With responsive customer service and engineering support. **Instant Optima** simply does it faster.

The Optima Product Quality and Design Guarantee
We promise to maintain and improve the quality and design of all our products without exception, thus assuring constant availability of the most up-to-date product versions.

OPTIMA VERTICAL CABINETS

Optima offers two styles of vertical cabinets for 19" systems, the "NA Series" and the "NC Series". They differ only in appearance, with each providing superior strength-to-weight ratios along with a clean, professional look.

Vertical Cabinet features:

- Available in 48 sizes:
  Heights: 21, 28, 35, 42, 52, 61, 70, 77"
  Widths: 19, 24"
  Depths: 24, 30, 36"
- Basic frame features front and rear bezels of aluminum extrusions, joined by corner members.
- Side panels independent of the framework for ease of assembly and service.
- Extra strength framework withstands static loads in excess of 6,600 lbs.
- Steel bases with caster brackets and leveler provision.
- Acrylic latex textured finish.
- Superior paint adhesion through phosphate pre-treating.
- For more details and information re: standard colors, a broad selection of accessories and our INSTANT OPTIMA 3-day ship program call or send for FREE catalog.

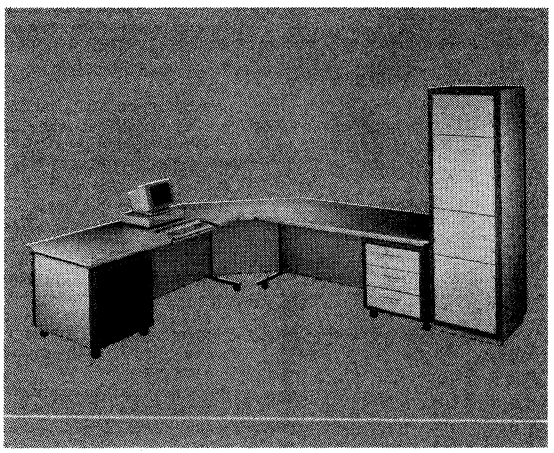
NEW OPTIMA ELECTRONIC DESK SYSTEM

OPTIMA Enclosures

Presenting Optima's new line of contemporary desk designs. Made to compliment today's office environments, and provide an integrated look to even the largest system.

Standard features include:

- Available in 3 sizes: Height: 28" Widths: 28, 50, 72" Depth: 32"
- Keyboard desktop version available; fits most standard keyboard sizes in recessed area.
- Optional operational pedestal; easily removed back panels provide quick access to electronic equipment mounting rails.
- Easy to move; uses attractive, heavy-duty, locking casters.
- Optima desks are available separately with a wide variety of accessories (multiple configurations also available).
- EMI/RFI shielded desks also available.
- For more details and information re: standard colors, a broad selection of accessories and our INSTANT OPTIMA 3-day ship program call or send for FREE catalog.



EMI/RFI SHIELDED CABINETS

OPTIMA Enclosures

Standard features include:

- Available in 48 sizes:
  Heights: 21, 28, 35, 42, 52, 61, 70, 77"
  Widths: 19, 24" Depths: 24, 30, 36"
- Beryllium copper gasketing for all seams and joints to insure continuous conductive path at panel/framework interfaces.
- Paint-free, electrical contact areas provided with clear chemical chromate conversion coating.
- Extra strength framework withstands static loads in excess of 6,600 lbs.
- Easy to remove (from inside) top, bottom and side panels of .062" aluminum alloy.
- Heavy gauge (.090") aluminum doors, front and rear.
- Tough, 3-point door latch mechanism for tighter, uniform fit, with easy handle operation.
- Adjustable panel mounting brackets.
- For more details and information re: standard colors, a broad selection of accessories and our INSTANT OPTIMA 3-day ship program call or send for FREE catalog.
- Shielded case also available – See Optima 19.

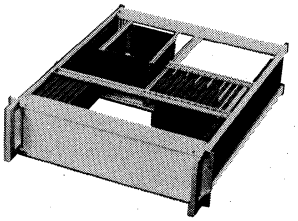
OPTIMA CASES

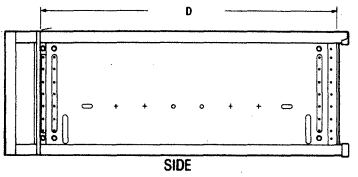
OPTIMA Enclosures

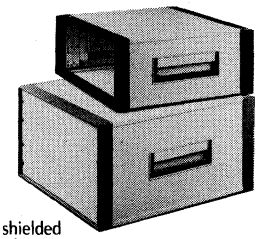


Rack Adaptable Kit

Optima Instrumate

- Available in 15 sizes:
  Panel Heights: 3.31", 5.06", 6.81", 8.56", 10.31".
  Width: 17" Depths: 16, 21, 23"
- Single solution to multiple application packaging.
- Use it as a chassis or a card cage, or both.
- Can be used as desk-top or rack-mounted unit.
- Each frame member has mounting holes for insertion of optional metalwork, card guides and card cages.
- Extra strength to accommodate 100 lbs. for components and subassemblies.
- Panel dividers and front panels available.
- Load from top, front or rear.
- Meets IEC/EIA standards.

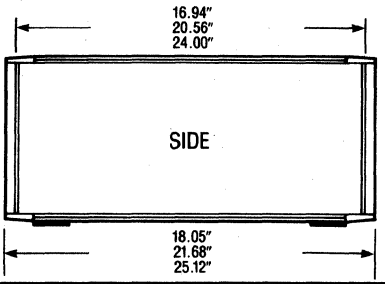


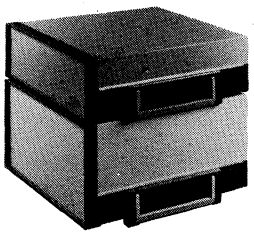


EMI/RFI shielded versions also available.

Optima 19" Instrument Cases

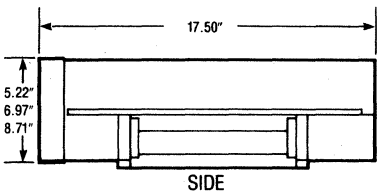
- Available in 45 sizes:
  Panel Heights: 15 available from 3½" to 28"
  Widths: 19" (24" by special order)
  Depths: 16, 20, 24"
- Structural strength achieved with rigid, welded aluminum bezels joined by rounded, extruded aluminum corner members.
- Exceptionally clean appearance.
- Baked acrylic finish.
- 18 ga. steel side, top, and bottom panels.
- Panel mounting screws and nuts.
- Stacks neatly, to maximum weight of 400 pounds.

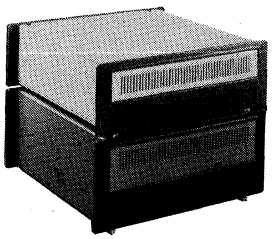




Optima 17" Instrument Cases

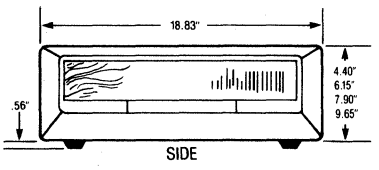
- Available in 3 sizes:
  Panel Heights: 4.74, 6.49, 8.24" Width: 17" Depth: 16"
- Combination chassis case in one integrated unit.
- Chassis consists of sides, front panel, sub-panel, rear panel and a lateral mounting or component shelf.
- Chassis construction offers full accessibility for assembly and checkout.
- Front panel, rear panel, and case parts are finished with baked acrylic paint.
- Sides include a matrix of holes for mounting component parts and sub-assemblies.

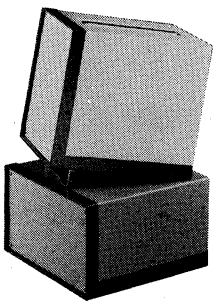




OptimaPak

- Available in 8 sizes:
  Panel Heights: 3.50", 5.25", 7.00", 8.75"
  Widths: 17, 19" Depth: 16"
- Molded structural foam side members, with strength-to weight ratio 2-5 times greater than steel. Dent resistant.
- Chassis can be removed for rack-mounting.
- Easily removed top and bottom panels.
- Cooling slots on side and bottom panels.
- Retractable handle neatly designed in.
- No visible front panel hardware.
- Acoustic dampening 5-10 times better than steel.
- Stacks neatly.





Small Portable Cases

Mobile, versatile, and rugged. Cases consist of two major elements: an easily removed one-piece cover, and bezel-and-bottom pan assembly.

- Available in 18 sizes:
  Panel Heights: 2.61", 4.36", 6.11", 7.86", 9.61"
  Widths: 5, 8, 11" Depth: 10, 14"
- Panel and chassis are loaded from the front.
- Tilt stand to raise the front of case 1½".
- Non-stain celcon plastic feet.
- Flush-mounted, self-retracting handle with trim strip.

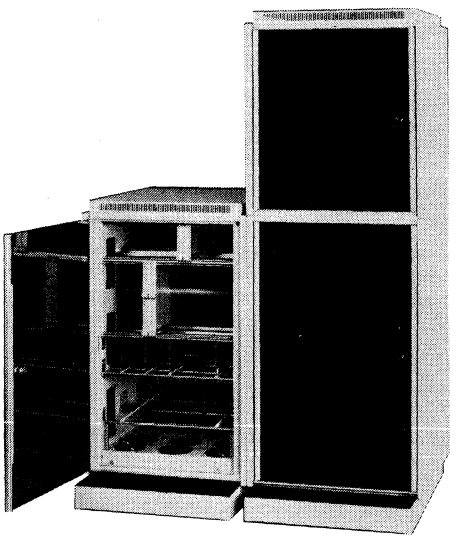
OPTIMA MPS (MODULAR PACKAGING SYSTEM)

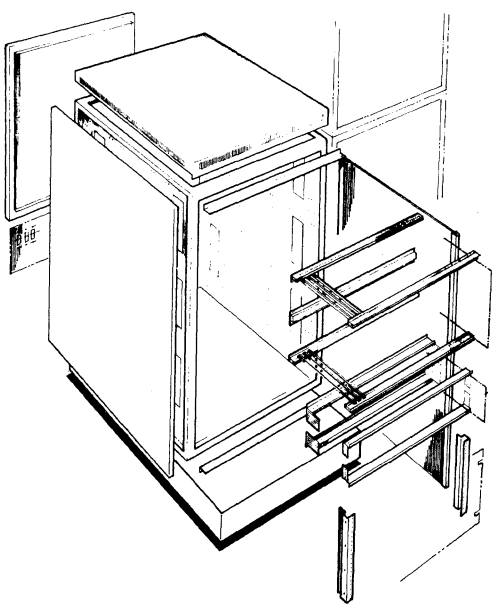
Optima MPS offers more flexibility, and at a lower cost, than conventional packaging systems. The system completely eliminates card cages and subracks. The result is 15% more usable space, with overall packaging costs significantly reduced.

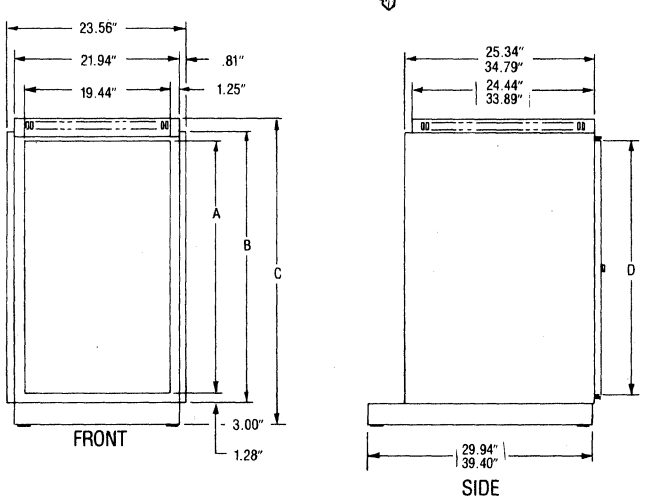
Standard features include:

- Available in 6 sizes:
  Heights: 22.75" (13U), 33.25" (19U), 43.75" (25U)
  Widths: 19" for EIA mounting rails
  Depths: 20,30"
- Flexibility, that accommodates inch cards, single, double, or triple Euro cards, and standard EIA 19" equipment.
- Ability to integrate different-sized cards and equipment without redesign.
- Modules can be stacked vertically and/or horizontally, while maintaining a uniform appearance.
- Available with EMI/RFI shielding (special order).
- Buy what you need now, add modules later.
- For more details and information re: standard colors, a broad selection of accessories and our INSTANT OPTIMA 3-day ship program call or send for FREE catalog.

OPTIMA Enclosures







Universal Application

Mounting provisions have been designed to accommodate:

Eurocards

Heights: from 100mm. Depth: from 160mm through 400mm (60mm increments). For VME bus, Multibus II, other bus configurations, and associated DIN products per IEC-297-3. Card guides are available.

Inch Cards

Heights: .250" increments, minimum height of 3.75". Depth: card rear support is infinitely adjustable for any card depth.

19" Equipment

By adding sections of standard EIA rails, Optima MPS also accommodates 19" panel equipment. Cards and 19" panel equipment can be mounted at any level and mixed to suit. Conversion from or integration with existing packaging systems is easily accomplished.

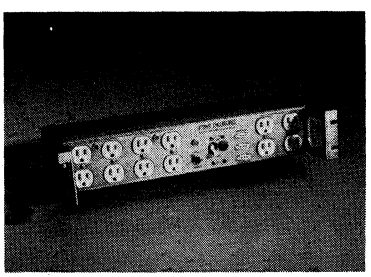
Complete Optima Product Line:

- Vertical Cabinets
- EMI/RFI Shielded Cabinets and Cases
- Optima MPS (Modular Packaging Systems)
- Instrument Cases for 19″ and 17″ Systems
- Electronic Desk Systems
- Complete accessories line

Optima Power and Distribution System:



Model #PDS-115-60

- 12 AC receptacles: 8 switched and 4 unswitched with remote control option
- Magnetic circuit breaker
- EMI/RFI line filter and transient suppression
- Surge voltage protection
- Indicators: power to controller, power to switched 1 outlets, power to switched 2 outlets
- Housing: 3½″ high, 19″ wide, 8⅝″ Depth
- Rack-mount hardware and remote I/O connectors provided with each model
- 16 ga. steel construction: zinc plated for electrical continuity
- Recognized under Component Program of UL

Power Outlet Strips

- 15 amp, 125 volts
- UL Listed
- Circuit breaker
- Switch and power light
- Power supply cord: 14/3 SJT with molded plug, 15′ long

PCB printed circuit board
PCM pulse code modulation
pF picofarad
PGA pin grid array
PIN positive-intrinsic-negative (transistor)
PLA programmable logic array
PLCC plastic leaded chip carrier
PLL phased lock loop
PPI plan position indicator
PROM programmable ROM
PTC positive temperature coefficient
PUT programmable unijunction transistor

Q
QAM quadrature amplitude modulation
Q (meter) quality-factor meter

R
RAM random access memory
RC resistance-capacitance
RFI radio frequency interference
RMS root mean square
ROM read only memory
RF radio frequency
RFC radio-frequency choke
RFI radio-frequency interference
RTD resistance-temperature detector
RTL resistor transistor logic
RTV room temperature vulcanizing
RW read/write

S
SAS silicon asymmetrical switch
SBC single board (micro) computer
SBS silicon bilateral switch
SCR silicon-controlled rectifier
SCS silicon controlled switch
SDA source & detector assemblies
SIDAC bidirectional voltage-triggered switch
SIMM single in-line memory module
SIP single in-line package
SMD surface mount device
SMT surface mount technology
SO small outline
SOIC small outline IC
SOT small outline transistor
SSI small scale integration
SSR solid state relay
STL Schottky transistor logic
SUS silicon unilateral switch

T
TC temperature coefficient
TCE thermal coefficient of expansion
TXCO temperature compensated crystal oscillator
TFE tetrafluoride ethylene propylene Copolymer, 250° Teflon
TRIAC bidirectional AC switch
TTL transistor-transistor logic
TTY teletypewriter

U
UHF ultra high frequency (300 MHz to 3 GHz)
UJT silicon unijunction transistor
UL Underwriters Laboratory
UPS uninterruptible power supply

V
VAC volts (of) alternating current
VAN value added network
VAR volt-ampere reactive
VCR video cassette recorder
VDC volts (of) direct current
VHF very high frequency (30 kHz to 300 MHz)
VHSIC very high speed integrated circuit
VLF very low frequency (3 to 30 kHz)
VLSI very large scale integration
VME virtual machine environment
VRM voice recognition module
VTVM vacuum tube volt meter
VU volume unit
VSWR voltage standing wave ratio

W
WPS word processing software

Y
YIG yttrium iron garnet

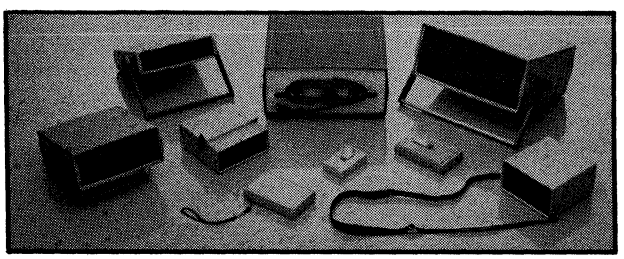
Z
ZIF zero insertion force

Electronic Enclosures

Stock Enclosures • Modifications • Design Engineering Assistance • Custom Panels • Options and Accessories

Designed to work for you.

- Easy to design into and easy to assemble
- Molded-through color means no chipping or scratching—and no need for refurbishing and painting during or after assembly
- Constructed of impact-resistant ABS—(flame-retardant grade to meet UL94V-0 standards, optional)
- Shielding against EMI/RFI available
- Standard colors: tan, gray, black, PC bone
- No tooling costs or set-up charges
- Molded-in mounting bosses, card guides, and panel grooves reduce assembly time and production costs
- Low-cost options and accessories available to meet end-user needs
- Available in kits and production quantities



Accessories

- Universal handle
- Strap handle
- Shoulder strap
- Wrist strap
- Mounting bracket
- Belt clip
- Cord wrap
- 1.5 Volt battery holder
- 9 Volt battery holder
- Tilt stand
- Vinyl carrying cases

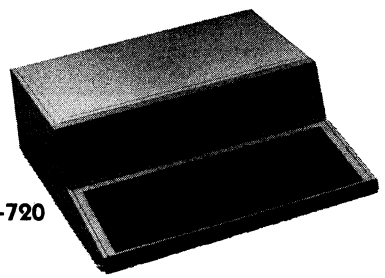
PacTec Systems Enclosures

Attractive . . . no tooling costs . . . off-the-shelf

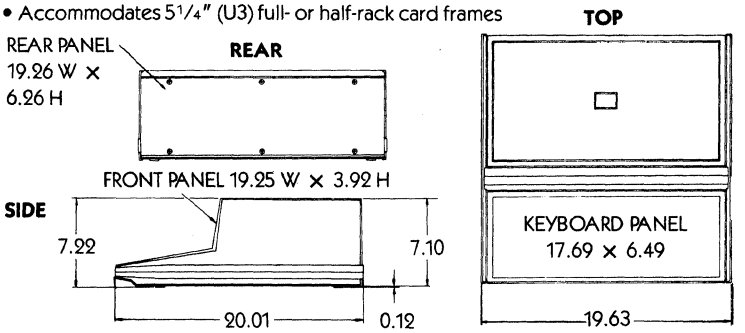
- Prototyping kits and production units
- Highly styled, rigid construction
- Removable panels for quick internal access
- Inexpensive custom and modifications
- Meets UL 94V-0 standards
- EMI/RFI shielding available
- Standard color—PC Bone; custom colors and color combinations available

Desk Top Console

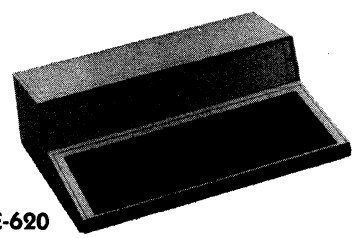


DE-720

- Accommodates 5¼" (U3) full- or half-rack card frames

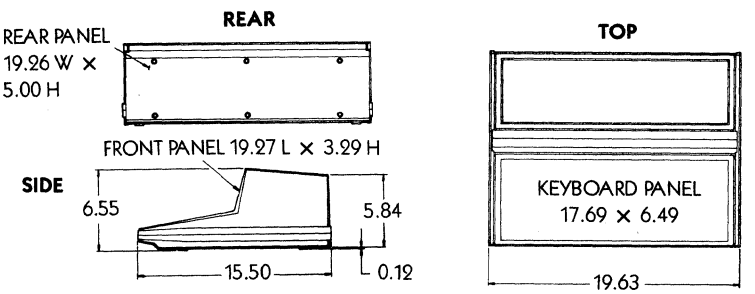


Desk Top Console

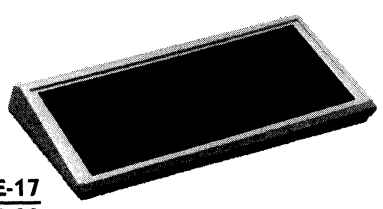


DE-620

- Available in custom widths
- All panels can be customized or modified

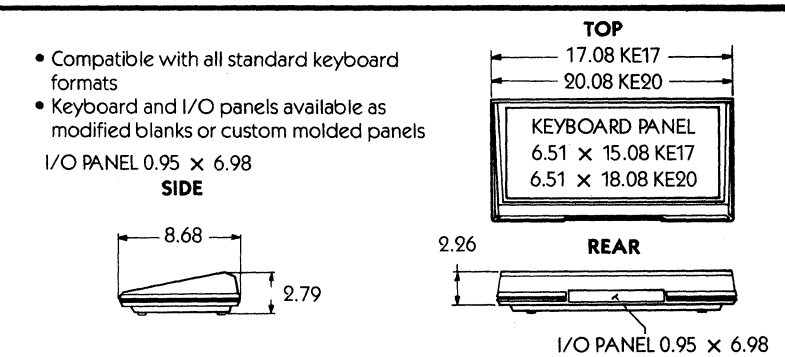


Keyboard Enclosure

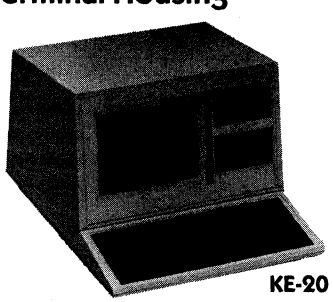


KE-17
KE-20

- Compatible with all standard keyboard formats
- Keyboard and I/O panels available as modified blanks or custom molded panels



CRT Terminal Housing



CRT-20
KE-20

- Accommodates most common monitor and disc drive combinations
- Removable subchassis for quick assembly and service
- Ventilation slots—standard option

24 PAGE PRODUCT INDEX BOOK LISTS 3,800 ITEMS

62 CROSS REFERENCE CARDS

300 FILE FOLDER LABELS

ALL NEW with this edition of EEM

GET ORGANIZED!

Are your catalog files organized? Can you find any given catalog in a matter of seconds? If your answer is "Yes," you probably already have the EEM File System. But, if you said "No," you really ought to look into this simple system. It will save hours of time and tons of aggravation.

The EEM File System was invented over twenty-five years ago to help people who specify, buy, or work with electronic products and equipment. It is upgraded on a constant basis to reflect the current state of the art. It's easy to use and easy to customize to your particular needs.

You say you want to file catalogs by type of product? That's easy to do with The System. But, what are you going to do when there are multiple products in one catalog? Take Mallory for example. There are all kinds of products in the Mallory Short Form Catalog. With the EEM File System all you do is file the catalog under "M" for Mallory and refer to it on all of the cross reference cards that apply.

There are thousands of EEM File Systems in everyday use in engineering and procurement offices all over the world. Shouldn't you be using this proven system?

The EEM File System is shipped in one neat package. The package contains everything you need to set up your very own filing system. Best of all, it's easy to get and very affordable. Send a check or money order for $25.00 and EEM will pay the postage and sales tax. If you must use a purchase order, please add $5.00 for postage and handling. An invoice will accompany your System.

Don't waste any more time. Get organized now!

EEM FILE SYSTEM,
645 stewart ave., garden city, ny 11530

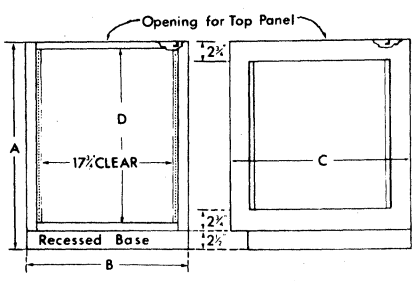
Allow for latch. § For clear inside width at rear, add 1 3/8″.
† Add 3/4″ for each side panel used. ‡ Add 3/4″ for front door. Handles are flush mounted.

CONTEMPO

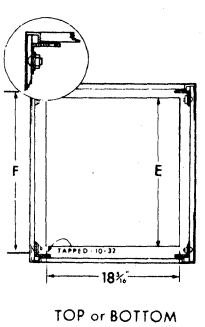
CP PEDESTALS



The basis for a variety of console constructions. Reinforced recessed base included with a solid 13 gauge removable bottom plate. Also included are two pairs of 1½″ x 1″ 12g. panel mounting angles. Optional accessories available.

NOTE: To coordinate with CP Pedestals a full line of Desk Top Panel Cabinets, laminated table tops, is available.

PEDESTALS



TOP or BOTTOM

PEDESTALS are the basis for a variety of console constructions.

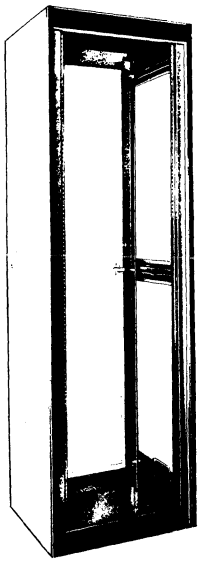
INTEGRA

a line of modern cabinets featuring smart extruded aluminum trim, rugged construction and unlimited adaptability.



- 13 gauge cold rolled steel tops, bottoms and corner posts
- Double hat-section reinforced rails
- Removable top panel
- Flush mounted side panels
- 13 gauge Panel Mounting Angles with 10-32 tapped holes on standard EIA spacing
- Rear door with recessed locking handle
- Dual receptacle in rear

Also comes in sizes 19″W x 30″D, 24″W x 30″D, 30″W x 30″D in all heights.

LAT includes Frame; two removable side panels with trim; rear door with flush mounted handle; one pair of panel mounting angles; removable top panel; receptacle.

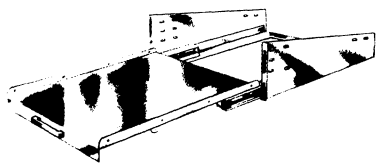
XAT includes Frame with solid side walls; trim; rear door; one pair of panel mounting angles; removable top panel; receptacle.

CABINETS with Front Doors available. When ordering, add prefix F. Example: FLAT or FXAT.

TRIM: Vinyl inlays in Dark Walnut and Black.

STANDARD UNITS MODIFIED TO SPECIFIC CUSTOMER REQUIREMENTS.

BASIC SLIDE ASSEMBLIES



Basic Slide Assemblies consist of a readily removable shelf, a pair of slides, and a mounting cradle. Each part is pre-assembled and ready for installation in racks or consoles. All movable parts are mounted on ball bearing wheel rollers. Mounting or removal of slide section is extremely simple and does not require the use of tools. A chrome plated Pull Handle and ALL necessary hardware are furnished.

Installation may be made to rack (or console) panel mounting angles or to standard vertical side supports through holes pre-drilled in the side brackets. Four sizes are listed to fit equipment using either 19″ or 24″ wide panels. ALL parts are zinc plated.

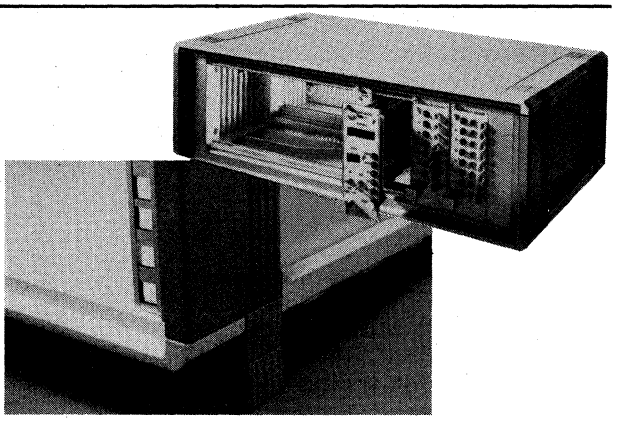
Switch to perfection RITTAL

RITTAL Vario-Case

The Vario-Case (VC) desk-top enclosure features sidewalls of extruded aluminum sections, and covers and rear wall are made of ABS plastic (self-extinguishing in accordance with UL 94 V1). The VC allows for application of 19″ subracks as well as the direct insertion of modules and PCBs. The side walls have 12.5mm/0.49″ pitch grooves that enable the 19″ card frames and assemblies to be mounted at variable positions in both height and depth. This is accomplished through the use of tapped inserts that slide into the sidewall grooves.
The VC feet can be unfolded once to ensure safe stacking of multiple cases without the risk of slipping. The second fold-out facility of these feet allows for two angles of tilt, and folded neatly, conceal the cover fixing screws.
The Vario-Case comes in heights from 3″ to 22.3″, and depths of 300mm/11.8″, 400mm/15.7″, and 500mm/19.7″, and widths of half or full 19″. Top or bottom covers are available with ventilation slots, and horizontal and vertical handles are optional. Please consult our catalog or your area representative for further details.

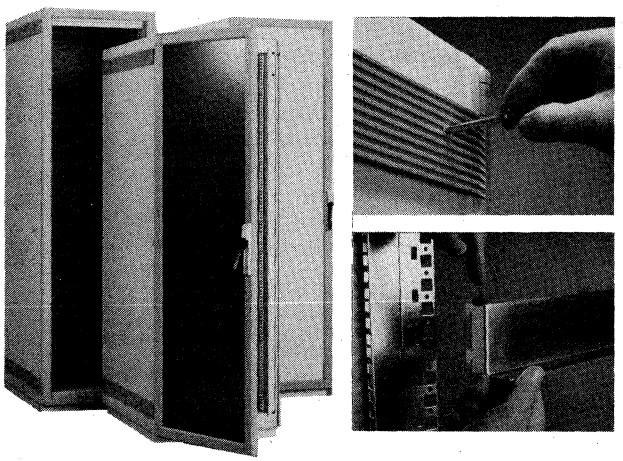


RITTAL Vario-Rack

The RITTAL Vario-Rack System is an enclosure which will not only safely house all your sophisticated electronics, but will also create a good impression in any surrounding in which it goes. It offers efficiency and aesthetics in one very versatile package. The Vario-Rack (VR) is a free-standing 19″ rack that offers several attractive features:

- Easy and fast door attachment due to a snap-in hinge. It can be hinged on either the right or left side.
- Access to the sides is simple due to removable side walls: release by a quick turn of the cam locks.
- Integrated cable base has a two-part entry plate through which cables and wires can easily be fed. There is also a foam rubber cable clamp strip to ensure sealing.
- Optional slide rails require no screws to attach. They simply hang in place and are secured by clips.
- Four levelling feet are included with the rack; twin casters for transport are available. Lifting eyebolts can also be added to the rack if necessary.
- The VR meets all specifications for IEC 297-2.
- Power outlet strips can be fitted in the rear corner sections without occupying any usable space. The corner sections can also be used as cable ducts.
- The 25mm/0.98″ spacing of round and square holes behind 19″ angles sections allows easy installation of system chassis accessories, PS4000, detailed in our full line Handbook.

The Vario-Rack is available with a smoked glass front door or an open front; it is also available in an EMI/RFI shielded version. The heights range from 31 to 87 inches, and three depths, 23.6″, 31.5″, and 35.4″.



RITTAL Uniset®

RITTAL Uniset® is an easily manageable card frame system which fulfills all DIN 41494 parts 1-5 and IEC 297-1 to 3 requirements. The stability of the system is based on the die-cast aluminum side walls. Adaptability is an essential feature of the concept. Complete kits can be ordered with just one part number, and contains all the items needed to assemble a system. The parts can also be ordered individually. Some of the unique features of RITTAL Uniset:

- Card guides simply clip into the cross rails; lugs insure exact positioning.
- Cross rails have grooves on top into which tapped strips can be inserted. Countersunk screws can then be used to screw the guides down if desired.
- The kit packaging can be used as an assembly jig.
- Connectors can be fitted to the connector rails prior to assembling them to the subrack, since they are separate from the cross rails.
- A ground connection is made between cross rails and side walls due to fixing screws with a cutting edge. The cross rails also have a conductive alochrome plating to ensure conductivity. Punched holes in the side walls are used as fixing points for grounding wires (marked with grounding symbols).
- The hole locations for handle fixing are visible only from the rear. Simply pierce them for assembly.

If you would like assistance in configuring a subrack system to suit your individual needs, please call one of our representatives in your area, or call **1-800-637-4425** for the nearest location.

ROSE® IS MOLDING THE FUTURE OF ENCLOSURE DESIGN

Hundreds of Models,
With Dozens of Options,
In Five Different Materials,
Mean Thousands of Boxes,
From One Company,
ROSE® Enclosures

Hundreds of Models (468 different enclosures) including standard, control enclosures, ABS cabinets, build-a-box, and other types are just the beginning with ROSE®. Each enclosure is molded to anticipate your application needs and to eliminate the need for custom-made boxes for your circuit designs.

Dozens of Options let you tailor any of the basic ROSE Enclosure models to your specific application. EMI shielding, high-temperature silicon gasketing, milling, drilling, threading, anodizing, painting, silk-screening, labelling, internal mounting plates, external mounting brackets, and more mean that your next custom enclosure can be purchased off the shelf from ROSE.

Five Different Materials allow you to select the material you need for shielding, durability, or any other design requirements. ROSE Enclosures are molded in aluminum, fiberglass, polycarbonate, and ABS.

Combine hundreds of models in five different materials with dozens of options, including a full range of custom machining services, and you get **Thousands of Boxes.** ROSE Enclosures give you such a complete range of off-the-shelf boxes that you may never need custom-built boxes again.

For highest quality, greatest selection and the latest in enclosure designs look for just **One Company**—ROSE Enclosures.

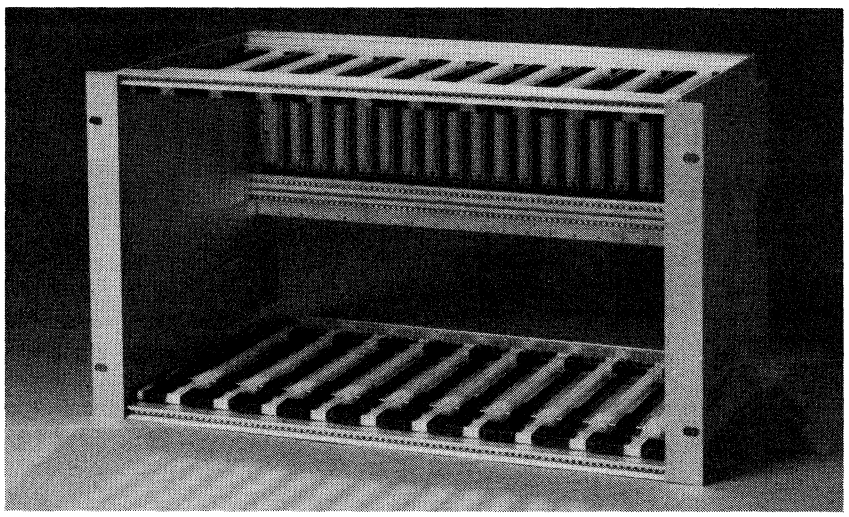
Enclosures...Card Cages...

CARD CAGES

Multibus II & VME

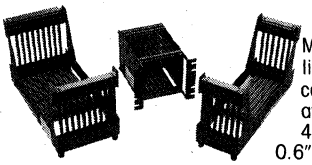


Scanbe's new Eurocard cages come in hundreds of combinations from 3U to 9U heights, 100mm to 400mm depths, and from 3 to 21 slots. For VMEbus or Multibus II, high quality J1 backplanes are installed and tested—J2 backplanes are optional.

Standard rack mounting (cards vertical), horizontal rack mounting and OEM/tabletop mounting are available. There is a full line of optional items, including disk drive modules (see one installed in the MaxChassis, below), front panels with E-Z-JECT™ card ejectors, and cooling fans.

Cards of various sizes—3U, 6U and 9U—may be mixed using either a divider section or a unique center adapter. Custom cages are available to meet any need for combinations of card height, depth, mounting or backplane configuration.

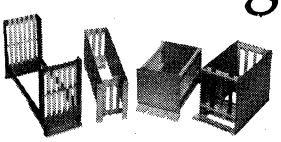
Multibus I and STD Bus



The MICRO-FILE™ line of Multibus cages is available with 4 to 26 slots, 0.6" or 0.75" card spacing, with or without low noise backplanes.

The STD-FILE™ is offered in 4,8,16,24 and 32-slot configurations, in table mount or rack mount versions, with backplanes or with wire wrap connectors.

Custom Card Cages



Scanbe's 25 years of card cage design and large variety of card cage components is your assurance of custom card cages that will meet your requirements. Request a copy of the "Customatic" brochure which describes the eight basic questions required to build a custom card cage.

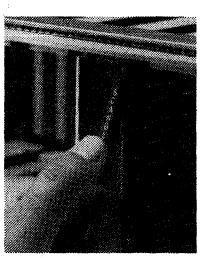
Scanbe's card cage components also may be used to build your own card cage. The "Here's How" and the "Snap File Card Mounting System" describe how to use Scanbe's components to build custom card files.

CARD ACCESSORIES

Injectors/Ejectors

Scanbe circuit card ejectors fit virtually all card support systems. They easily attach by means of roll pins to cards either 0.062" or 0.093" thickness, and operate by lever action against the card guide or mounting bar. The **S-217** (shown at right) is an injector/ejector for VME or other Eurocards, and provides a substantial mechanical advantage.

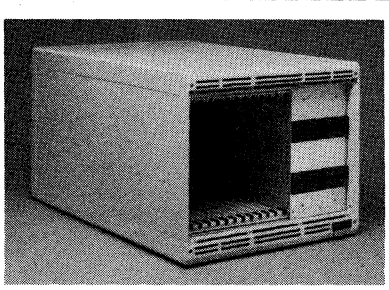
E-Z-JECT™ is specially designed for ejecting VMEbus cards while maintaining an attractive front panel appearance. Custom front panels for VME cards with E-Z-Ject are readily available from Scanbe.



S-217 Injector/Ejector

E-Z-Ject

ENCLOSURES



The MaxChassis

The new MaxChassis solves nearly any VMEbus or Multibus II packaging problem with a 12 to 40-slot (dual 20-slot) card capacity, up to 800 Watts of built-in power supply, and an optional disk drive module for up to four half-height (or two full height) 5¼" peripherals.

It's available in a tabletop version (shown, with disk drive module) or will fit in a standard 19" rack. For regular 6U Eurocards (standard VME or Multibus II) the MaxChassis height is only 14.0".

MaxChassis for 3U and 9U cards are also available, and the card cages can accommodate mixtures of card heights. Card depths of 100mm, 160mm, 220mm, 280mm, 340mm and 400mm are supported (20 slots maximum above 220mm). Overall depth of the MaxChassis is only 20" for up to 20 slots of 220mm or smaller cards (which include all standard VME and Multibus II), or 26" for larger capacities.

All MaxChassis are designed to meet UL, CSA, TUV and FCC specifications.

WIRE WRAP

2D Panels, Frames, and Drawers

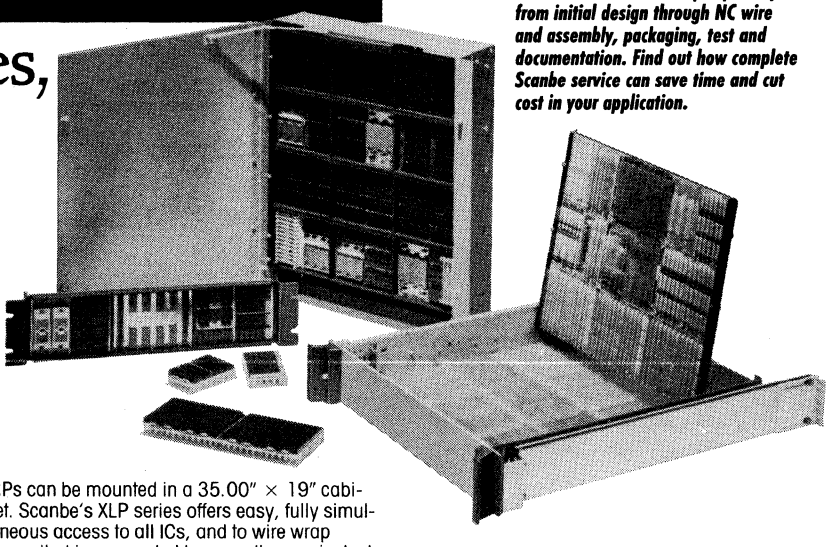
Building a complex wire wrap system requires the versatility of 2D, over 84 different building-block panels that may be mixed as required provides an almost limitless variety of combinations. Various size IC's may be mixed as well as family types (TTL, ECL, etc) and special components such as A-D converters, etc.

Socket boards and panels are available for:

- 14,16,18,20,24,28, 36 and 40-pin ICs
- ECL circuits
- Schottky circuits
- Matrix & universal layouts
- ECL/TTL translation
- I/O connectors, including ZIF

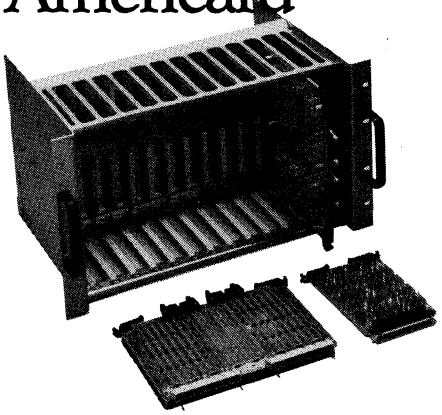
Single and double level, fixed and swing-out frame assemblies accommodate 6 to 60 board assemblies each, and may be mounted in a standard 19" rack cabinet. Frames are also available in 3½" and 5¼" drawers.

For extra large-scale packaging, over 6000 DIPs can be mounted in a 35.00" × 19" cabinet. Scanbe's XLP series offers easy, fully simultaneous access to all ICs, and to wire wrap areas, that is unequaled by any other equivalent size packaging.



Scanbe has full wire wrap capability from initial design through NC wire and assembly, packaging, test and documentation. Find out how complete Scanbe service can save time and cut cost in your application.

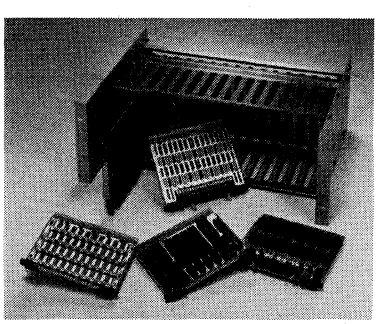
Americard



Scanbe's Americard family of wire wrap IC packaging hardware consists of plug-in cards, card cages, card extenders and related accessory items—all designed for use is high-reliability IC systems requiring wire wrap flexibility and plug-in modularity.

The series consists of four card sizes, card cages for both 19" and 24" racks, and features high density DIN connectors for system interconnect and IDC type test connectors. Ceramic and tantalum capacitors are installed. To protect the pins and wiring, shielded or transparent wire wrap covers are available for each card size.

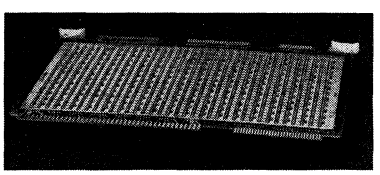
3D Cards and Card Cages



The 3D series is an integrated line of optimum size (6.25 × 5.56 in.) socketed wire wrap cards with card edge connectors and matching card cages. Universal mounting strips and alternate combinations of 14,16,24 and 40-pin sockets make possible a very close fit of hardware to the system design. Bypass and decoupling capacitors are already on the boards, assuring low noise power distribution.

Card cages in the 3D series allow a system with up to 1120 ICs to be mounted in a 7" space in a 19" rack. Cards feature a unique locking/ejector system which provides a mechanical advantage during insertion and extraction.

Multibus & VME Wire wrap Boards



Scanbe's VME and Multibus wire wrap boards give you the versatility of wire wrap and the assembly ease of quad contact pin sockets.

The Multibus Wire wrap Boards have a universal area holding up to 126 14-pin ICs, plus one 26-pin and two 50-pin I/O connectors. Order Part No. 12330-02 (2-level) or 12330-03 (3-level).

The VME Wire wrap Board has 54 dedicated locations for 14- to 20-pin ICs, plus a large undedicated area of 13 columns by 46 pins for larger ICs, SIPs and other devices. Bypass and decoupling capacitors are installed. The VME front panel is equipped with Scanbe E-Z-Ject ejectors. Order Part No. 12360.

19" Systems for Electronics Packaging

Standard off-the-shelf-products – the most economical way of presenting your electronics. The right cabinet, the right case and the right 19" subrack system for almost every application. At the same time you have a range of accessories to match the system and you can always add items at a later date without difficulty.

Take advantage of our experience with 19" systems and our extensive product range which only a specialized manufacturer like Schroff can offer.

"We only look expensive"

Quality Protection for Advanced Technology

Transit and Operational Cases and Containers from Skydyne

Standard Fiberglass Cases (A)
Excellent lightweight commercial shipping/transit containers. Can be modified to meet MIL specs or other specific requirements. Over 35 sizes to choose from.
- Extremely high strength-to-weight ratio
- Weather resistant/waterproof
- Inert to most chemicals
- High resistance to impact/will not dent
- Custom foam interior available

Standard Econoglass™ Cases (B)
All the rugged structural features of standard fiberglass at an economical price. Has standard mounting clips for easy panel installation.

Standard Mounting Flange Cases (C)
Versatile standard fiberglass cases that allow you to adopt display or test equipment to field use through a built-in mounting flange in the edge frame. Over 35 sizes available.
- Pre-drilled flange has captive floating nuts
- Can be RFI/EMI shielded
- Flange can be gasketed
- Standard panels available
- Many accessories can be specified

Standard ABS Thermoplastic Cases (D)
Combine high strength with light weight in commercial hand-portable shipping containers. Easily modified. Over 35 sizes.
- High energy absorption capability
- Extremely high ductility
- Wide temperature range characteristics
- Some models feature stacking ribs
- Custom foam interiors available

Standard ABS Industro-Cases™ (E)
Thermoplastic cases in a briefcase style design. Excellent sales sample and service kit container. Three versatile sizes.

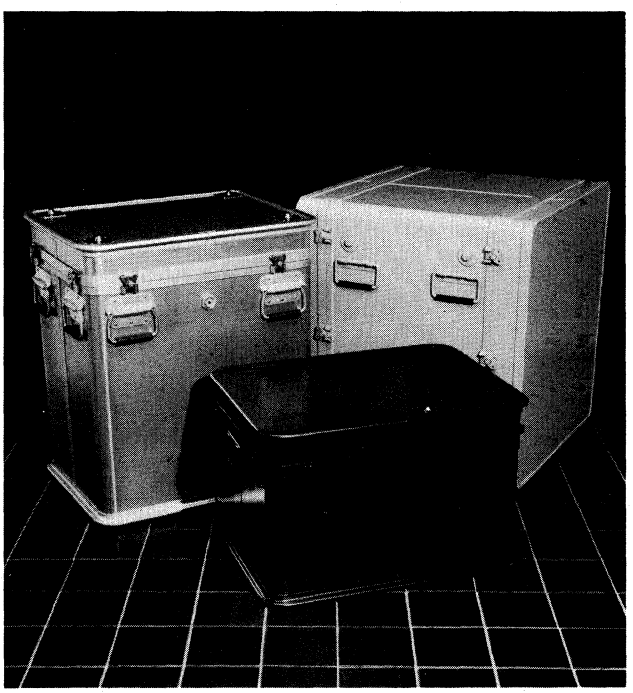
Aluminum Composite and Aluminum Panel Cases and Containers

Aluminum Composite Panel Containers
As an originator of the bonded sandwich panel, Skydyne has had many years of experience working with this versatile, unique material. It has proven to be particularly adaptable to protective combination-type containers for both transit and operational use. For oversized or heavy objects, such containers are especially advantageous. Virtually any size structure can be made without costly tooling costs. The features of sandwich structures include:

- Designs to meet applicable MIL specifications
- Outstanding strength-to-weight ratio
- Water/weather resistance
- Available in virtually any configuration
- Easily adapted to special equipment mounts
- Many accessory items available



Modular Aluminum Panel Cases
If all-metal construction is a must for your application, Skydyne offers a complete line of all aluminum cases. The modular panel construction offers more ruggedness with better impact resistance than typical drawn metal types.

- Meets many MIL specifications
- Gasketed closures
- High thermal conductivity
- Treated for corrosion resistance
- Sizes from 5" x 5" x 5" to 9' x 2' x 6'
- Many custom features available

HEAVY-DUTY RACK-MOUNT CHASSIS

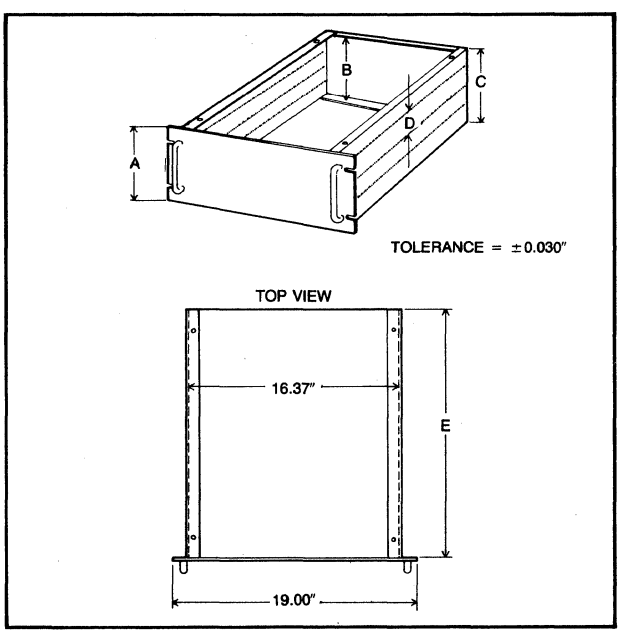
SB9-, SB12-, SB19-SERIES

Four EIA Front Panel heights: 3½", 5¼", 7" and 8¾" (3, 5, 7, 8 nominal).

Three standard depths: 9½" (SB9-Series), 12" (SB12-Series) and 19" (SB19-Series).

Components can be ordered as complete kits or by the part. See kit and parts tables. Kits and parts come with all required captive machine hardware. Front, Side and Mounting Panels are clear iridited. Covers and Handles are clear anodized. All surfaces are satin grained.

Each kit contains 1 Front Panel, 2 Handles, 2 Side Panels, 2 Perforated Covers and 1 Interior Mounting Panel.



SPECIFICATIONS

PARTS

FRONT PANEL — 0.125" thick, 19.00" wide. 6061-T6 aluminum. EIA notched.

SIDE PANEL — 0.090" thick, 5052-H32 aluminum. Three rows of holes on ½" centers for mounting panels, card cages, etc.

INTERIOR MOUNTING PANEL — 0.090" thick, 16.37" wide. 5052-H32 aluminum. For use as a rear panel or vertical or horizontal mounting panel.

PERFORATED ALUMINUM COVER — 0.063" thick. 16.85" wide. 3003 aluminum. Assembles with four screws and captive stainless steel nuts.

STRONGBOX™ HANDLE — Standard aluminum handle.

ACCESSORIES

BOTTOM MOUNTING PLATE — 0.090" thick, 16.37" wide. 5052-H32 aluminum. For mounting heavy components. Clear iridite finish.

SOLID BEARING SLIDE — .38" thick. Cad plated steel. Adjustable brackets for assembling to EIA tapped-rail.

SOLID ALUMINUM COVER — 0.063" thick, 16.85" wide. 5052-H32 aluminum. Clear anodize finish.

HEAVY COVER PLATE — 0.090" thick, 16.88" wide. 5052-H32 aluminum. For mounting heavy components flush with chassis bottom. Clear iridite finish.

Detailed drawings available on request. Other sizes available; call for quote.

Easily Assembled

Sliding Top and Bottom Covers for Maximum Accessibility

Convenient Side Frame Mounting Hole Pattern

Will Accept Your Custom Removable Front and Rear Panels

Standard Colors — Black, Brown and Blue

Over 100 Standard Models Available

The BETA-LINE Series enclosures offer the ultimate in quality and versatility and provide an extensive range of standard packaging dimensions. Rugged die cast aluminum side frames are uniquely engineered to accommodate the latest modular construction. The top and bottom as well as the side covers are easily removed for quick internal access. The beautifully finished side frames and vinyl clad aluminum covers combine to produce a superbly crafted enclosure. Standard vinyl colors include blue, black and brown. A full complement of optional accessories include instrument bails, rack mounting kits, rack mounting slides and aluminum front or rear panels. Rack mounting complies with MIL-STD-189. A retractable instrument bail is available for bench mounting applications. The flexible design of these enclosures permits us to provide customized enclosures for your special requirements.

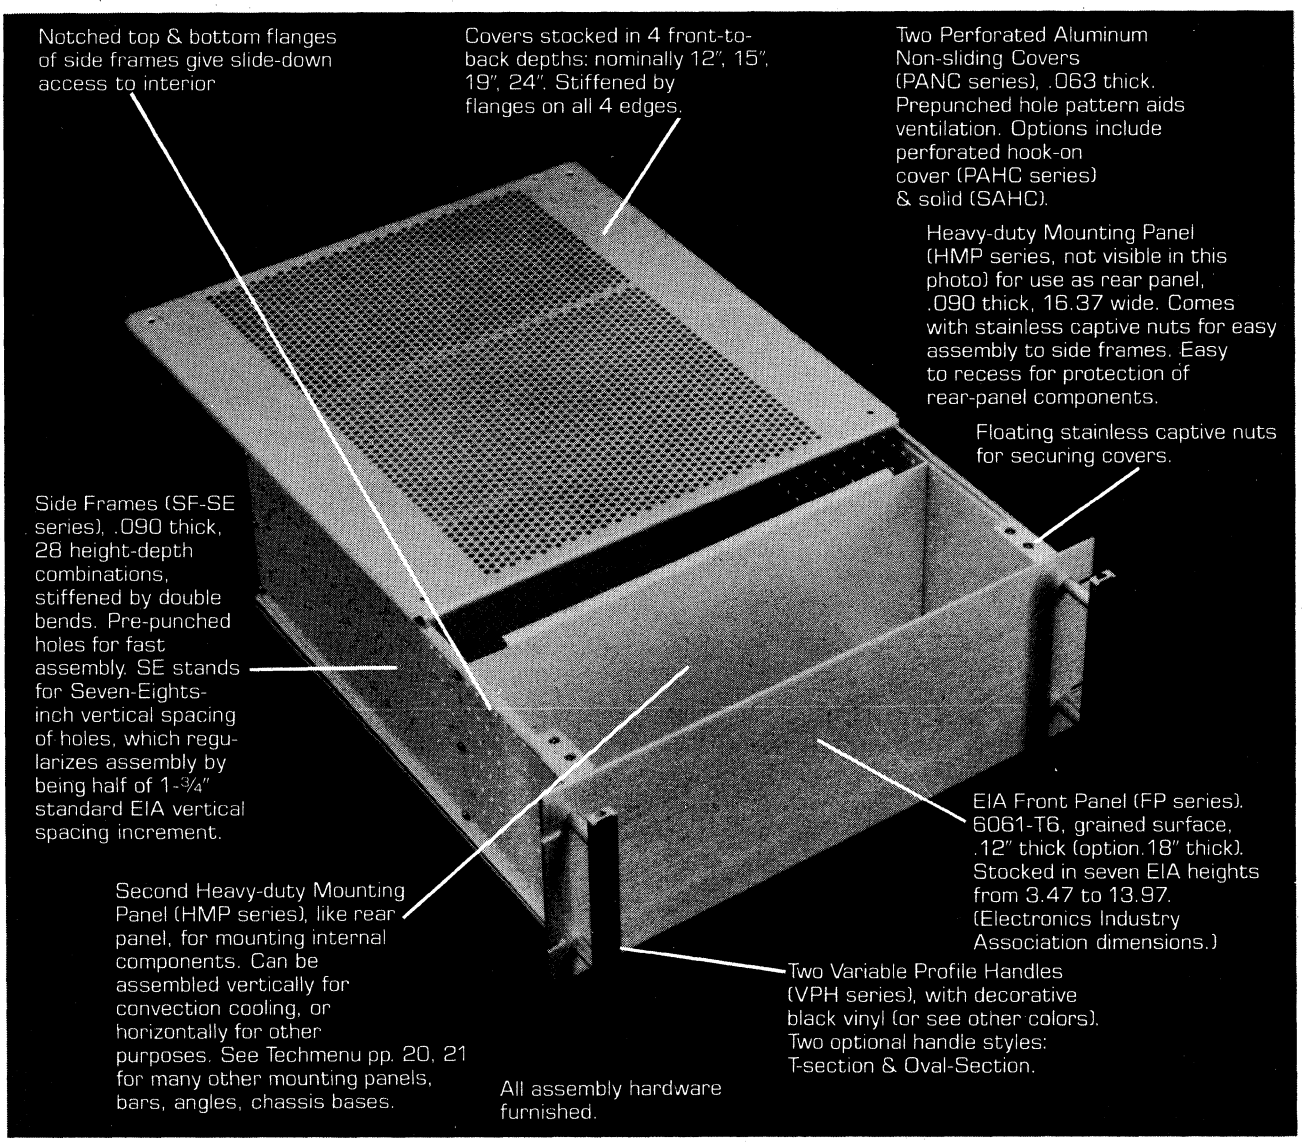
Here are Techmar's two leading lines of

(1) SRK/CRK SERIES Rackmount Enclosures

STOCKED IN ALL 28 COMBINATIONS OF FOUR DEPTHS & SEVEN HEIGHTS this advanced SRK series assembles in more ways without special hole punching or drilling than any other enclosure line we know of. And its unique 7/8" vertical hole spacing [half of the standard EIA rack-mounting height increment] regularizes the location of the horizontal rows of holes for maximum interchangeability in assembling parts of many sizes. How's that for modularity? Order the height/depth combinations that will do what you want. Order today, they're on their way tomorrow.



TECHMAR

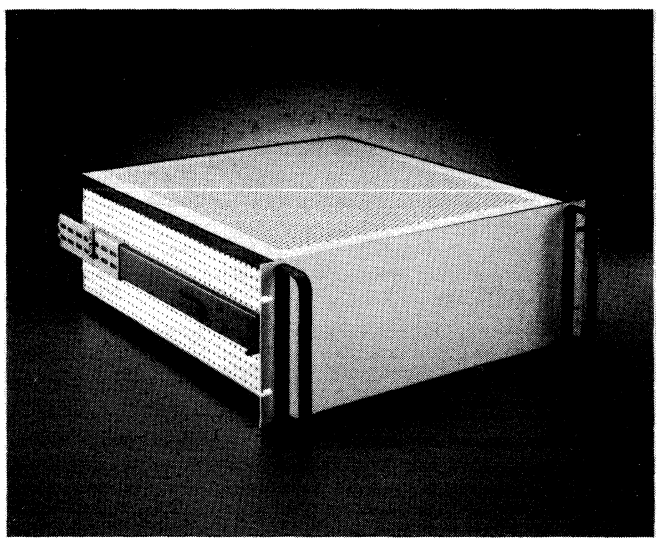
TECHMAR CORPORATION, 2232 SO. COTNER AVE., LOS ANGELES, CA 90064-1875.

From most states phone toll-free 800-TECHMAR. From California, phone toll-free 800-CHASSIS.

enclosures:

(2) VCD/VSA SERIES Variable Chassis Drawers/ Standalones

STOCKED IN ALL 28 COMBINATIONS OF 7 HEIGHTS AND 4 FRONT-TO-BACK DEPTHS for immediate shipping, this line has the appearance of an elegantly designed custom enclosure together with even more versatility than Techmar's long-proven SRK line. The side-hole pattern for assembling internal parts is spaced at .4375 [7/16"] hole centers both horizontally and vertically, for increased freedom to locate your parts at will, and accommodates 90° rotations of card cages, mounting panels, bars and angles according to your design. For the VSA the hole pattern is hidden by decorative side covers. Both versions are available in 9 color combinations of clear, lakeblue and black; contrasting or matching frames, panels & handles available.



VCD SERIES

"Variable Chassis Drawers" stocked for same-day or next-day shipping.

Components include

- One SFP series Standard Front Panel with assembly holes.
- One RFB / OBP Outside Back Panel. [Doubles as Recessed Front or Back panel for other applications.]
- One TPF Twelve-Piece Frame.
- Two SSP Structural Side Panels with assembly hole patterns.
- Two TBC-FP Top / Bottom Covers, Fully Perforated.
- Two DCH DieCast Handles or two TPH Two-Piece Handles [extruded].
- Assembly hardware including decorative screws and washers for assembly to tapped rails.

Available in 28 height / depth combinations, in choice of colors. Many options & substitutions.

VSA SERIES

"Variable StandAlone" stocked for same-day or next-day shipping.

Components include

- Two RFB / OBP [See above under "VCD series"], one for use as Recessed Front panel, the other as Recessed Back panel.
- One TPF Twelve-Piece Frame.
- Two SSP Structural Side Panels with assembly hole patterns.
- Two TBC-FP Top / Bottom Covers, Fully Perforated.
- Two SC Side Covers.
- Four RF-SA Rubber Feet, Screw-Assembled.

Available in 28 height / depth combinations, in choice of colors. Many options & substitutions.

SERPAC

Plastic Electronic Enclosures

Selection:

Serpac's wide variety of packaging products provide functional utility and a professional, high-tech appearance. Choose from an inventory of 24 enclosures in 9 colors (red, blue, black, white, gray, almond, green, orange and yellow). We offer models with or without 9 volt battery compartments, with card guides for vertical circuit boards, bossing for horizontal circuit boards and protective, non-skid elastomer feet to provide a complete line of versatile enclosures.

Quality:

Using UL rated high-impact ABS with a scratch resistant grain finish, **Serpac** professional packaging delivers durability and designer styling. Each color is molded-through, so there is no paint or veneer to chip or crack ... providing you with enclosures that are ideal for a wide range of applications.

Economy:

With **Serpac** professional packaging, there is absolutely **no tooling** or **setup expense.** The cost is only a fraction of the price of metal enclosures, and our off-the-shelf availability means significant savings over the cost of custom built packages. You save even more through reduced assembly time and labor.

Companion Circuit Boards:

Gridboards and cladboards are designed for immediate installation into our standard enclosures to facilitate easy board population. The gridboards feature standard hole diameter (.038 dia.) and spacing (.100 x .100 matrix) to provide flexibility in component mounting. Cladboards allow precise circuit construction of custom etched boards.

Custom Options

Serpac has the design expertise and tooling facilities to provide a complete custom packaging service. We can modify our standard enclosures to meet your needs, or create a custom design especially for your product. We also offer RFI and EMI shielding, custom board etching, transparent windows, opaque panels, and the use of fire retardant materials. **Serpac** is your one source for professional packaging products.

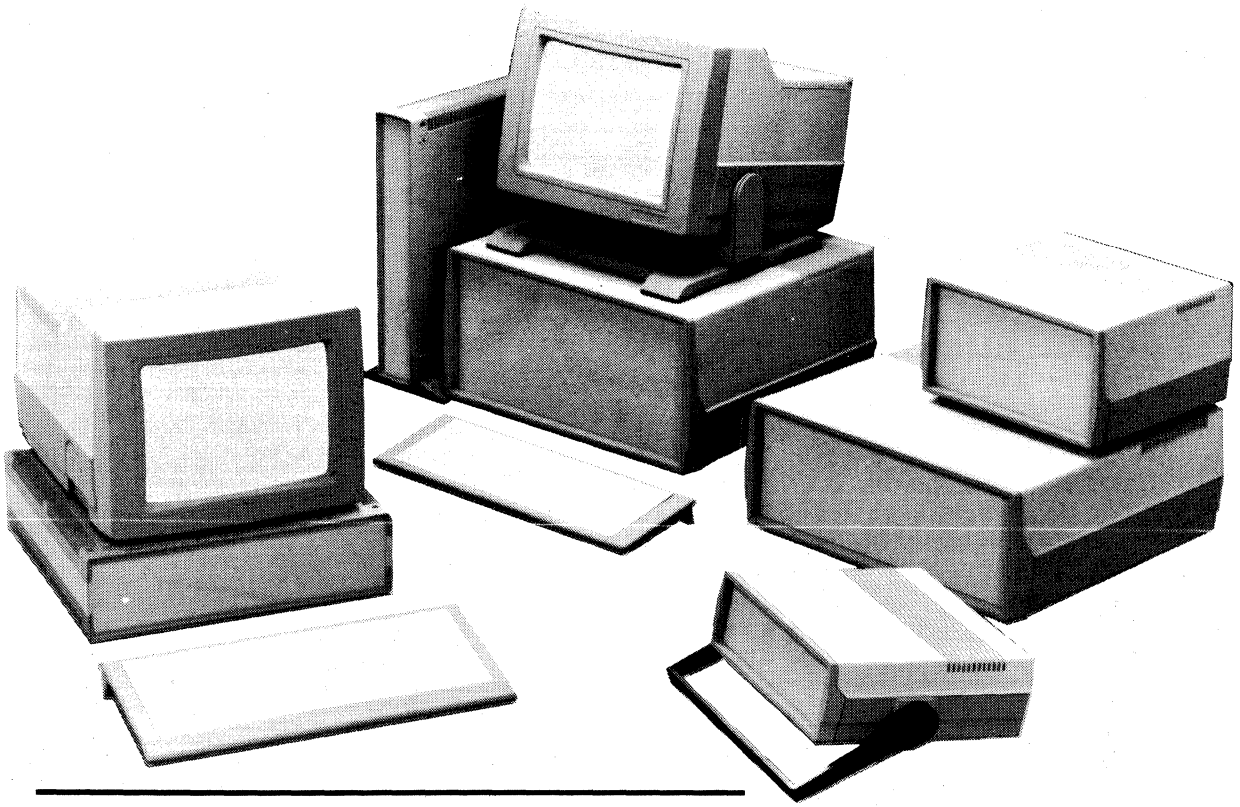
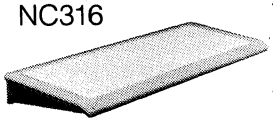
SERCO

Products Division 612 Commercial Ave. Covina, CA 91723 (818) 331-0517 (800) 843-8172 (California only)

NC Series Enclosures

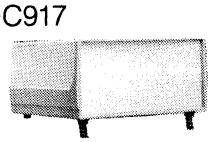


NC316



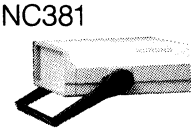
Two keyboard enclosures are available, Model NC116 and Model NC316 (shown). Both keyboard enclosures are designed to house most of today's popular keyboards.

NC917



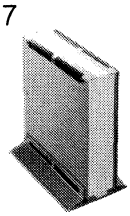
Two system enclosures are available, Model NC717 and Model NC917 (shown). Both system enclosures are designed to accept 19" hardware. A removable top vent gives access to the interior.

NC381



Two extension enclosures are available, Model NC681 and Model NC381 (shown). They are designed to be used with other NC enclosures, however, their size and styling make them ideal for individual instruments. Both units are available with an optional die cast aluminum handle.

NC517



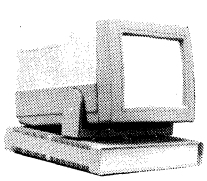
Two stand-alone enclosures are available, Model NC317 and Model NC517 (shown). Both enclosures can be used vertical or horizontal and fit many CPU applications.

The NC series is a complete line of electronic enclosures designed for large systems, small peripherals, adjustable CRTs, low-profile keyboards, and CPU-type housings.

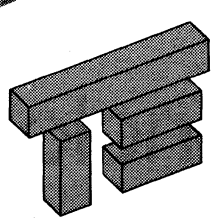
The product line is manufactured of injection-molded, glass reinforced polycarbonate.

The NC line features overlapping joints and vent openings with the proper slot geometry essential when shielding is required. The exterior finish on the NC series is a two coat textured polyurethane. The standard color is two-tone gray.

NC153



Five CRT enclosure configurations are available, from the basic CRT enclosure with mounting feet, to a CRT housing that tilts and swivels on a base enclosure. They are sized for 14" color or 15" monochrome tubes.

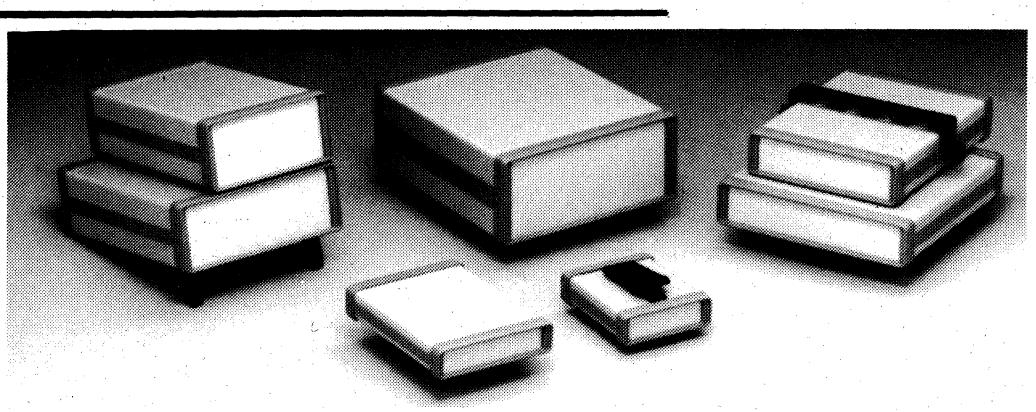


Tracewell Enclosures

7032 Worthington-Galena Road
Columbus, Ohio 43085
Ohio: (614) 846-6175

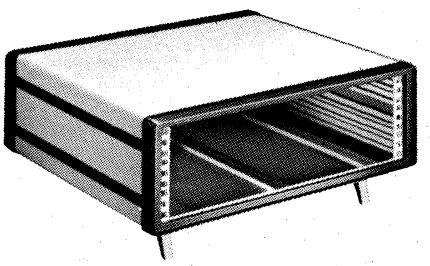
1-800-848-4525

SL Series Enclosures

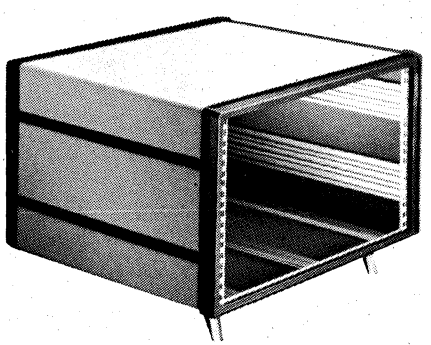


The SL series is available in seven models, from 3.5"W x .97"H x 3.7"D to 7.46"W x 3"H x 8"D. This series is constructed using extruded aluminum sides with PC grooves, aluminum front and rear panels, vinyl clad aluminum top and bottom covers. The bezels are injection molded polycarbonate. Pull down feet are standard. Options include: Chassis plate, mounting bracket and belt clip.

E Series Enclosures



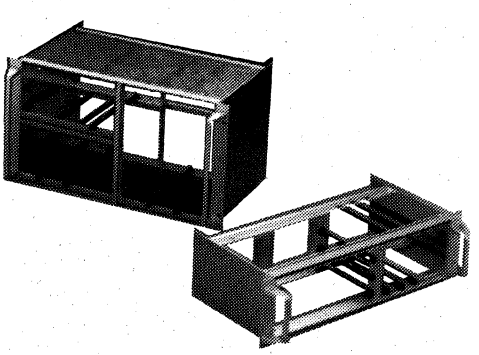
The E series enclosures are designed to accept standard 19" panels or sub-racks. They are available in two heights, 5.25 inches (3U) and 10.5 inches (6U). Standard depth is 17 inches. The aluminum construction provides a light weight enclosure, ideal for EuroCard systems.

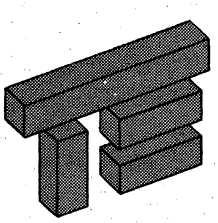


ET Series Sub-Racks

The ET series sub-racks and accessories conform to international standard dimensions (DIN, IEC, IEEE, etc.). The three models are designated ET3U to accommodate single height EURO cards and modules, ET6U to accommodate double height EURO cards and modules and ET4.5 to accommodate STD buss circuit cards.

The ET series sub-racks and accessories are designed for easy assembly, attractive appearance and rugged use. These 19" sub-rack systems are an ideal companion to the E3 and E6 series enclosures.





Tracewell Enclosures

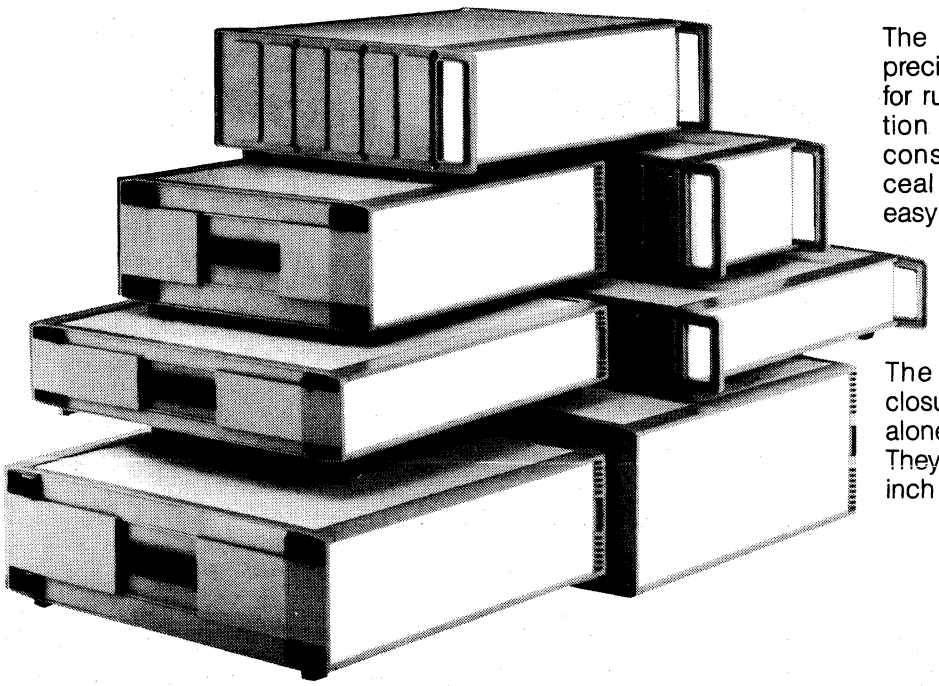
1-800-848-4525

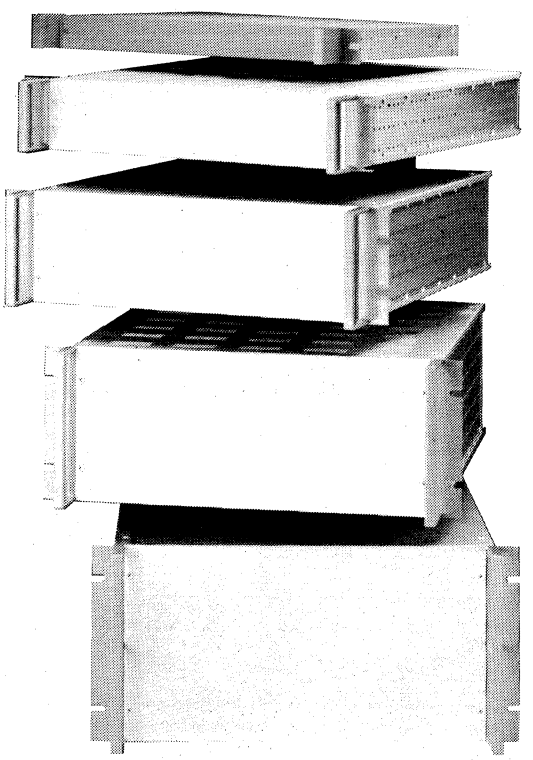
R/SR Series Enclosures



The R and SR enclosures use precision aluminum die castings for ruggedness as well as function and appearance. Unique construction techniques conceal the fasteners, yet provide easy access to the interior.

The R and SR series of enclosures can be used as stand-alone or as rack-mounted units. They are available in full EIA 19 inch rack and half-rack sizes.

CH Series Enclosures



The CH series is a heavy-duty 19 inch rack-mounted chassis enclosure designed to comply with EIA standard RS310-C. Units are available in five heights: 1.75 inches, 3.5 inches, 5.25 inches, 7 inches and 8.75 inches, and two standard depths: 12 inches and 19 inches. Precision die cast aluminum handles act as structural members and also as EIA mounting brackets.

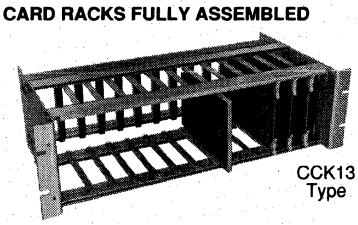
Order modules separately • 66 module, 6 rack models available off the shelf • contact Vector for special requirements.

CARD RACKS FULLY ASSEMBLED



CCK13 Type

Vector Card Racks fit 19-inch racks and are supplied completely assembled ready for cards. Connectors mount without hole drilling to bracket mounted aluminum struts which have captive 4-40 nuts. 5 1/4" high unit holds cards 3" to 4 1/2" wide by 6.5" or 9.6" long. 8 3/4" high unit holds cards 6 1/2" to 7.98" wide by 9.6" long. Sturdy aluminum construction used throughout except on CCK13P which has nylon guides.

Part No.	Description
CCK13	Assembled rack 5 1/4" h. x 19" w. x 8.9" deep with 21 pairs of guides installed on 3/4" centers. Also available—CCK13P w/plastic guides.
CCK17	Assembled rack 8 3/4" h. x 19" w. x 12" deep with 21 pairs of guides installed on 3/4" centers.

Table top cases, doors, & accessories available • 20 models available off the shelf • Fast production on custom models

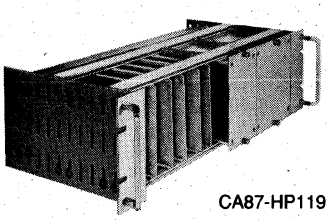
USER DESIGNED PACKAGING

All parts of the extensive Vector-Pak® system may be purchased separately to speed packaging prototypes.

RACK MOUNTING FRAME KITS

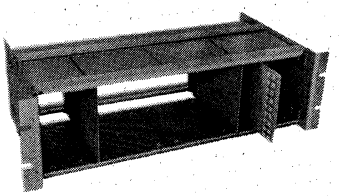


CA87-HP119

Adjusts to all card, module or receptacle size within range. Kits are supplied unassembled and have all required hardware. Major parts include 2 aluminum flanged side walls formed and slotted for standard rack mounting, 6 extruded aluminum T-struts (cross members) with mounting brackets and printed scale marking plus large assortment of required and extra screws, nuts, and lock washers. Card guides must be ordered separately. Special features of these kits are: slotted side walls for maximum mounting versatility—bracket mounting for all cross members (T-struts) for forward-backward positioning.

Type	Height (in.)	Depth (in.)	Max. Height Module	Max. Height Card
CA52-HP89	5.23	8.97	4.62	4.50
CA52-HP119	5.23	11.97	4.62	4.50
CA87-HP119	8.73	11.97	8.10	8.00

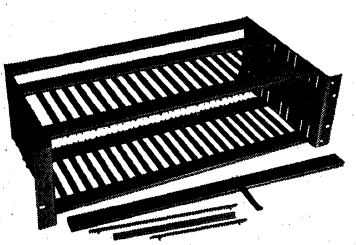
CONTINUOUS-PLATE CARD GUIDE RACKS



For maximum card density and position flexibility. 19" rack mounting cage in all aluminum with extruded plates having 0.075" wide by 0.10" deep grooves on 0.150" centers riveted to heavy cross struts. Comes completely assembled.

Type	Description
CCK3	Rack for 3.0-4.5" x 5.5" x 5.5"-7.0" cards
CCK4	Rack for 3.0-4.5" x 8.6" -10.1" cards
HA-12	Cage handles (2 per Package)
FP52-2	Filler panels for 5 1/4" high racks

UNASSEMBLED CARD RACK WITH SNAP-IN CARD GUIDES



Lower priced and more flexible. All-aluminum 19-inch rack mounting side walls and extruded cross members and holes for snap-in guides plus 4-way adjustable rear struts, preloaded with hardware for attaching connectors. Furnished molded snap-in nylon guides for 1/16" thick circuit cards. Cages accept 6 1/2" long cards 3" to 4 1/2" wide. Card spacing on .25" centers.

Type	Position	Width	Depth
CCK13S	21	19"	9"
CCK13AS	10	10.25"	9"

SNAP-IN CARD GUIDE

For use in Vector T-Strut, or user-supplied metal plates. Molded UL flame retardant 6/6 nylon guides can be installed in .156" diameter holes in metal thickness from .060" to .125". All used with P-type sidewalls. (*) indicates guide can also be used with E-type sidewalls.

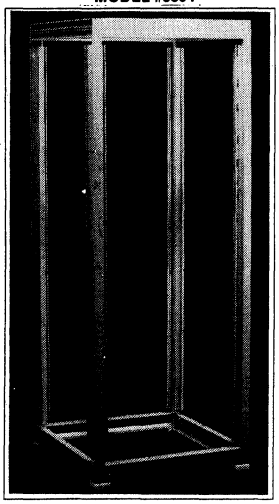
STANDARD 19" RACK

MODEL #8604



The series 8604 19" racks are constructed of rugged, clear anodized aluminium extrusions. They are modular, knock down units that can be easily assembled to meet your specific size requirements. Equipment mounting is accommodated by fully adjustable spring nuts located in the front panel track. Fully adjustable slide guide mounting is also provided for. Aluminium feet or solid rubber casters may be used for increased mobility. Panels and covers are .040", 3003 aluminium, vinyl laminated, with a chromate back. Prices start at $198. (Model 86041000).

The series 8607 DVMs offer an accurate, cost effective alternative for DC/AC voltage, current, temperature, or other digital metering. It is housed in a black anodized aluminium case which fits into a DIN standard cutout and features bright red .56" characters (see specification). Prices start at $39. (5VDC Model).

The series 8608 are high current, precision shunts for current measuring equipment and are readily available from stock. The base is constructed of copper. The resistive element is manganin (84Cu, 12Mn, 4Ni). The temperature coefficient of resistivity is 0.2% per 100°C. The thermoelectric coefficient is zero. Prices start at $9. (Model 86081000).

☐ **DEEP DRAWN ALUMINUM ENCLOSURES**
Over 40,000 standard sizes. Seamless, draft free, uniform tolerances and 8-day delivery.

☐ **ALUMINUM CARRYING CASES**
Five complete lines for immediate delivery from stock. Anodized or textured vinyl finishes over deep drawn shells.

☐ **PLASTIC CARRYING CASES**
Economical, yet distinctive cases of high impact thermoformed plastic with interlocking closures, or rotational molded reusable shipping/storage cases.

☐ **INSTRUMENT ENCLOSURES**
Elegance and versatility with a full range of accessories. 8½", 17" and 19" panel widths. Heights from 3½" to 26".

☐ **CABINETS, CONSOLES, ACCESSORIES**
New, expanded lines. Single or multi-bays, vertical, slope-front and desk-top configurations. All steel welded construction. Full range of accessories and options.

☐ **BLOWERS, COOLING SYSTEMS**
Wide range of standards, in top/rear/multi-angle discharge. Low noise. 200 to 1200 CFM. Full range of options.

☐ **MIL-SPEC CASES AND CABINETS**
Save design and engineering time. Simple part number ordering assures compliance to all major specs.

☐ **CHASSIS SLIDES AND ACCESSORIES**
Capacities from 80 to 275 lbs/pair. Roll formed steel or aluminum. Broad selection of handles, retractors, etc.

QUALITY PRODUCTS FOR PROFESSIONAL RESULTS

INJECTORALL

CHEMICALS, CLEANERS, COATINGS, DEVELOPERS & ETCHANT FOR THE ELECTRONIC INDUSTRY

SUPER 100 CLEANER AND LUBRICANT

SUPER 100 is a fast drying cleaner and lubricant that is excellent for all TV tuners and controls as well as electrical contacts and machined parts. SUPER 100 causes no destructive action on plastics, electrical insulation and wire coatings. Specially formulated with TF Freon for the industrial electronic industry. When you care to use the very best, this is the cleaner for you. Available in 3 oz., 6 oz., 16 oz.

ANTI-FUNGUS VARNISH

ANTI-FUNGUS VARNISH is a moisture and fungus resistant varnish conforming to MIL-173C specifications. It will produce a hard antifungus film that is acid and salt water resistant. It is an air drying varnish, natural in color and is recommended to be used on all electronic equipment especially in hot and humid climates. This insulating varnish is suitable for use on electrical windings, generators, transformers and electronic equipment. Available in 12 oz. spray and gallons.

PHOTO RESIST DEVELOPER

For Photo-Sensitized Boards

PHOTO RESIST DEVELOPER is a specially prepared solvent for developing photo resist images. It can be used for printed circuits, semiconductor parts and electroplating stopoff.

PHOTO RESIST DEVELOPER FOR NEGATIVE ACTING RESIST
Compatible with Kodak KPR resists.

No. D2-8	8 oz. can
No. D2G	1 gallon can

DRY FILM DEVELOPER

No. D1-6	6 oz. btl.
No. D1-P	16 oz. btl.

SUPER JET AIR COMPUTER CLEANER

SUPER JET AIR is a pressurized chemical at 70 P.S.I. which is used for blowing dust, lint and dirt from electronic instruments as well as projection and camera lenses. It is ideal to use in computers and other precision instruments where a moisture and lint free dust remover is necessary. Replaces the use of a brush or cloth which may disturb circuitry or break fine wiring. Available in 14 oz. and 20 oz. spray can.

POLY SPRAY

Polyurethane Insulator For Coating Printed Circuits

POLY SPRAY is a polyurethane resin for application to printed circuit assemblies. When sprayed on printed circuits, it forms a smooth, homogeneous transparent coating so as not to obliterate color coding of electronic components. It has excellent resistance to moisture and abrasion and is suitable for continuous operation up to 125°C. Used by original equipment manufacturers, it should be used by all servicemen after a printed circuit repair to insure satisfactory performance.

No. 65-16 • POLY SPRAY
16 oz. spray can
No. 65G • one gallon

ETCHANT

For Printed Circuit Boards

Injectorall's ETCHANT is a ferric chloride solution to remove excess copper from printed circuit boards. It is an electronic-grade solution from which the impurities have been carefully removed to meet the most stringent requirements of the electronic industry. It is packaged in a plastic bottle. The specific gravity is 42 degrees.

	Packed
No. PC199-6 • 6 oz. plastic bottle	• 24 each

*SHIPPED IN CARTONS ONLY

TYVEK JUMPSUIT

DuPont Tyvek® coverall is a tough, durable garment widely used and accepted throughout industry for many years. Tear and puncture resistant and resistant to most chemicals and acids. Fabric is: anti-static, lint free, washable, reusable, lightweight and comfortable. Wear it for any messy chore around the workshop. One size fits all.
No. PC-TYVEK

AMBIDEXTROUS NYLON TRICOT GLOVES

To be used to avoid fingerprints while handling copper clad boards. This low cost glove provides protection as well as a smooth untextured feel that allows the user to work with a natural touch. Reversible and can be worn on either hand. Outwears cotton gloves. Not to be used for protection against liquids.

NITRILE INDUSTRIAL GLOVES

This is the glove to be used while handling etchant, degreaser or stripper. Field tests indicate that the Nitrile compound has superior chemical and solvent resistance than neoprene while offering greater puncture, snag and abrasion resistance than natural latex.

1 Pair	12 Pair	Sizes
No. GN-8	No. GN-8-12	8
No. GN-9	No. GN-9-12	9

RSE22			√				√	√

DESCRIPTIONS OF PAINTS LISTED ABOVE

4c SERIES OF GOLD CONTACT REPLACEMENTS

May be carried as a shirt pocket kit for field repair of worn or defective gold plated contacts or to upgrade base metal contacts. It is applied in seconds as part of normal trouble shooting procedure. Each $68, shirt pocket kit for electronic field service representatives can save over $3520 in reduced board float, call-backs, and preventative maintenance.

May also be applied on original equipment contacts by production methods. There is no need for electroplating equipment, chemical disposal, or product design changes except for the elimination of gold plating and the substitution of a 4c material by far simpler application methods which may include brushing, dipping, spraying, or banding. Even electronic and electrical battery-operated games and toys can have the dependability of gold without the cost.

These 4c gold substitutes offer one of the most effective technologies available to increase reliability in two areas: A — Reducing the cost and consumer irritation of servicing the millions of your products already in the field, and, B — By adding them to your future production, assure maximum reliability and the reputation that results from reduced manufacturing costs and reduced field repairs.

SHIELDING LARGE STRUCTURES FROM ELECTROMAGNETIC INTERFERENCE (EMI)

New Shielding Method:
Reduces cost up to 80%
Reduces time 90% to 95%
Simplifies planning
Stands rough treatment

The WORRY-FREE shielding for a building, a cabinet, or a phonograph cartridge.

The new NR2HF synthetic rubber shielding combines the three KEY advantages of, 1 — Fast, low cost application by painting, 2 — Very high shielding effectiveness (up to 90 dB and, 3 — Ability to survive warping, building settling, vibration, and shock that would crack prevous shielding paint or open the seams of metal enclosures. It is INSURANCE against FUTURE problems. Applied quickly in production or in the field by spray, roller, brush, or dip. Samples available to shielding consultants and to potential shielding users.

CPA SERIES OF CONDUCTIVE ADHESIVES

These new circuit assembly materials provide a fundamentally new approach to simplifying a wide range of electrical connections such as surface mounted components, simplified connectors, and elimination of mechanical fasteners. For example, a pocket radio or TV set or wrist watch or washing machine or auto dash board circuitry can be designed to be assembled with far fewer parts and assembly operations. Surface mounted circuit board manufacture using the new Micro-Circuits assembly methods eliminates seven out of eight major items of assembly equipment and 57 of the 72 areas of cost that now limit acceptance of surface mounting. Like the 4c materials above, these products offer one of the most powerful new technologies now available for simplifying and miniaturizing electronic products.

AIRCRAFT ANTISTATIC AND RAIN EROSION RESISTANT PAINT

RSE100 paint is used for radomes and antenna covers. Used world-wide for over 20 years. One of our most goof-proof products. May be overcoated with decorative aircraft paints if our RA2 Antistatic Additive is mixed into the decorative paint to prevent static puncture damage and loss of antistatic effectiveness. RSE100 is very abrasion and chemical resistant as an antistatic flooring. May be overcoated with conventional floor coatings containing RA2 Antistatic Additive. RSE22 is similar to RSE100 but has a resistance of less than 200 ohms for shielding, ground planes on boat hulls, etc.

STATIC ELECTRICITY PROTECTION

Static electricity protection is becoming critically important in sensitive equipment, computer rooms, electronic warehouses, assembly lines and assembly benches, many hospital areas, chemical processing plants, and similar areas. The RSE100 Antistatic paint (see above) may be used on floors, walls, tables, furniture, etc. The RA2 Antistatic Additive (see above) permits the use of decorative, protective, and color-coding where such paints would previously have caused static problems.

SC12, SC13. SC20, AND SC15 SILVER PAINTS

These are conductive silver paints and inks used to form "wires", electromagnetic shielding, cold soldering of fine wires, reversing contacts on recording tape, conductive areas on paper and plastic parts, adjusting resistors, coils, capacitors, and pots. They have been used by magicians and to indicate fracture of rocks and aircraft parts. SC20 is for human skin electrodes.

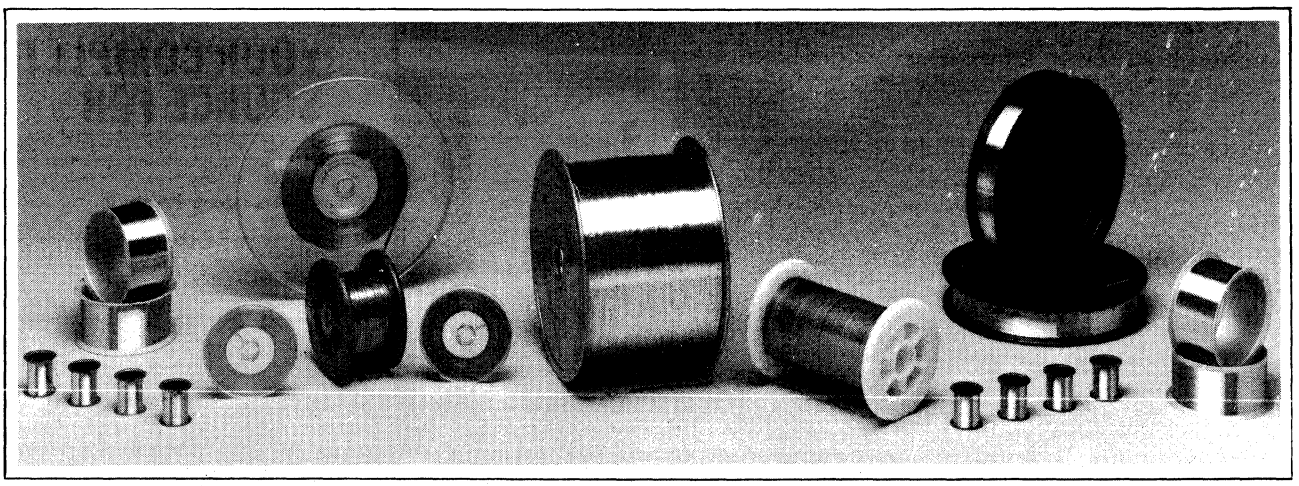
Precision Wire and Ribbon



SPM wire is widely used in the manufacturing of semiconductor devices as an electrical interconnect, either between a chip and substrate or between two chips.

The materials offered are of the highest quality, refined and alloyed by **SPM** to produce the excellent properties demanded of finished wire and ribbon products.

In addition to **pure gold**, the applications of which are well established, other alloys which offer alternate specific cost/performance characteristics are supplied.

Aluminum alloys, for example, are generally preferred to pure aluminum except in high-current devices because of greater drawing ease to fine sizes and higher pull-test strengths in finished devices. Commercially pure aluminum and 1% silicon-aluminum are most commonly used.

All-aluminum systems in semiconductor device fabrication, eliminate the "purple plague" (brittle gold-aluminum intermetallic compound) sometimes associated with pure gold bonding wire. Aluminum is particularly suitable for ultrasonic bonding.

SPM wire and ribbon standards are unsurpassed in the industry. Wires, for example, are supplied in diameters from 0.0005″ and up for applications where uniformity of elongation, tensile strength and diameter are of paramount importance. High-purity wire, like all **SPM** products for the electronics industry, is vacuum-processed from highly refined metals. Wire for automatic bonders are an **SPM** specialty.

Ribbons of pure gold and base metals for microwave and other applications are also available from **SPM** and are customed-manufactured to close specifications. As with wire, many of the base metals can be supplied plated with other metals for PC board repair and other applications.

Precision Stampings

SPM preforms, for brazing and soldering assembly operations, deliver controlled melting and flow points, high thermal conductivity, precise dopant characteristics, and close dimensional and volumetric tolerances.

SPM supplies all the popular alloys in soft base metal solders, gold eutectic solders, and hard braze materials. We also offer base metal alternatives to gold preforms.

Many shapes and sizes are available made from spectrographically analyzed metals, cast, rolled, and heat-treated under strictly controlled conditions. **SPM** preforms are stamped on precision equipment under continuous inspection, with tools, and dies made by **SPM**'s own toolmakers to tolerances of ±0.0001″.

Nickel, F-15, alloy 42, molybdenum, stainless steel, and various other base metals and alloys are manufactured into lids, base tabs, and other parts by **SPM**.

PREFLOW® LID

A low cost alternative to the gold plated lid, gold tin preform assembly — available NOW!

BRAZING ALLOYS AND TEMPERATURES

The **SPM** alloys shown below require moderate to high temperatures for brazing, and are often used to assemble metal parts, to metal and metalized ceramic packages, pedestals to bases, and other special applications.

QUIKBOARDS and BUS STRIPS

a Solderless Breadboard to make a Prototype as fast as you can think

FEATURES

1. **EASY** ..... Plug any IC into the QUIKBOARD on a 1/10″ grid.
2. **ASSEMBLY** ..... Push #22AWG solid wire into any of five solderless tie-points.
3. **EXPAND** ..... Dove-tail extrusions expands breadboards to any size by simply locking QUIKBOARDS together.
4. **MOUNTING** ..... Mounts on any flat surface with #4 self-tapping screws.
5. **BUS STRIPS** ..... Bus Strips may be added to any board for power or ground lines. Bus Strips have 2 separate rows of common terminals grouped into clusters of five.

MINIGLOSSARY ENCAPSULATION

MATERIALS/HANDLING

Catalyst: A substance which changes the *rate* of chemical reaction. Very small quantities can cause fast change.

Conformal coating Sprayed or dipped. A thin conformal jacket which protects an assembly from moisture or other degrading environments.

Curing agent: See catalyst.

Hardener: See catalyst.

Hermetic: A permanent gas-tight seal.

RTV: Room Temperature Vulcanizing. Associated with silicone rubber sealants which vulcanize at room temperature.

Thermoplastic: Plastic materials which can be made to flow *repeatedly* with the application of heat.

Thermosetting: Plastics which once cured cannot be made to flow again.

Thixotropy: The property of a coating compound which has low viscosity when agitated, but which thickens when the agitation ceases.

Viscosity: Measured in units of *poise* or *centipoise*. The property of a liquid which resists internal flow. Low viscosity equates with thin and vice-versa.

PROCESSING

Casting: Parts or assemblies are placed in a mold. Encapsulating material is added and cured. Part is then removed from the mold.

Dip coating: Part or assembly is dipped into the encapsulating material. Final thickness is determined by number of dips, viscosity, rate of withdrawal, and temperature.

Embedding: Wherein an encapsulant substantially fills all voids in and about an assembly.

Impregnation: A process of encapsulation involving evacuating all air and then allowing the encapsulating material to flow in and fill all voids.

Molding: Similar to casting except this process usually implies multicavity molds and costly machines.

Potting: Wherein the part or assembly is immersed in an encapsulating material contained in a shell which becomes a permanent outer surface after curing.

DIELECTRIC

Arc resistance: An encapsulant's resistance to the formation of a conductive path or track. Measured in time.

Breakdown voltage: The voltage at which an encapsulant fails electrically.

Capacitance: The property of conductors and dielectrics which allows the storage of an electrical charge when the voltage is applied.

Corona: A luminous discharge of electricity due to air ionization when a certain voltage is reached. Can be internal or external. The formation of ozone can cause rapid deterioration of certain materials.

Dielectric: Insulator (Nonconductor.)

Dielectric constant: The property of a material that determines its ability to store electrostatic energy.

Dielectric strength: The ratio of dielectric breakdown to the thickness of insulating material.

Dissipation factor: The ratio of a dielectric material's energy losses.

Flashover: Point at which an electric discharge occurs around an edge or across a surface. Can result in a carbon track and permanent degradation.

Insulation resistance: (IR) An insulating material's total DC leakage.

Surface resistivity: The resistance of the surface of an insulating material to the flow of direct current.

Voltage endurance: Sometimes called corona resistance. The ability of a material to withstand the application of sustained high voltage.

Volume resistivity: The resistance of a material to direct current flow as a measure of volume. Expressed as ohm-centimeters.

UNIVERSAL PROTOTYPING CARDS

Use for prototype, test, and short run plug-in circuits. All boards are 1/16" thick and have an overall grid of 0.042" holes on 0.1" centers (pattern "P"). All etched circuitry above contact area is tinned for easy soldering. Boards are available with varied contact arrangements and mating connectors are listed. Back-to-back contacts terminate in independent hole pads. Layout paper furnished with all boards.

PROTOTYPING CARD AND CIRCBORD® SPECIFICATIONS

Flame retardant epoxy glass composite.
Copper cladding: 2 oz. (.0027" thick) 1 or 2 sides.
Solder coated except contacts.
Plugboard contacts: Nickel plated and gold flashed.
Terminals: Stamped brass or phosphor bronze tinned

§Surface Mount Test Device

EEM MINIGLOSSARY CONNECTORS

Connector terminology is often quite confusing. This confusion starts with the very names of connectors. The name of a connector may derive from its shape, application, type of conductor or even method of termination.

Shape—Circular, cylindrical, and rectangular.

Electrical application—High voltage, RF, microwave, input/output, etc.

Mechanical application—Printed circuit, rack & panel, cable, etc.

Conductor type—Coaxial, flat cable, ribbon cable, flex circuit, etc.

Termination method—Wirewrap, soldercup, solderless, etc.

Hardware such as clamps, hoods, and adapters are frequently used to convert cable connectors to rack and panel types. This adds to the name confusion. A very common telephone connector, for example (the "C" type) got its name from the model number of the original maker.

Contact: The part(s) of the connector that actually provides circuit continuity between its two sections—the parts which are normally mated. The back end of the connector should properly be called the *termination*. This is the point where the wires or PC board is attached to the connector.

Contact alignments: Often called *contact float*. Describes the amount of allowable contact movement within the connector body. Permits self-alignment.

Male vs. female: In the U.S. this describes the contact construction. In Europe this term is more often used to describe the outer shell mating action which may be the reverse of the contacts.

Closed entry: A female contact which prevents entry of a male contact larger than a specific size.

Open entry: A female contact designed for a specific size of male contact but which will allow entry of larger male contacts by spring action.

Hermaphrodite: Contacts or connector bodies which are the same configuration. Male/female designations do not apply. Bodies usually have some mechanical means for maintaining polarity.

Hermetic seal: Glass-to-metal seals at terminations. Often used improperly to describe vacuum-tight seals.

Waterproof seal: May or may not be truly *waterproof*. May prevent easy entrance of casual water by means of a rubber or other boot.

Printed circuit connector: Connectors which are used in conjunction with printed circuit boards. There are two distinctly different styles.

Edgeboard. May be called *edge* or *card*. The printed circuit (PC) board edge enters the connector.

Two-piece: One part of the connecting pair is physically attached to the PC board itself. The other part is attached to something else such as a cable or a motherboard.

Readout: Describes the arrangement at the terminating edge of a PC board. May be single or double. A double readout PC board has termination strips on each side not usually interconnected.

Ribbon connectors: A type of connector which allows flat "ribbon" cable to be attached to a round or rectangular connector but also used interchangeably for flat connectors to flat cable.

Ribbon contact connector: Describes the contacts in a rectangular connector which have a self-wiping mating action. Not the same as ribbon connector.

Solderless terminal: Any style of termination which does not require solder for a permanent connection. See *crimp* and *insulation displacement*.

Crimp termination: A stripped wire is inserted into a barrel or trough which is then crimped to the conductor with a suitable tool.

Insulation displacement: Unstripped insulated wire is fitted into a channel containing metal teeth which are forced through the insulation to make contact with the conductor.

Service rating: The maximum rated voltage and/or current which may be applied continuously. May be called *working voltage*. Can be confused with the term used to describe how many times a connector may be mated and separated.

Withstanding voltage: Also called *test voltage*. The voltage a connector must withstand for one minute without breakdown. Applied between connectors and between connectors and shell and any grounding devices of the connector.

Known for Quality Connectors and On-Time Delivery:

.100″

2-, 3-, and 4-row subminiature connectors on .100″ centers from 6 to 200+ contacts. Qualified to MIL-C-55302. See "W" Series connectors on the following pages **C**•1122-1135.

.075″

2- and 3-row subminiature connectors on .075″ centers from 10 to 206 contacts. Meet requirements of MIL-C-55302. See "R" Series connectors on the following pages **C**•1136-1138.

.050″

2-, 3-, and 4-row microminiature connectors on .050″ centers from 9 to 100 contacts. Now qualified to MIL-C-83513. See "M" Series on pages **C**•1139-1146. Also strip connectors on .050″ centers.

QPL

"W" Series connectors are qualified to MIL-C-55302. And now the "M" Series connectors are qualified to MIL-C-83513.

ADS

Our exclusive AirBorn Distributor Service can provide parts often within hours. Call the appropriate Customer Service Number on each catalog page for details, or call AirBorn's Distributor Service HOTLINE at 214-931-2800.

DIMENSIONS

To determine connector length (Dim. "A"):

Multiply the number of contact cavities by .050″	. ″
Add fixed end lengths (constant)	.020″
Add .150″ for each mounting hole	. ″
Total Length*	. ″

NOTE:
* Maximum length is 6.020″. Maximum number of contacts must be reduced to accommodate hardware and mounting holes. Minimum length is .170″ (3 contact cavities).
** When locating one lockscrew, use the centermost available hole. Also, careful engagement is necessary to prevent damage to the plastic threads.

For types of hardware and other specific design requirements to meet specific applications, call AirBorn Customer Service at 512-863-5585 or TWX 510-601-5238.

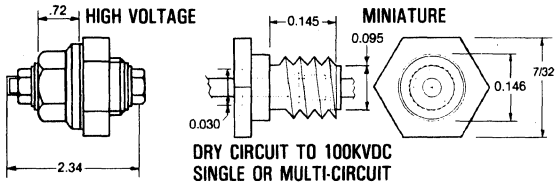
ALDEN PRODUCTS COMPANY

SPECIALTY CONNECTION PRODUCTS

Alden Takes You From Concept Through Prototype To Production

SPECIALTY SINGLE AND MULTI-LEAD ENVIRONMENTAL FEEDTHROUGHS AND CONNECTORS



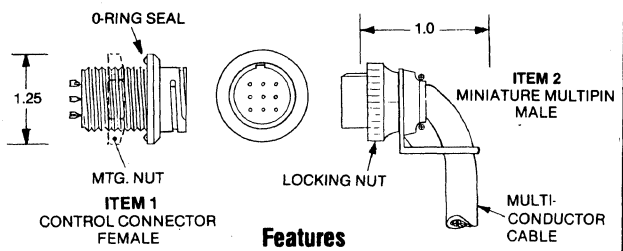
DRY CIRCUIT TO 100KVDC
SINGLE OR MULTI-CIRCUIT

Features

- High voltage panel mounting feedthroughs seal in liquid and gas dielectrics at operating voltages to 60KVDC.
- Miniature panel mounting feedthroughs are designed for use with single or multiple leads.

For Further Information Contact Alden's Product Manager For
Environmental Connection Devices

HIGH AND LOW VOLTAGE MULTI-PIN CIRCULAR CONNECTORS



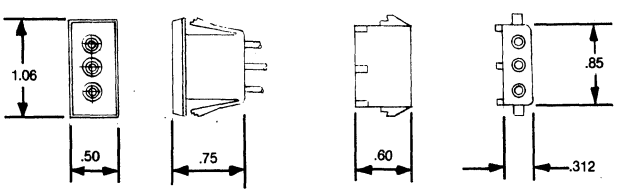
Features

- Alden's rugged control connectors stand up to tough environments in critical applications.
- Alden's miniature multi-pin connectors maximize pin counts in an environmentally sealed package.

For Further Information Contact Alden's Product Manager For
Circular Connector Products

HIGH AMPERAGE PANEL AND BACKPLANE MOUNTING CONNECTORS

Connectors Available
For Operation At 5 To 75 Amperes

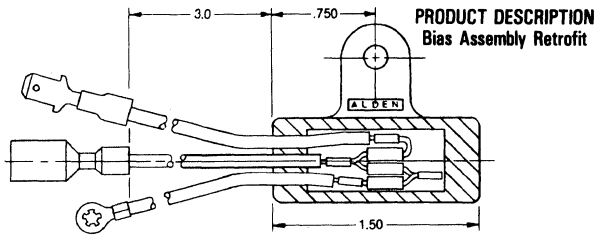


PANEL MOUNTING SNAP-IN FEATURE

BACKPLANE MOUNTING COMPLIANT PIN

For Further Information Contact Alden's Product Manager For
Business Machine Connector Products

SPECIALTY MINIATURE ENCAPSULATED CIRCUIT MODULES

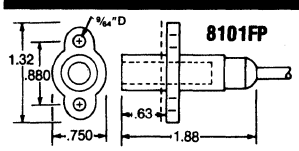


Features

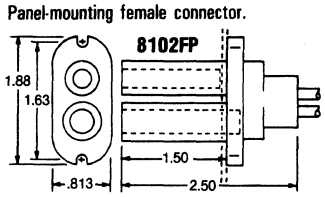
- Modules are designed to accommodate circuitry per customer specification.
- Mounting features and input/output connections are designed for easy retrofit of existing circuits.

For Further Information Contact Alden's Product Manager For
Encapsulated Products

HIGH VOLTAGE SINGLE OR MULTI-PIN CONNECTORS

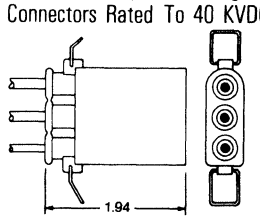


Panel-mounting female connector.



Polarized panel-mounting female connector.

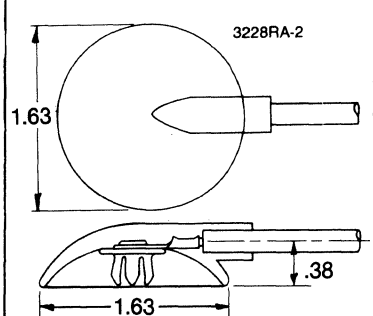
Ask For Our Complete Catalog Of Connectors Rated To 40 KVDC



8113M
Polarized, two-circuit, male connector with ground lead and optional locking wire latches. Mates with 8113FP.

For Further Information Contact Alden's Product Manager For
Standard High Voltage Products

HIGH VOLTAGE 3228 SERIES CRT ANODE CONNECTORS



Features

- High voltage up to 40 KVDC
- Low profile
- Available with contacts per JEDEC specs:
  J1-21 J1-22 J1-25 J1-30
- All connectors manufactured with UL rated materials
- Integral molding of boot to lead assembly maximizes HV performance

For Further Information Contact Alden's Product Manager For
CRT Anode Connectors

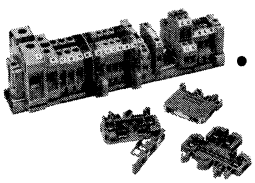
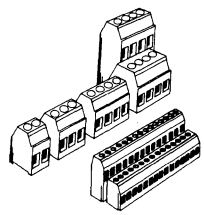
SUPPLYING SOLUTIONS...

CONTA CLIP — MODULAR TERMINAL BLOCKS

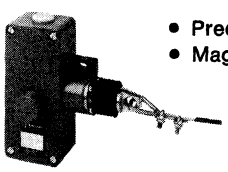


- A complete system from standard feed-through terminals to quick disconnects to fused and custom terminal blocks with electronic components.
- Special space saving designs: 5 mm (.2 in.) wide and double level terminal blocks.

- Whatever your needs, we supply DIN Rail, Panel or PC Board mounted terminals.
- A full line of accessories including ferrules, marking system, etc.
- Interface modules.

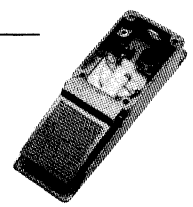


steute — SWITCHES



- Precision Limit Switches
- Magnetic Position Switches

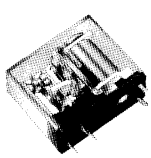
- Foot Operated Switches
- Tension Safety Switches



Available in miniature versions and suitable for standard and explosion proof environments.

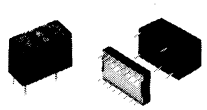
DOLD — INDUSTRIAL RELAYS

MICRO SIZED P.C. MOUNTED POWER RELAYS

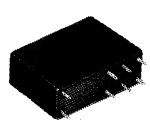


28.7 mm (L) X 12 mm (W) X 25.5 mm (H)

- Up to 50 million switching cycles
- Up to 16 amps

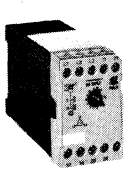


37 mm (L) X 10.8 mm (W) X 25 mm (H)



29 mm (L) X 12 mm (W) X 25.5 mm (H)

SPECIALTY RELAYS



- Undervoltage, single phase and three phase, with adjustable Hysteresis
- Phase sequence
- Asymmetry
- Frequency
- Power factor monitor
- Ask us for any other applications

- Speed monitor
- Thermistor motor protection
- Insulation monitors
- Fault annunciating systems
- Timing
- Multifunction

AMP Ultra-Fast Receptacles and Tabs

These fully-insulated terminals, available in right angle flag and tab configurations, are your most cost effective way to meet safety hazard requirements. With good reason. A one-step operation gets rid of a whole array of costly post insulation problems. And the result is compatible with the safety requirements of Underwriters Laboratories standards 1410, 478 and 560.

Color	Code	(Translucent)
Violet	26-22	AWG
Red	22-18	AWG

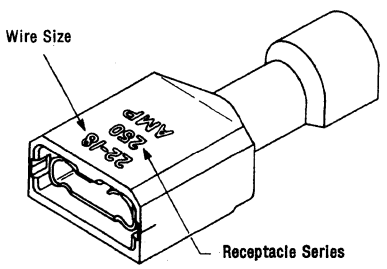
Ultra-Fast Fully Insulated FASTON Receptacle

Material:
Housing — Nylon Type 6/6, 94V-2
Terminal — Tin-plated, copper alloy



Features

■ Prevents shock and short hazards ■ Insures correct lead-in of tab ■ Insures full mating with a variety of tab styles including those with shoulders ■ Terminals are color coded by wire size ■ Terminals contain wire size and tab size designation ■ Listed under the Component Program of Underwriters Laboratories Inc., Electrical File No. E66717 ■ CSA Certified under File No. LR 49710 ■ Nylon Type 6/6 housing meets UL temperature rating of 105°C ■ Terminates 26-10 AWG stranded wire ■ Meets UL-310 specification for quick connect terminals

AMP Universal MATE-N-LOK Connectors

meet international standards and also handle 600 volts safely.

Features

- Pins and sockets can be intermixed in the same housing
- Positive polarization
- Pin or socket contact can be hot
- Available in phosphor bronze for high temperature applications
- Positive locking housings
- Insulation capability to .200 diameter
- Removable, crimp snap-in contacts
- Panel mount or free-hanging
- Available in 94V-0 flame retardant material
- pc board capability using pin or socket header assemblies
- Recognized under Component Program of Underwriters Laboratories Inc. File No. E28476
- CSA Certified — File No. LR 16455
- Tested by VDE under their Test Report 4751-800-2/A

AMP, MATE-N-LOK — Trademark of AMP Incorporated

AMP INCORPORATED

AMPLIMITE Mil-Spec-Type Series 109 and 90 Pin and Socket Connectors (Subminiature "D" Type)

Materials:
Shell—Steel, Class G; Cadmium plated per QQ-P-416, Type II, Class 2*
Insert—Diallyl Phthalate per MIL-M-14, Type SDG-F; Color, Blue
Retention Springs—Stainless Steel*

*Shells in non-magnetic brass and retention springs in beryllium copper can be supplied upon request.

AMPLIMITE Series 109 and 90 Connectors are compact pin and socket connectors especially designed for state-of-the-art high density packaging. They are ideally suited for such diverse applications as military and ground support, computer peripheral equipment, modems, and industrial control instrumentation. Series 90 Connectors provide even higher density than the Series 109 Connectors.

Features (Series 109 Connectors) ■ Wide choice of sizes — 9, 15, 25, 37 and 50 contact positions ■ Conforms to latest amendments of MIL-C-24308 ■ Optional mounting — standard or with floating bushings ■ Machine applied terminations of size 20 screw-machined and precision formed contacts assure highest production rates and lowest applied cost ■ Contacts accept 24-20 AWG wire range.

Features (Series 90 Connectors) ■ Wide choice of sizes — 15, 26, 44, 62, 78 and 104 contact positions ■ Connectors conform to latest amendments of MIL-C-24308 ■ High density connections — contacts spaced as close as .090" (in 15, 26 and 44 positions) ■ Size 22 contacts available in screw-machined or precision formed versions, accommodate No. 28-22 AWG wire range ■ Cadmium plated steel shells ■ Machine applied terminations assure highest production rates at lowest applied cost

The Series 109 and 90 Connectors are also available with gold plated non-magnetic brass shells.

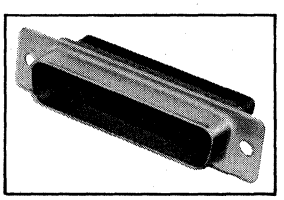
HD-20 Metal-Shell Connectors Preloaded with .026 Dia. Right-Angle Posted Contacts for Pc Board Mounting



HD-20 Metal-Shell Connectors for Snap-In Contacts

Features

- Available in various styles: metal shell, plastic insert HD-20 connectors for snap-in contacts and HDF-20 connectors for round conductor. Flat cable: all-plastic HDP-20 connectors for pc board mounting and HDJ-20 connectors for jacketed cable.
- Shell sizes 1 thru 5 offer wide choice of contact positions: 9, 15, 25, 37 and 50.
- HD-20 metal-shell connectors accept size 20 DF precision-formed and size 20 DM screw-machined contacts.
- HD-20 metal-shell connectors employ captivated plastic retention tines to eliminate need for spring clips.
- HDP-20 all-plastic connectors employ 94V-0 rated thermoplastic housings with straight and right-angle posted contacts.
- Broad selection of accessories for strain relief/cable clamping, connector-to-connector mating, connector-to-pc board mounting, circuit commoning and keying.
- Machine-applied terminations of size 20 DF and size 20 DM and insulation displacement contacts assure highest production rates at lowest applied cost.
- Filtered AMPLIMITE connectors are available, request Catalog No. 78-487 for specifications.
